The Originals Murry Nelson, 1999 Was there really professional basketball before the NBA? Indeed there was. It was a rugged game but one that continued to evolve swiftly from its invention in 1891. The original Celtics were at the vanguard of this creation and development. The team began as a local group of young Irishmen from the Hell s Kitchen area of New York City in 1914. Through shrewd acquisitions of top players, they were transformed into the most powerful basketball team of their time. In the period from 1919 to 1928 the Celtics won over seven hundred games with fewer than sixty losses. This book chronicles the team, the players, the league seasons and the early era of professional basketball.

How to Watch Basketball Like a Genius Nick Greene, 2021-03-02 A brilliant, entertaining deconstruction of basketball, drawing on the expertise of board-game creators, magicians, therapists, and more Basketball is the second-most popular sport in the world—an insanely complicated game built on a combination of athleticism, craftiness, rules, intangibles, and superstardom. However, while it's enjoyable to watch, the real reason it works is because it's a game of culture, art, and all the things that make us human. How to

Watch Basketball Like a Genius deconstructs the sport from top to bottom and then puts it back together again, detailing its intricacies through reporting and dozens of interviews with experts. These experts, however, are a diverse group: wine critics weighing in on LeBron's ability to delegate on the fly, magicians analyzing Chris Paul's mystifying dribbling techniques, cartographers breaking down Steph Curry's deadeye three-point shooting. Every chapter treats basketball to a multi-disciplined study that adventures far beyond the lines of the court, examining key elements of the sport from some surprising and revealing angles. There's a reason it has conquered the world, and every game is a chance to learn about pop culture, fashion, history, science, art, and anything else that bounces our way.

Abe Saperstein and the American Basketball League, 1960-1963 Murry R. Nelson, 2013-03-22 This book examines the American Basketball League and its short history, beginning with its conception in 1959-60 and its two seasons of play, 1961-1963. The league was the first to use a trapezoidal, wider lane and a 30-second shot clock, as well as the 3-point shot. With a team in Hawaii, the league created an adjusted schedule to accommodate the outsize distance. Many players such as Connie Hawkins and Bill Bridges and coaches such as Jack McMahon and Bill Sharman later found their way to the NBA after the collapse of the league, but it took more than 15 years for wide acceptance of the 3-point shot. John McLendon and Ermer Robinson were the first two African American coaches in a major professional league as they

both debuted in the ABL.
