Time for a Turning Point Charlie Kirk,Brent Hamachek,2016-10-04 From the bestselling author of The MAGA Doctrine! Turning Point USA founder Charlie Kirk shares a vision for America's future embracing first principles, free markets, and small government. Kirk provides a roadmap on how to return to a free America, with an emphasis on reaching our youth and engaging them in the process. During the 2016 Presidential election cycle, it has become clear that there is growing frustration on the part of many Americans with the general direction of the nation. There has been an abandonment of the principles of free markets and limited government upon which America was founded. We didn't get to this point over just the last eight years and it's going to take more than one or two election cycles to reverse it. In Time for a Turning Point Charlie Kirk shows exactly what needs to be done and how it needs to be done to restore America's freedom. This is a book of hope, not despair—book of action, not condolences.

Cox Christoph Ransmayr,2020 The world's most powerful man, Qi nl ng, emperor of China, invites the famous eighteenth-century clockmaker Alister Cox to his court in Beijing. There, in the heart of the Forbidden City, the Englishman and his assistants are to build machines that mark the passing of time as a child or a condemned man might experience it and that capture the many shades of happiness, suffering, love, and loss that come with that passing. Mystified by the rituals of a rigidly hierarchical society dominated by an unimaginably wealthy, god-like ruler, Cox musters all his expertise and ingenuity to satisfy the emperor's desires. Finally, Qi nl ng, also known by the moniker Lord of Time, requests the construction of a clock capable of measuring eternity--a perpetuum mobile. Seizing this chance to realize a long-held dream and honor the memory of his late beloved daughter, yet conscious of the impossibility of his task, Cox sets to work. As the court is suspended in a never-ending summer, festering with evil gossip about the monster these foreigners are creating, the Englishmen wonder if they will ever escape from their gilded cage. Richly imagined and recounted in vivid prose of extraordinary beauty, Cox, or The Course of Time is a stunning illustration of Christoph Ransmayr's talent for imbuing a captivating tale with intense metaphorical, indeed metaphysical force. More than a meeting of two men, one isolated by power, the other by grief, this is an exploration of mortality and a virtuoso demonstration that storytelling alone can truly conquer time.
