Country Music Annual 2001 Charles K. Wolfe, James E. Akenson, Arthur Penn: American Director is the comprehensive biography of one of the twentieth century's most influential filmmakers. Thematic chapters lucidly convey the story of Penn's life and career, as well as pertinent events in the history of American film, theater, and television. In the process of tracing the full spectrum of his career, Arthur Penn reveals the enormous scope of Penn's talent and his profound impact on the entertainment industry in an accessible, engaging account of the well-known

director's life. Born in 1922 to a family of Philadelphia immigrants, the young Penn was bright but aimless -- especially compared to his talented older brother Irving, who would later become a world-renowned photographer. Penn drifted into directing, but he soon mastered the craft in three mediums: television, Broadway, and motion pictures. By the time he made *Bonnie and Clyde* (1967), Penn was already a Tony-winning Broadway director and one of the prodigies of the golden age of television. His innovative handling of the story of two Depression-era outlaws not only challenged Hollywood's strict censorship code, it shook the foundation of studio system itself and ushered in the film revolution. His next films -- *Alice's Restaurant* (1969), *Little Big Man* (1970), and *Night Moves* (1975) -- became instant classics, summoning emotions from shock to sensuality and from confusion to horror, all of which reflected the complexity of the man behind the camera. The personal and creative odyssey captured in these pages includes memorable adventures in World War II; the chaotic days of live television; the emergence of Method acting in Hollywood; and experiences with Marlon Brando, Anne Bancroft, Warren Beatty, William Gibson, Lillian Hellman, and a host of other show business legends.

Monopoly Television Jack Banks, 2018-02-12 In this book, Jack Banks examines the historical development of music video as a commodity and analyzes the existing structures within which music video is produced, distributed, and exhibited on its premier music channel, MTV. } In August 1981, Music Television now popularly known as MTV was launched. Within a matter of years it revitalized a struggling record industry; made the careers of leading pop stars like Madonna, Boy George, Cyndi Lauper, and Duran Duran; infiltrated traditional network television and the movie industry; revolutionized the advertising industry; and stimulated purchases in several markets, most notably fashion apparel. The reach of MTV has proven long and profitable. In this book, Jack Banks examines the historical development of music video as a commodity and analyzes the existing structures within which music video is produced, distributed, and exhibited on its premier music channel, MTV. Who controls MTV? What part do record companies play in the financing and production of music video? How do the power brokers in the business affect the ideological content of music video?

Given the tight sphere of influence within the music industry, what are the future trends for music video and for artistic freedom of expression? Banks tackles these questions in an intelligent, lively, and sophisticated investigation into one of the most influential media enterprises of our society. }

Medium Cool Roger Beebe, Jason Middleton, 2007-09-26 Music videos are available on more channels, in more formats, and in more countries than ever before. While MTV—the network that introduced music video to most viewers—is moving away from music video programming, other media developments signal the longevity and dynamism of the form. Among these are the proliferation of niche-based cable and satellite channels, the globalization of music video production and programming, and the availability of videos not just on television but also via cell phones, DVDs, enhanced CDs, PDAs, and the Internet. In the context of this transformed media landscape, *Medium Cool* showcases a new generation of scholarship on music video. Scholars of film, media, and music revisit and revise existing research as they provide historically and theoretically expansive new perspectives on music video as a cultural form. The essays take on a range of topics, including questions of authenticity, the tension between high-art influences and mass-cultural appeal, the prehistory of music video, and the production and dissemination of music videos outside the United States. Among the thirteen essays are a consideration of how the rapper Jay-Z uses music video as the primary site for performing, solidifying, and discarding his various personas; an examination of the recent emergence of indigenous music video production in Papua New Guinea; and an analysis

of the cultural issues being negotiated within Finland's developing music video industry. Contributors explore precursors to contemporary music videos, including 1950s music television programs such as American Bandstand, Elvis's internationally broadcast 1973 Aloha from Hawaii concert, and different types of short musical films that could be viewed in "musical jukeboxes" of the 1940s and 1960s. Whether theorizing music video in connection to postmodernism or rethinking the relation between sound and the visual image, the essays in Medium Cool reveal music video as rich terrain for further scholarly investigation. Contributors. Roger Beebe, Norma Coates, Kay Dickinson, Cynthia Fuchs, Philip Hayward, Amy Herzog, Antti-Ville Kärjää, Melissa McCartney, Jason Middleton, Lisa Parks, Kip Pegley, Maureen Turim, Carol Vernallis, Warren Zanes
