**Courageous Leadership** Bill Treasurer, 2011-02-08 Overcome fear and adversity in the workplace with courage! Courage is the first virtue of leadership success. Leaders require courage to make bold decisions even when there are dissenters, to say what needs to be said no matter the consequences, and to place their trust in those they manage. Yet surprisingly, despite the central role that courage plays in leadership success, until now there have been few training programs devoted solely to building courage in the workplace. The Courageous Leadership workshop introduces a new organizational development practice called courage-building. As a new professional discipline, courage-building is predicated on the assumption that people perform better when they are behaving courageously than when they are anxious and afraid. To be a courage-builder, however, you have to role model courageous behavior. This workshop is designed to help you do just that. The objectives of this workshop are to: Learn about the three different types of courage and when (and how) to use each Gain insight into your own courage history so that you can use your past to strengthen your future Understand the impact that fear has on personal and organizational performance Learn about two distinct ways of leading, and approaches for inspiring more courageous behavior among the people with whom you work Identify specific actions for extending the value of the workshop so that you can continue benefiting from it going forward Become a courageous leader By learning to apply the strategies and approaches that are introduced in the Courageous Leadership workshop, and then applying them in your workplace, you will help people step up to challenges more readily, embrace change more fully, and speak up more assertively. When you put your courage to work, and when you step past the threshold of your zone of comfort, the entire workplace benefits.

**Choosing Courage** Jim Detert, 2021-05-18 An inspirational, practical, and research-based guide for standing up and speaking out skillfully at work. Have you ever wanted to disagree with your boss? Speak up about your company's lack of diversity or unequal pay practices? Make a tough decision you knew would be unpopular? We all have opportunities to be courageous at work. But since courage requires risk—to our reputations, our social standing, and, in some cases, our jobs—we often fail to act, which leaves us feeling powerless and regretful for not doing what we know is right. There's a better way to handle these crucial moments—and *Choosing Courage* provides the moral imperative and research-based tactics to help you become more competently courageous at work. Doing for courage what Angela Duckworth has done for grit and Brene Brown for vulnerability, Jim Detert, the world's foremost expert on workplace courage, explains that courage isn't a character trait that only a few possess; it's a virtue developed through practice. And with the right attitude and approach, you can learn to hone it like any other skill and incorporate it into your everyday life. Full of stories of ordinary people who've acted courageously, *Choosing Courage* will give you a fresh perspective on the power of voicing your authentic ideas and opinions. Whether you're looking to make a mark, stay true to your values, act with more integrity, or simply grow as a professional, this is the guide you need to achieve greater impact at work.

**Leading With Courage** Lee H. Eisenstaedt, 2019-06-10 *Leading With Courage* offers pragmatic, practical and proven

advice for leaders and managers who want to make a bigger impact, sooner. The author's insights are drawn from the interviews he conducted with 40 CEOs and his four decades of experience in five industries as a senior finance and operations executive in the U.S. and Europe. At the core of *Leading With Courage* are nine blind spots that effective leaders and managers are aware of. Those who come in with the answer, stick with under-performers too long, and try doing everything themselves (three of the nine blind spots) could be among the 40% to 50% of leaders who fail, are fired, or quit within 18 months of starting their leadership role. The book includes a link to a self-assessment that will help readers identify which of the nine blind spots they may have to be on alert for.
