Women Street Photographers Gulnara Samoilova,2021-03-02 With a rising number of women throughout the world picking up their cameras and capturing their surroundings, this book explores the work of 100 women and the experiences behind their greatest images. Traditionally a male-dominated field, street photography is increasingly becoming the domain of women. This fantastic collection of images reflects that shift, showcasing 100 contemporary women street photographers working around the world today, accompanied by personal statements about their work. Various joyful, unsettling and unexpected, the photographs capture a wide range of extraordinary moments. The volume is curated by Gulnara Samoilova, founder of the Women Street Photographers project: a website, social media platform and annual exhibition. Photographer Melissa Breyer's introductory essay explores how the genre has intersected with gender throughout history, looking at how cultural changes in gender roles have overlapped with technological developments in the camera to allow key historical figures to emerge. Her text is complemented by a foreword by renowned photojournalist Ami Vitale, whose career as a war photographer and, later, global travels with National Geographic have allowed a unique insight into the realities of working as a woman photographer in different countries. In turns intimate and candid, the photographs featured in this book offer a kaleidoscopic glimpse of what happens when women across the world are behind the camera.

The Precipice Toby Ord,2020-03-24 This urgent and eye-opening book makes the case that protecting humanity's future is the central challenge of our time. If all goes well, human history is just beginning. Our species could survive for billions of years - enough time to end disease, poverty, and injustice, and to flourish in ways unimaginable today. But this vast future is at risk. With the advent of nuclear weapons, humanity entered a new age, where we face existential catastrophes - those from which we could never come back. Since then, these dangers have only multiplied, from climate change to engineered pathogens and artificial intelligence. If we do not act fast to reach a place of safety, it will soon be too late. Drawing on over a decade of research, *The Precipice* explores the cutting-edge science behind the risks we face. It puts them in the context of the greater story of humanity: showing how ending these risks is among the most pressing moral issues of our time. And it points the way forward, to the actions and strategies that can safeguard humanity. An Oxford philosopher committed to putting ideas into action, Toby Ord has advised the US National Intelligence Council, the UK Prime Minister's Office, and the World Bank on the biggest questions facing humanity. In *The Precipice*, he offers a startling reassessment of human history, the future we are failing to protect, and the steps we must take to ensure that our generation is not the last. A book that seems made for the present moment. —New Yorker

Bad Boy Walter Dean Myers,2009-10-06 A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called bad boy in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

Spaceland Rudy Rucker, 2003-07-04 Joe Cube is a Silicon Valley hotshot--well, a would-be hotshot anyway--hoping that the 3-D TV project he's managing will lead to the big money IPO he's always dreamed of. On New Year's Eve, hoping to impress his wife, he sneaks home the prototype. It brings no new warmth to their cooling relationship, but it does attract someone else's attention. When Joe sees a set of lips talking to him (floating in midair) and feels the poke of a disembodied finger (inside him), it's not because of the champagne he's drunk. He has just met Momo, a woman from the All, a world of four spatial dimensions for whom our narrow world, which she calls Spaceland, is something like a rug, but one filled with motion and life. Momo has a business proposition for Joe, an offer she won't let him refuse. The upside potential becomes much clearer to him once she helps him grow a new eye (on a stalk) that can see in the fourth-dimensional directions, and he agrees. After that it's a wild ride through a million-dollar night in Las Vegas, a budding addiction to tasty purple 4-D food, a failing marriage, eye-popping excursions into the All, and encounters with Momo's foes, rubbery red critters who steal money, offer sage advice and sometimes messily explode. Joe is having the time of his life, until Momo's scheme turns out to have angles he couldn't have imagined. Suddenly the fate of all life here in Spaceland is at stake. Rudy Rucker is a past master at turning mathematical concepts into rollicking science fiction adventure, from Spacetime Donuts and White Light to The Hacker and the Ants. In the tradition of Edwin A. Abbott's classic novel, Flatland, Rucker gives us a tour of higher mathematics and visionary realities. Spaceland is Flatland on hyperdrive! At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Future of Making Tom Wujec, 2017 Prepare yourself: How things are made is changing. The digital and physical are uniting, from innovative methods to sense and understand our world to machines that learn and design in ways no human ever could; from 3D printing to materials with properties that literally stretch possibility; from objects that evolve to systems that police themselves. The results will radically change our world--and ourselves. The Future of Making illustrates these transformations, showcasing stories and images of people and ideas at the forefront of this radical wave of innovation. Designers, architects, builders, thought leaders--creators of all kinds--have contributed to this look at the materials, connections, and inventions that will define tomorrow. But this book doesn't just catalog the future; it lays down guidelines to follow, new rules for how things are created, that make it the ultimate handbook for anyone who wants to embrace the true future of making.

The Compton Cowboys Walter Thompson-Hernandez, 2020-04-28 "Thompson-Hernández's portrayal of Compton's black cowboys broadens our perception of Compton's young black residents, and connects the Compton Cowboys to the historical legacy of African Americans in the west. An eye-opening, moving book."—Margot Lee Shetterly, New York Times bestselling author of Hidden Figures "Walter Thompson-Hernández has written a book for the ages: a profound and moving account of what it means to be black in America that is awe inspiring in its truth-telling and limitless in its empathy. Here is an American epic of black survival and creativity, of terrible misfortune and everyday resilience, of grace, redemption and, yes, cowboys."—Junot Díaz, Pulitzer prize-winning author of This is How You Lose Her A rising New York Times reporter tells the compelling story of The Compton Cowboys, a group of African-American men and women who defy stereotypes and continue

the proud, centuries-old tradition of black cowboys in the heart of one of America's most notorious cities. In Compton, California, ten black riders on horseback cut an unusual profile, their cowboy hats tilted against the hot Los Angeles sun. They are the Compton Cowboys, their small ranch one of the very last in a formerly semirural area of the city that has been home to African-American horse riders for decades. To most people, Compton is known only as the home of rap greats NWA and Kendrick Lamar, hyped in the media for its seemingly intractable gang violence. But in 1988 Mayisha Akbar founded The Compton Jr. Posse to provide local youth with a safe alternative to the streets, one that connected them with the rich legacy of black cowboys in American culture. From Mayisha's youth organization came the Cowboys of today: black men and women from Compton for whom the ranch and the horses provide camaraderie, respite from violence, healing from trauma, and recovery from incarceration. The Cowboys include Randy, Mayisha's nephew, faced with the daunting task of remaking the Cowboys for a new generation; Anthony, former drug dealer and inmate, now a family man and mentor, Keiara, a single mother pursuing her dream of winning a national rodeo championship, and a tight clan of twentysomethings--Kenneth, Keenan, Charles, and Tre--for whom horses bring the freedom, protection, and status that often elude the young black men of Compton. The Compton Cowboys is a story about trauma and transformation, race and identity, compassion, and ultimately, belonging. Walter Thompson-Hernández paints a unique and unexpected portrait of this city, pushing back against stereotypes to reveal an urban community in all its complexity, tragedy, and triumph. The Compton Cowboys is illustrated with 10-15 photographs.
