An Internet for the People Jessa Lingel,2022-06-14 How craigslist champions openness, democracy, and other vanishing principles of the early web Begun by Craig Newmark as an e-mail to some friends about cool events happening around San Francisco, craigslist is now the leading classifieds service on the planet. It is also a throwback to the early internet. The website has barely seen an upgrade since it launched in 1996. There are no banner ads. The company doesn't profit off your data. An Internet for the People explores how people use craigslist to buy and sell, find work, and find love—and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web. Drawing on interviews with craigslist insiders and ordinary users, Jessa Lingel looks at the site's history and values, showing how it has mostly stayed the same while the web around it has become more commercial and far less open. She examines craigslist's legal history, describing the company's courtroom battles over issues of freedom of expression and data privacy, and explains the importance of locality in the social relationships fostered by the site. More than an online garage sale, job board, or dating site, craigslist holds vital lessons for the rest of the web. It is a website that values user privacy over profits, ease of use over slick design, and an ethos of the early web that might just hold the key to a more open, transparent, and democratic internet.

Craigslist Profits Unleashed Allison Mason,2021 Today, Craigslist is one of the most well known of all online urban communities on the web. It allows people to place free classified adverts relating to various subjects, as well as having forums where people can discuss various topics. Craigslist was founded by Craig Newmark from the San Francisco Bay Area in 1995. Then it became incorporated in 1999. Since its incorporation as of November 2006, there were over 450 cities where a Craigslist has been established. The business now operates with a team of 24 people, and the only way they make any revenue today is through the job adverts paid for in selected cities around the States. Ads placed by companies in the San Francisco Bay Area cost \$75, while those placed by companies or businesses in New York, Los Angeles, San Diego, Boston, Seattle and Washington DC will cost them \$25 for each advert placed. Also today, a real estate broker will need to pay \$10 for any apartment listings they place on Craigslist for New York. Today, this site is receiving over 500,000 new job listings each month, and so makes it one of the top job boards in the world today. The classified adverts that are placed on this site range from more traditional ones where people are able to buy and sell goods, to community announcements...even personal adverts or erotic services are being provided through this site. In its early years, most of the postings placed on the Craigslist were submitted by its founder, and were generally dealing with social events that were of interest to software and internet developers who lived and worked in the San Francisco area. However, as more and more people learned about this site, it began to grow at an extremely high rate. Certainly, as more and more subscribers began to use the site, so the number of postings to it also began to grow as well. Certainly those people who were looking to fill technical positions found this list to be a great way of reaching those with the necessary skills that they were searching for. Because of this, the demand for a section dedicated to jobs was created. Plus, the demand by the lists' users for more categories to be able to post and search under also began to grow as well. It was at this time that more and more of the sites users asked for a web interface to be set up. It was through the help of various volunteers and contractors that such a website user interface was created for each different mailing list category to be found on the list. As the domain required a name, Craig Newman first registered "craigslist.org" and then followed it up later on with "craigslist.com", which helped to prevent the name from being used for some other purpose. Certainly if you were to search on Craigslist today, the most popular of all the forums is the one known as the "Erotic Forum". This forum is now often used by law enforcement agencies for decoy operations, and Craigslist co-operates in any way it can to help prevent its users from selling drugs, sex or stolen property through its listings. Through this book, we are going to look at the ways in which a person can legally profit from using Craigslist. We will discuss the ways in which a person can set up a business in their own home, and which will provide them with a chance to earn an additional income or their main form of income.

The End of San Francisco Mattilda Bernstein Sycamore,2013-09-18 An elegy for the dream of a radical queer community, and the mythical city that was supposed to nurture it.

The Freezer Door Mattilda Bernstein Sycamore,2020-11-24 A meditation on the trauma and possibility of searching for connection in a world that enforces bland norms of gender, sexual, and social conformity. When you turn the music off, and suddenly you feel an unbearable sadness, that means turn the music back on, right? When you still feel the sadness, even with the music, that means there's something wrong with this music. Sometimes I feel like sex without context isn't sex at all. And sometimes I feel like sex without context is what sex should always be.--The Freezer Door The Freezer Door records the ebb and flow of desire in daily life. Crossing through loneliness in search of communal pleasure in Seattle, Mattilda Bernstein Sycamore exposes the failure and persistence of queer dreams, the hypocritical allure of gay male sexual culture, and the stranglehold of the suburban imagination over city life. Ferocious and tender, The Freezer Door offers a complex meditation on the trauma and possibility of searching for connection in a world that relentlessly enforces bland norms of gender, sexual, and social conformity while claiming to celebrate diversity.

How to Make Money on Craigslist Isabelle Thorpe,2023-10-31

Pictures of a Gone City Richard A. Walker,2018-06-01 The San Francisco Bay Area is currently the jewel in the crown of capitalism—the tech capital of the world and a gusher of wealth from the Silicon Gold Rush. It has been generating jobs, spawning new innovation, and spreading ideas that are changing lives everywhere. It boasts of being the Left Coast, the Greenest City, and the best place for workers in the USA. So what could be wrong? It may seem that the Bay Area has the best of it in Trump's America, but there is a dark side of success: overheated bubbles and spectacular crashes; exploding inequality and millions of underpaid workers; a boiling housing crisis, mass displacement, and severe environmental damage; a delusional tech elite and complicity with the worst in American politics. This sweeping account of the Bay Area in the age of the tech boom covers many bases. It begins with the phenomenal concentration of IT in Greater Silicon Valley, the fabulous economic growth of the bay region and the unbelievable wealth piling up for the 1% and high incomes of Upper Classes—in contrast to the fate of the working class and people of color earning poverty wages and struggling to keep their heads above water. The middle chapters survey the urban scene, including the greatest housing bubble in the United States, a metropolis exploding in every direction, and a geography turned inside out. Lastly, it hits the environmental impact of the boom, the fantastical ideology of TechWorld, and the political implications of the tech-led transformation of the bay region.

SoMa Kemble Scott,2007 Four people--Raphe, a writer searching for a place to belong; Mark, a cruel player; Julie, a beautiful pawn; and Lauren, a poor little rich girl on a path of self-destruction--navigate through South of Market (SoMa) in San Francisco, a surreal subculture of private sex clubs and crime, searching for salvation. A Star Is Bored Byron Lane,2020-07-28 A Star is Bored is an absolute knockout. Riotously funny and wickedly tender. — Taylor Jenkins Reid, New York Times bestselling author of Daisy Jones and the Six Wildly funny and irreverent... Lane’s writing lifts the novel far above its gossamer Hollywood setting, suffusing [the novel] with a complex sensitivity. - The New York Times Book Review A hilariously heartfelt novel influenced in part by the author’s time assisting Carrie Fisher. People Magazine Best Book of Summer 2020 - Named a Must-Read Summer book by Town & Country - Named One of the 14 Best Books of Summer 2020 by Harper’s Bazaar - One of Library Journal’s 2020 Titles to Watch - One of the 30 Best Beach Reads According to Parade Magazine She needs an assistant. He needs a hero. Charlie Besson is tense and sweating as he prepares for a wild job interview. His car is idling, like his life, outside the Hollywood mansion of Kathi Kannon, star of stage and screen and People magazine’s Worst Dressed list. She’s an actress in need of assistance, and he’s adrift and in need of a lifeline. Kathi is an icon, bestselling author, and award-winning movie star, most known for her role as Priestess Talara in a blockbuster sci-fi film. She’s also known in another role: Outrageous Hollywood royalty. Admittedly so. Famously so. Chaotically so, as Charlie quickly discovers. Charlie gets the job, and his three-year odyssey is filled with late-night shopping sprees, last-minute trips to see the aurora borealis, and an initiation to that most sacred of Hollywood tribes: the personal assistant. But Kathi becomes much more than a boss, and as their friendship grows Charlie must make a choice. Will he always be on the sidelines of life, assisting the great forces that be, or can he step into his own life’s leading role? Laugh-out-loud funny, and searingly poignant, Byron Lane’s A Star is Bored is a novel that, like the star at its center, is enchanting and joyous, heartbreaking and hopeful.

San Francisco Helene Goupil,Josh Krist,2005 Arsenal’s Unknown City series of alternative guidebooks designed for tourists and homeowners alike turns its attention to the City by the Bay: San Francisco, where stories of notorious murders, city hall scandals, and untold tales of Chinatown, Haight-Ashbury, and Castro Street share pages with secret dining pleasures, shopping meccas, and nightclub hotspots. From the Summer of Love back in the 1960s to the Winter of Love in 2004, when the mayor of San Francisco made the city the center of the nation’s gay marriage debate, San Francisco has consistently been one of America’s most colorful and offbeat urban oases. From pot dispensaries in the Lower Haight to the nightspots in the heavily Hispanic Mission district to private karaoke rooms in Japan Town, all of San Francisco’s hidden nooks and crannies are exposed. There’s info on the Castro district, the heartland of America’s gay community; the city’s hot restaurant scene, home to arguably the best dining in the nation; tidbits on nearby Napa wineries; multi-level sex clubs; and the alleged whereabouts of active opium dens. There’s also the story of the confrontation between Orson Welles and William Randolph Hearst at the St. Francis Hotel, when Hearst refused Welles’ offer of tickets to the premiere of Citizen Kane; the legacy of Alcatraz and legendary prison escape attempts; and notes on San Francisco icons like the Golden Gate Bridge and the Transamerica Building. Ebullient and chock-a-block with facts and figures, this book raises a glass to life in the City by the Bay. Two-color throughout; includes a BART transportation route map. Helene Goupil and Josh Krist are editor and publisher, respectively, of InsideOut Travel magazine, a bimonthly online travel publication that caters to the traveler/adventurer at heart. Helene, Josh, and InsideOut (www.insideoutmag.com) are based in San Francisco.
