**Money From Mobiles By an Old Pro** D. Rod Lloyd,2023-01-21 The most comprehensive book on Mobile Homes. This is a nuts and bolts description of how to make money from mobile homes. I have no intention of talking you into this plan by giving brainwashing example after example of the deals. I am also not going to gloss over the pitfalls and problems of the system either. It is not a get-rich-quick scheme, and there is some risk involved. It takes some cash to run the system, and I do not recommend doing it on a shoestring. It takes some time but can be a lot of fun. However, it is possible to make an excellent return on your investment. Today interest rates have almost shriveled up and died. Those who have saved all their lives to secure retirement have a wake-up call from failed speculative investments or almost zero interest rates for safe investments.

**House Flipping for Big Profits by an Old Pro** D. Rod Lloyd,2023-01-21 This book discusses buying a property for the sole purpose of remodeling it to resell, commonly known as flipping.This practice has been made popular by recent DIY programs on TV that tend to glamorize the process, but make no mistake; the process of house flipping is hard work, very stressful, and requires a lot of money and skill. There are a couple of reasons why a person might want to flip a house. The first reason is it is a historical or classical building, and a person wants to do the

project for the love of the building. The second reason is TO MAKE MONEY. I believe 99% or more fall into the latter, and this book deals with this. I will guide you through all the steps in buying your property, the remodeling process, and finally, selling the project to make BIG PROFITS. I go into every granular detail, as I have been there and done that - dozens of times. Don't start a house flip without reading this book. Includes Mobile Homes and Rental Property

*A Date with Death* Michele R. McPhee,2010-05-25 In a luxury Boston hotel on April 14, 2009, police discovered the body of a beautiful young woman—her head battered, a bullet through her heart. Within hours, the story exploded, making headlines across the nation. The victim, a masseuse named Julissa Brisman, had advertised her erotic services on popular classified ads Web site Craigslist. A twenty-two-year-old medical student named Philip Markoff was her last-known client... The Boston Police Homicide Unit followed a digital trail that led to Markoff's home, where investigators found a gun, prepaid cell phones, plastic handcuffs, and other evidence linking Markoff to Brisman. They also uncovered a stash of women's undergarments, raising even more questions about their suspect: How many other women did Markoff meet before Brisman? And what happened to them? This is the true story of one woman's DATE WITH DEATH.

**Comparative International Perspectives on Education and Social Change in Developing Countries and Indigenous Peoples in Developed Countries** Gaëtane Jean-Marie,Steve Sider,Charlene Desir,2015-07-01 Democratizing educational access and building capacity in developing countries and amongst indigenous peoples in developed countries may be elusive but are hopeful goals. Many developing countries are striving to reengineer their incoherent education systems at a time when they are most vulnerable, particularly with susceptibility to natural disasters, political unrests, and economic instabilities (UNESCO, 2007). Similarly, indigenous peoples in developed countries are seeking more control over education as they consider the long-term effects of educational policies that have been forced on them. Research on education and social change in developing countries has a long history (Glewwe, 2002; Hanushek, 1995; Sider, 2011). However, there is limited research on educational capacity-building in developing countries such as Kenya, Honduras, Haiti, Ghana, Hong Kong, India, Peru, China, and Thailand. Further, the educational frameworks by which Indigenous peoples (M'ori, Canada's First Nations, and American Indian/Alaska Natives) have been educated have some significant similarities to those encountered in developing countries. The compilation of chapters illuminates research and collaborative initiatives between the authors and local leaders in developing countries' and Indigenous peoples in developed countries' efforts to solve the complexity of social inequities through educational access and quality learning. The authors draw on theoretical lens, knowledge bases, and strategies, and identify trends and developments to provide the scope of educational improvement in a globalization context (Brooks & Normore, 2010; Jean-Marie, Normore & Brooks, 2009).
