French Financial Markets Gilbert Durieux,Patrick Stephan,Michel Serieyssol,1995-02-28 The author's have provided a clear vision of the French financial sector, which is often underestimated by the international community. The rate of change has been significant, with the size of Paris as a financial centre growing significantly faster than New York, Frankfurt, and even London and Tokyo. The modernisation that has been undertaken, which is responsible for this growth, has affected all aspects of the French financial markets; particularly, the status of the players and the institutional regime, and also the financial instruments and back-office tools. This book is essential reading for anyone dealing with this increasingly important European financial centre.

The Crises of Microcredit Isabelle Guérin,Marc Labie,Jean-Michel Servet,2015-10-15 Microcredit programmes, long considered efficient development tools, now face unprecedented crises in a number of countries. Is this the end of microcredit or rather an essential step in its expansion? Should we stop microcredit altogether or rethink the way it is implemented? Drawing on extensive empirical research conducted in various parts of the world - from Morocco to Senegal to India - this important volume examines the whole chain of microcredit to provide the answers to these questions. In doing so, the authors highlight the diversity of crises, both in intensity and in nature, while also shedding light on a diversity of causes, be it microcredit organizations unprepared for massive growth, saturated local economies or greedy investors and shareholders attracted by profits. Crucially, the authors demonstrate that microcredit is not a monolithic project, and the crises should also be analysed in the light of national histories and policies. An original and necessary intervention in what has become one of the most contentious topics within the development world.

Economic Freedom and Market Regulation Robert Grzeszczak,2020-08-24 Die Regulierung verschiedener Märkte hat in den letzten Jahren deutlich zugenommen. Obwohl das Fehlen geeigneter Vorschriften sehr gefährlich sein kann, ist es dennoch wichtig, eine Überregulierung zu vermeiden, um die wirtschaftliche Freiheit als Grundlage des sozioökonomischen Systems in der westlichen Welt nicht zu gefährden. Die vergleichende Untersuchung deckt das Wettbewerbsrecht sowie die sektoralen Vorschriften des Telekommunikations-, Energie- und Finanzmarktes ab und dient dem Ziel der Überprüfung gemeinsamer Grundsätze, anhand derer die Maßnahmen verschiedener Regulierungsbehörden bewertet werden können. Der zweite Schritt ist die Festlegung gemeinsamer Standards für die Bewertung der Eingriffe von Regulierungsbehörden in die wirtschaftliche Freiheit. Das Buch ist nicht nur für Praktiker des Privatsektors von Bedeutung, sondern auch für Regulierungsbehörden der EU-Mitgliedstaaten sowie für nationale und EU-Gesetzgeber und berücksichtigt bereits die verstärkte Regulierung in der Corona-Krise. Mit Beiträgen von Robert Grzeszczak, Dawid Sześciło, Artur Szmigielski, Tomasz Klemt, Michał Dorociak, Maciej Sokołowski, Michalina Szpyrka, Paweł Wajda

France International Monetary Fund,1999-12-10 This Selected Issues paper analyzes developments and issues in banking and financial markets in France. The paper provides an overview of the transition from a state-directed to a market-based financial system. It adopts a comprehensive approach and discusses the outcome of this transition in banking, insurance, and capital markets. The paper highlights the sequencing of financial sector modernization. The analysis concludes that, on balance, France has successfully modernized its financial industry and the financial system seems better prepared to operate successfully in the increasingly competitive international environment.

The Enforcement of EU Financial Law Jan Crijns,Matthias Haentjens,Rijnhard Haentjens,2022-06-30 This book focuses on the enforcement of EU financial law on the national and supra-national levels. Emphasis is laid on the interaction between the EU and national levels (vertical interaction), as well as between the private, administrative, and criminal law levels (horizontal interaction). The book takes a multi-jurisdiction and inter-disciplinary approach and covers a range of issues that are highly topical, such as the new EU Anti-Money Laundering regime, and the ReNEUAL model for administrative law. Over the last few decades, EU financial law has grown exponentially. Virtually all these new rules and regulations require enforcement. However, the EU legislator generally has been reluctant to regulate enforcement at the national level, and often does not prescribe whether enforcement should take place through national criminal, administrative, or private law. This results in both practical and fundamental questions for the legal practitioner and the academic. This book addresses those questions. With contributions by leading academics and senior members of EU and national institutions, the book will be of interest to professionals dealing with financial law in their daily practice such as lawyers, bankers, policy makers, officers at supervisory authorities, and judges, but also for academics interested in fundamental questions of interaction between legal systems.

Handbook of International Insurance J. David Cummins,Bertrand Venard,2007-12-23 Handbook of International Insurance: Between Global Dynamics and Local Contingencies analyzes key trends in the insurance industry in more than 15 important national insurance markets that represent over 90 percent of world insurance premiums. Well-known academics from Europe, the Americas and Asia examine their own national insurance markets, including the competitive structure, product and service innovations, and regulatory developments. The book provides academics and executives with an unprecedented range of information about today's insurance markets. This book also provides important 'new' information on the evolution of the financial sector worldwide and comprehensive chapters on reinsurance, Lloyd's of London, alternative risk

transfer, South and East Asian insurance markets, and European insurance markets. Setting the stage is an overview chapter by the editors focusing on overall conclusions on globalization.

Handbook of Public Credit in Europe Hans-Hermann Francke,Eberhart Ketzel,Hans-Helmut Kotz,2012-12-06 Hans-Michael Heitmuller The financing of public funds has become a strongly competitive business. Within the EU, national boundaries for this sphere have been formally removed as well as important hindrances to the trade of goods and services. Deregulation and technological innovations have decreased the economic distance between the regions of the EU. With the transition to the Euro, a weighty step has been made in the direction towards a home market. It has become simpler and worthwhile for public borrowers to obtain comparative offers from over and beyond country borders. For the supplier, this field of business is marked by relatively low risks, a correspondingly modest personal capital requirement, but narrow margins as well. On the other hand, as well as language and social differences, there exist in actuality still many-sided market access thresholds on the basis of different institutional and instrumental framework data within the individual countries, especially in the area of public funds. This will only change slightly in the foreseeable future. Reliable information about these special framework conditions is still in demand. It is an important factor of success in business politics.
