

Countdown

Frank Borman, Robert J. Serling

Countdown Alan Weisman, 2013-09-24 Every four days there are a million more people on the planet. More people and fewer resources. In this timely work, Alan Weisman examines how we can shrink our collective human footprint so that we don't stomp any more species - including our own - out of existence. The answer: reducing gradually and non-violently the number of humans on the planet whose activities, industries and lifestyles are damaging the Earth. Defining an optimum human population for the Earth is an explosive concept. Weisman, one of the most brilliant environmental writers, will travel the globe, from the settlements of Israel and the plains of Mexico to the bustling streets of Pakistan and the teeming cities of the UK. In his search for answers, he will speak to religious leaders, demographers, ecologists, economists, engineers and agriculturalists in what promises to be an international classic.

Countdown Deborah Wiles, 2016-04-26 The story of a formative year in 12-year-old Franny Chapman's life, and the life of a nation facing the threat of nuclear war. Franny Chapman just wants some peace. But that's hard to get when her best friend is feuding with her, her sister has disappeared, and her uncle is fighting an old war in his head. Her saintly younger brother is no help, and the cute boy across the street only complicates things. Worst of all, everyone is walking around just waiting for a bomb to fall. It's 1962, and it seems that the whole country is living in fear. When President Kennedy

goes on television to say that Russia is sending nuclear missiles to Cuba, it only gets worse. Franny doesn't know how to deal with what's going on in the world -- no more than she knows how to deal with what's going on with her family and friends. But somehow she's got to make it through. Featuring a captivating story interspersed with footage from 1962, award-winning author Deborah Wiles has created a documentary novel that will put you right alongside Franny as she navigates a dangerous time in both her history and our history.

If God did not stop that war mankind would annihilate itself. The major prophetic events for this end-time have already become fulfilled as Europe has now formed a common government with 28 member nations, established its own currency, and in 2018 entered into a military agreement between ten of those member nations. These events were all prophesied and have now become fulfilled exactly as it was said they would. These were the last major events to become fulfilled that will now lead quickly into a third world war. The major participating countries are all now set in place to fulfill their roles in the last war of mankind. The world stage is now set for those final events to unfold. There is a prophetic countdown that began in December of 1994 that is leading up to these final events. The world is now near the very end of that countdown. This book explains this countdown, the reasons for this final war and what will happen in it, as well as what will happen that brings this age of mankind to a close so that a new era can be established that will insure peace for all time to follow. This thermonuclear war is the war that destroys one-third of all life on earth will be the war that finally motivates mankind to change its outlook on war and to begin actual cooperation between nations that helps insure peace.
