Ethnic Diversity in European Labor Markets Martin Kahanec, Klaus F. Zimmermann, 2011-01-01 This highly accessible book illustrates how policy makers can address and nurture the effects of growing ethnic diversity in European labor markets. The contributors present an unprecedented large-scale study on ethnic diversity in European labor markets via a combination of hard data analysis with expert evaluation of integration practices and policy options. Key questions explored include: Does ethnic diversity in European labor markets lead to poor socio-economic outcomes for some ethnic groups in the face of fierce competition for jobs and welfare? Can labor immigration and improved integration of all ethnic groups provide a solution to the challenges posed by a shrinking population, an aging workforce, skill shortages and other bottlenecks that constrain the innovative potential of the EU? What can policy makers do to nurture and encourage the benefits of ethnic diversity in the EU?
