**The Conservation and Biogeography of Amphibians in the Caribbean** Neftalí Ríos-López, Harold Heatwole, 2023-02-28 An expansive and detailed review of the biology of Caribbean amphibians, considering their threats, conservation and outlook in a changing world. Amphibians are the group of vertebrates undergoing the fastest rate of extinction; it is urgent that we understand the causes of this and find means of protecting them. This landmark illustrated volume brings together the leading experts in the field. As well as offering an overview of the region as a whole, individual chapters are devoted to each island or island-group and the measures used to protect their amphibians through legislation or nature reserves. The biological background of insular biogeography, including its methods, analysis and results, is reviewed and applied specifically to the problems of Caribbean amphibians – this includes a re-examination of patterns and general ideas about the status of amphibians in the Anthropocene. The Conservation and Biogeography of Amphibians in the Caribbean offers an important baseline against which future amphibian conservation can be measured in the face of climate change, rising sea level and a burgeoning human population. Covers over 300 species.

**trained and trusted** Philip Green, 2022-01-27 For nearly 50 years students at Atlantic College ran inshore rescue services along a treacherous stretch of the South Wales coast. As auxiliary coast guards, lifeboat volunteers for the RNLI, and beach lifeguards, these 16-18-year-olds from different backgrounds and countries proved competent, courageous and determined. This is an account of the rescue services from their inception in 1962 based on the stories of the students themselves. They are by turns funny, grim and hair-raising. It's a testimony to vision, ambition and dedication - and to what can be done when you harness teenagers' powerful urge to help humankind. Sold in aid of the charity Atlantic Pacific which trains teenagers in every aspect of rescue at sea.
