**Crush the Cell** Michael A. Sheehan,2008-05-06 Written by a man who is arguably the country's most authoritative voice on counterterrorism, *Crush the Cell* demolishes, with simple logic, the edifice of false "terror punditry" that has been laid, brick by brick, since 9/11. A veteran of special ops, international diplomacy, and bruising clashes with federal law enforcement agencies, Michael Sheehan delivers in this book a two-part message: First, that we've wasted-and are continuing to waste-billions of dollars on the wrong protective measures, and second, that knowing the bad guys' next move is paramount. Somewhere in America, Sheehan maintains, are a number of terrorist cells, their members' heads filled with schemes of mayhem and destruction. Motivated not, as some believe, by feelings of disenfranchisement, disdain for freedom, or economic envy but by a compelling ideological hatred, these individuals plot not just terror but paralyzing terror-the kind that can shut down a country. Unwittingly aiding and abetting them are many (but not all) "terror experts" and members of the media who, for reasons that are partly self-serving, rate the bad guys' capabilities far higher than they are, playing into terrorists' hands with their hype. Spurred by the pundits' inflated assessments, legislation follows that drains billions from taxpayers' pockets and pours money into a bloated Washington bureaucracy championing needless programs. Here, Sheehan shows why defensive fortresses don't work, but offensive operational intelligence does. He also peels back the mystery surrounding terrorist cells, portraying them as, typically, a group of bumblers searching for a charismatic leader who has what it takes to conduct a complex symphony of violence. Sharing time in the narrative spotlight are not just agents of al Qaeda, but also frighteningly destructive lone wolves, cults, and radical movements. In his career, Sheehan has operated in the mountain jungles of Central America, the back alleys of Mogadishu, and the teeming streets of New York City-but he has also participated at the highest levels of policy making at the White House, the State Department, and the United Nations. It's his time protecting America's most populous city as its counterterrorism czar, however, that yields this book's most fascinating insights. As Sheehan reveals thwarted threats to New York's bridges, subways, and landmarks, and recounts extraordinary simulations staged to gauge terrorists' true abilities, we gain perhaps the clearest picture yet of what modern terror-fighting is all about.

*Deadman's Bluff* James Swain,2006-05-30 "In this series about gambling, the main character is a big winner." -Janet Maslin, The New York Times "Bask in Swain's Las Vegas without having to set foot in the place and risk being skinned alive." -The Washington Post Book World A blind poker player named Skip DeMarco is scamming the world's largest poker tournament in Las Vegas, and cheating-expert Tony Valentine and his son, Gerry, have been hired to find out how. DeMarco is tied to some dangerously desperate characters who will go to extremes-even cold-blooded murder-to ensure that the obnoxious DeMarco wins big. While Gerry flies to Atlantic City to suss out DeMarco's secret, Valentine stays in Vegas and teams up with an aging grifter named Rufus Steele, who has his own score to settle with DeMarco. On opposite sides of a deadly game, father and son work their way through a colorful landscape of conmen and hitmen. Together, they will have to prove there's more to any game of chance than meets the eye. Featuring insider tips for catching poker cheats, as well as a glossary of card hustler terms!

**Securing the City** Christopher Dickey,2009-02-03 The NYPD is the best and most ambitious antiterror operation in the world. Its seat-of-the-pants intelligence is the gold standard for all others. Christopher Dickey, who has reported on international terrorism for more than twenty-five years, takes readers into the secret command center of the New York City Police Department's counterterrorism division, then onto the streets with cops ready for the toughest urban combat the twenty-first century can throw at them. But behind the tactical shows of force staged by the police, there lies a much more ambitious and controversial strategy: to go anywhere and use almost any means to keep the city from becoming, once again, Ground Zero. This is the story of the coming war in America's cities and New York's shadow war, waged around the globe to stop it before it begins. Drawing on unparalleled access to Police Commissioner Ray Kelly and other top officials, Dickey explores the most ambitious intelligence operation ever organized by a metropolitan police department. Headed by David Cohen, who ran the CIA's operations inside the United States in the 1980s and its global spying in the 1990s, the NYPD's counterterrorism division had uptothenminute details of new attacks set in motion to target Manhattan in 2002 and 2003. New York's finest are now seen by other police chiefs in the United States as the gold standard for counterterrorism operations and a model for even the FBI and the Department of Homeland Security. Yet as New Yorkers have come to feel safer, they've also grown worried about the NYPD's methods: sending its undercover agents to spy on Americans in other cities, rounding up hundreds of protesters preemptively before the 2004 Republican convention, and using confidential informants who may be more adept at plotting terror than the people they finger. *Securing the City* is a superb investigative reporter's stunning look inside the real world of cops who are ready to take on the world and at the ambiguous price we pay for the safety they provide.

*Acts of Media* Narrain, Siddharth,2022-11-10 *Acts of Media* seeks to consolidate a field of multidisciplinary work around media technologies that intersects with legal scholarship. This volume brings together contributions from leading academics, lawyers, researchers and policy experts about contemporary India and Sri Lanka. The approaches to law and media taken in this volume challenge us to think outside of traditional disciplinary descriptions. Rather than approaching the law as being outside of, and constantly catching up with the media, the contributors of this book view law and media as being deeply intertwined. The chapters in this volume address the relationship between law and media through different entry points---disputes over media and information systems shaping law, theories of law that incorporate media forms, and law and media co-producing trials. The multidisciplinary nature of this book has facilitated a rich and productive conversation among legal scholars, researchers and lawyers from disciplines such as constitutional law, law and technology, media and cinema studies, legal anthropology and political science.

*Stark's War* John G. Hemry,Jack Campbell,2000-04-01 The Americans were the first to set foot on the moon. They intend to be the last. The United States of America reigns over Earth as the last surviving superpower. To build a society free of American influence, foreign countries have inhabited the Moon, taking advantage of the natural resources to earn their own riches. Now the U.S. military has been ordered to wrest control of Earth's satellite from America's rivals. Sergeant Ethan Stark must train his squadron to fight against a desperate enemy in an airless atmosphere at one-sixth normal gravity. Ensuring his team's survival means choosing which orders to obey--and which to ignore...

**Precinct** Michael Grant,2012-09-29 Captain Richard Leland is a rising star in the NYPD. Young, bright, and super ambitious, his goal is to be the police commissioner by the time he's forty. He's right on track, but then department politics rears its ugly head. All his carefully laid plans are suddenly thrown into jeopardy when his boss, Chief of Department Charles Drum, decides his young protégé needs more patrol experience—something that Leland has been avoiding at all costs because he knows that almost anything that goes wrong in a precinct could derail his promising career. To his horror, Leland is transferred to the notorious Bronx precinct that cops call "Fort Frenzy." With good reason, a wary Leland views his precinct assignment as a career minefield that at any moment could blow his hopes and expectations all to hell. His new boss, Assistant Chief Lucian Hightower, is an archenemy of Chief Drum and he's not at all happy to see this "headquarters groupie" in his borough. Another major flashpoint for Leland is Kawasi Munyika, a loudmouthed political activist who is waiting for that one "cause" that will propel him into national prominence. Then, there's the "Poet Bandit," a psycho whose robbery notes contain poems, and the "Midnight Mangias," a couple who break into restaurants and cook their own meals. If that isn't enough, Leland is forced to contend with angry cops, whacko cops, a radio car romance, a "cop fighter" bar that needs to be

closed, and a beautiful, if contentious, community organizer who is a thorn in his side. Or is she? Finally, it all comes to a head. Kawasi Munyika finds his “cause”—the boycott of a Korean grocery store. And Richard Leland is faced with his own personal Armageddon: Will he protect his career or will he do the right thing? This book, sometimes humorous, sometimes tragic, offers the reader an insider’s unique view of the life of a precinct commanding officer and what goes on behind the walls of a NYPD precinct.

**The Underworld U.S.A. Trilogy, Volume I** James Ellroy, 2019-06-04 America was never innocent. Thus begins the Underworld U.S.A. Trilogy. It's James Ellroy's pop history of the 1960s, his window-peeper's view of government misconduct, his dirty trickster's take on the great events of an incendiary era. It's a tour de force of the American idiom, and an acknowledged masterpiece. American Tabloid gives us Jack Kennedy's ride, seen from an insider's perspective. We're there for the rigged 1960 election. We're there for the Bay of Pigs fiasco. We're the eyes and ears and souls of three rogue cops who've signed on for the ride and come to see Jack as their betrayer. We're Jack's pimps and hatchet men, and we're there for that baroque slaying in Dallas. The Cold Six Thousand takes us from Dallas to Vietnam to Memphis to the kitchen of the Ambassador Hotel in L.A. We're rubbing shoulders with RFK and MLK, calamitous klansmen, noted mafiosi. We're forced to relive the American sixties--and we come away breathless. The first two books of the Underworld U.S.A. Trilogy revisit the most anarchic decade in our history. They are defined by their brutal linguistic flair and reckless panache.

**Rescued by the Single Dad** Whitley Cox, 2024-04-06 What happens when the brewery prince falls for the mermaid and ends up endangering his entire kingdom? Welcome to San Camanez, a humble, peaceful little island in the Puget Sound and home to the McEvoy brothers. Four sexy single fathers—and one childless snack with a beard—who run a brewpub on the beach, raise their kids together, and hope to find love and happiness in the chaos that is life. This is Clint’s story ... Single Dad and brewmaster Clint McEvoy went down to the beach to drink and wallow. He never expected to find a Hollywood starlet naked and unconscious on the rocks. Nor did he expect to learn that someone wants her dead. He’ll do whatever he can to keep Brooke safe, even if that means risking his heart and his family’s peaceful life to do it. Brooke Barker didn’t see it coming. One minute, she’s on a yacht, celebrating the release of her latest film, the next, she’s fighting for her life in the frigid Puget Sound. Waking up on Clint’s couch was a blessing she’s not sure she deserves. Now, she needs to figure out who pushed her while allowing the world to think she’s dead. One thing that’s alive and well, though? Her attraction to Clint, and her growing affection for his young daughter. Can Brooke keep her heart out of the equation, and also keep the McEvoy family safe? Or will hiding on the island and in Clint’s bed bring danger to their doorstep? keywords: single dad, overboard actress, little mermaid, washed ashore, whodunnit?, murder mystery, small town, hippy island, brewery, widower, brotherhood, brewpup, widowed brothers, fighting the big fight against the establishment, forced proximity, hero complex, savior complex, military, marine, rom-com.

*Call Me Elizabeth Lark* Melissa Colasanti, 2021-03-09 Your daughter went missing twenty years ago. Now, she's finally back. You thought she had returned a few times in the past, and your husband tells you she's not the one, but you feel it in your bones. Now, what will you do to keep her home? Twenty years ago, Myra Barkley's daughter disappeared from the rocky beach across from the family inn, off the Oregon coast. Ever since, Myra has waited at the front desk for her child to come home. One rainy afternoon, the miracle happens--her missing daughter, now twenty-eight years old with a child of her own, walks in the door. Elizabeth Lark is on the run with her son. She's just killed her abusive husband and needs a place to hide. Against her better judgment, she heads to her hometown and stops at the Barkley Inn. When the innkeeper insists that Elizabeth is her long lost daughter, the opportunity for a new life, and more importantly, the safety of her child, is too much for Elizabeth to pass up. But she knows that she isn't the Barkleys's daughter, and the more deeply intertwined she becomes with the family, the harder it becomes to confess the truth. Except the Barkley girl didn't just disappear on her own. As the news spreads across the small town that the Barkley girl has returned, Elizabeth suddenly comes into the limelight in a dangerous way, and the culprit behind the disappearance those twenty years ago is back to finish the job.

The Cold Six Thousand James Ellroy, 2011-06-22 The internationally acclaimed author of the L.A. Quartet and The Underworld USA Trilogy, James Ellroy, presents another literary noir masterpiece of historical paranoia. In this savagely audacious novel, James Ellroy plants a pipe bomb under the America in the 1960s, lights the fuse, and watches the shrapnel fly. On November 22, 1963 three men converge in Dallas. Their job: to clean up the JFK hit’s loose ends and inconvenient witnesses. They are Wayne Tedrow, Jr., a Las Vegas cop with family ties to the lunatic right; Ward J. Littell, a defrocked FBI man turned underworld mouthpiece; and Pete Bondurant, a dope-runner and hit-man who serves as the mob’s emissary to the anti-Castro underground. It goes bad from there. For the next five years these night-riders run a whirlwind of plots and counter-plots: Howard Hughes’s takeover of Vegas, J. Edgar Hoover’s war against the civil rights movement, the heroin trade in Vietnam, and the murders of Martin Luther King, Jr. and Bobby Kennedy. Wilder than L. A. Confidential, more devastating than American Tabloid, The Cold Six Thousand establishes Ellroy as one of our most fearless novelists.
