Countdown to Super Bowl Dave Anderson,2018-10-02 Countdown to Super Bowl tells the whole story of the game of the century, written by the man who followed every movement of the Jets from the first kick-off of the season, who lived, breathed, and agonized with them for the ten nerve-tingling days before the Colts went down to defeat in the Super Bowl. Here, by Dave Anderson of the New York Times, is the play-by-play, moment-by-moment saga of how Super Joe Namath and the Jets made good Namath's boast that they would humble the NFL and vanquish the invincible Colts. This book provides all the color, the action, and the behind-the-scenes drama of the greatest upset in football history. In celebration of the fiftieth anniversary of that miraculous New York Jets Super Bowl win, fans can relive the stories and moments that led up to that victory. "My experience working with Skyhorse is always a positive collaboration. The editors are first-rate professionals, and my books receive top-shelf treatment. COUNTDOWN TO THE SHEFFIELD BLITZ. NEIL. ANDERSON,2018

The Blitz 1940-41 Julian Hale,2023-08-17 An illustrated history of how the Luftwaffe intended 'the Blitz' to knock Britain out of the war, emphasising the German point of view and detailing how Britain's defences and civilians responded. The Blitz - the German 'blitzkrieg' of Britain's industrial and port cities - was one of the most intensive bombing campaigns of World War II. Cities from London to Glasgow, Belfast to Hull, and Liverpool to Cardiff were targeted in an attempt to destroy Britain's military-industrial facilities and force it out of the war. Most histories of the Blitz concentrate on the civilian experience of 'life under the bombs' or the fighter pilots of the RAF but, in military terms, the Blitz was also the Luftwaffe's biggest and most ambitious strategic bombing campaign. Focusing on both sides, this book places particular emphasis on the hitherto under-represented Luftwaffe view of the campaign and looks at the new technology and tactics at its heart. From the innovative development of specialist night-fighters to the 'Battle of the Beams' that pitted German electronic navigation systems against British countermeasures, the Blitz demonstrated the effects of developing technology on aerial warfare. Describing and analyzing the strategy, tactics and operations of both the Luftwaffe and the UK's air defences during the period between September 1940 and May 1941, author Julian Hale demonstrates that, for a variety of reasons, there was little chance of the Luftwaffe achieving any of its aims. Using primary sources, spectacular original artwork, 3D diagrams and maps, this study shines a fresh light on how and why the world's first true strategic air offensive failed.

My Own Devices Dessa,2018-09-18 "I love the way Dessa puts words together. In her songs, in her poetry, in her short stories, and now in this beautiful and candid memoir. Wanna be an artist? Get this book." --Lin-Manuel Miranda Dessa writes beautifully about a wide range of topics, including science, music, and the pain that comes with being in love; it's a surprising and generous memoir by a singular voice. --NPR, Best Books of 2018 Dessa defies category--she is an intellectual with an international rap career and an inhaler in her backpack; a creative writer fascinated by philosophy and behavioral science; and a funny, charismatic performer dogged by blue moods and heartache. She's ferocious on stage and endearingly neurotic in the tour van. Her stunning literary debut memoir stitches together poignant insights on love, science, and language--a demonstration of just how far the mind can travel while the body is on a six-hour ride to the next gig. In *The Fool That Bets Against Me*, Dessa writes to Geico to request a commercial insurance policy for the broken heart that's helped her write so many sad songs. *A Ringing in the Ears* tells the story of her father building a wooden airplane in their backyard garage. In 'Congratulations,' she describes the challenge of recording a song for *The Hamilton Mixtape* in a Minneapolis basement, straining for a high note and hoping for a break. *Call Off Your Ghost* chronicles the fascinating project she undertook with a team of neuroscientists to try to clinically excise romantic feelings for an old flame. Her writing is infused with scientific research, dry wit, a philosophical perspective, and an abiding tenderness for the people she tours with and the people she leaves behind to be on the road. *My Own Devices* is an uncompromising and candid account of a life in motion, in music, and in love. Dessa is as compelling on the page as she is onstage, making *My Own Devices* the debut of a unique and deft literary voice.

The Many Not The Few Richard North,2013-03-05 Immortalized in Churchill's often quoted assertion that never before was so much owed by so few, the top-down narrative of the Battle of Britain has been firmly established in British legend: Britain was saved from German invasion by the gallant band of Fighter Command Pilots in their Spitfires and Hurricanes, and the public owed them their freedom. Richard North's radical re-evaluation of the Battle of Britain dismantles this mythical retelling of events. Taking a wider perspective than the much-discussed air war, North takes a fresh look at the conflict as a whole to show that the civilian experience, far from being separate and distinct, was integral to the Battle. This recovery of the people's stolen history demonstrates that Hitler's aim was not the military conquest of England, and that his unattained target was the hearts and minds of British people.

Zero Hour: A Countdown to the Collapse of South Africa's Apartheid System Geoffrey Hebdon,2022-07-15 This enlightening book focuses on the history of how the ethnic groups of Africa, eventually joined by white colonizers from Europe, created the seedbed for the hateful apartheid system in Southern Africa. The reader learns how apartheid began, the dehumanizing effects it had on the black population, and how it was finally abolished in its 'zero hour' in 1994. Written by historian, writer and researcher Geoffrey Hebdon, this is the second in a series that covers the experience of a British

citizen who emigrated to South Africa during that era, and records in vivid detail his responses to the apartheid system and how South Africa and neighbouring countries evolved after apartheid was abolished. As well as the first European settlers and the white Afrikaners' attempted enslavement of the black population, the book also covers the Zulu wars, the Anglo-Boer wars and individuals who supported apartheid such as Cecil Rhodes and the whites-only National Party of South Africa. Also covered are prominent leaders of the African National Congress (ANC) and the black revolutionaries who fought against apartheid, many of whom gave their lives or served life sentences for their "struggle", including Nelson Mandela, who became South Africa's first black president after serving years in prison.

He was once one of war's most brutal practitioners—not to mention one of its most effective and least bloody. Brutal yes; stupid no. Now, not only must Stauer command his crack outfit of former comrades and pull off yet another miracle mission, he must also harness and direct the brute within himself—a beast he will need in order to destroy an intelligent enemy who is as implacable as Stauer himself. Okay, almost as implacable. There will be war. And there will be warriors like Wes Stauer who have the know-how and, once set in motion, the unstoppable professional drive, to see the bad guys to their graves and destroy every last earthly piece of their nasty legacies.
