Or looking for a big bank of questions for a pub quiz/quiz night? Here's what you will discover with this book: 720 multiple choice questions: Choose from 4 possible answers from each question. Unlike other quiz books we have seen out there - possible answers in The Ultimate Geography Quiz book are meant to be challenging and the possible answers are well researched to truly make you think - see below for more details. Challenging questions throughout: Made to really engage the brain cells, even for the die-hard geographers! Child/Family friendly questions: No sensitive topics are asked about within this book. Quizzes are great on commutes, and long drives - and equally as great as a social fun event for friends and family. You cannot go wrong with a quiz night! This book makes a perfect gift for adults and children with an interest in geography. Recommend age 12+ Question topics within The Ultimate Geography Quiz include, but not limited to: Country and continent names, size, borders and locations respective to each other. Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to each other City, building, landmark and capital city names and location. Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering. Romania (spoiler: there is none), and why the Union Jack is assymetrical. Robert G Fresson's meticulous, vintage-inflected illustrations provide a refreshingly elegant insight into the fascinating world of vexillology.

**A Flag Worth Dying For** Tim Marshall,2017-07-04 First published in Great Britain in 2016 by Elliott and Thompson Limited as: *Worth dying for: the power and politics of flags.*

*Flags of Countries Around the World* Melissa Ackerman,2016-09-07 Do you know that the flag of Switzerland is square in shape and not rectangular? It is one of the only two square flags in the world, the other being the flag of Vatican City. And do you also know that the flag of Nepal is neither square nor rectangle? The national flag of Nepal is a combination of two triangle-shaped flags colored in crimson red and bordered by blue. The flags you see representing different countries are more than a piece of fabric. A flag is a country's national symbol. It represents their identity as a nation. The colors and designs on a flag have its cultural, political, historical, religious and regional significance. Many countries with a predominant Christian population would have a cross on their flags while Muslim countries would have a crescent moon on theirs. African countries like Benin, Republic of Congo, Mali and the others would have the green, yellow and red colors on their flags which are the colors of the Ethiopian flag. The use of the said colors signifies giving honor to Ethiopia the oldest independent country in Africa. The green, white, red, and black colors are Pan-Arab colors that are common on the flags of many Arab countries like Jordan, Libya, Sudan and others. More fascinating information and trivia about 196 flags of different countries around the world are featured in this book especially made for young learners.
