Don Batten, David Catchpoole, Carl Wieland

Alien Intrusion Gary Bates, 2004 Most people at one time or another have probably been curious to know, What could account for all of those strange objects in the sky that many credible witnesses see? Or, what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the heavyweights of UFology -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more sinister -- yet profound -- than most could imagine. - Publisher.

The Creation Answers Book Don Batten, David Catchpoole, Carl Wieland, 2006

The Greatest Hoax on Earth? Jonathan D. Sarfati, 2010-01-01 Richard Dawkins, the undisputed high priest of evolution/atheism, says his book *The Greatest Show on Earth: the evidence for evolution* is the first time he has presented all the evidence for evolution/long ages. It is promoted as an unanswerable demolition of creation. Scientist, logician, chessmaster and author of the world's biggest-selling creationist

book, CMI's Dr Jonathan Sarfati, relentlessly demolishes Dawkin's claims point-by-point, showing biblical creation makes more sense of the evidence. - Publisher.

End Times Stephen Armstrong, 2017-04-20 The first in a new Bible study series from Verse By Verse Ministry International (vbvmi.org). from the book of Revelation, Daniel and other scripture. Students will gain a foundational understanding of God's plan for Israel, the Church and the end of the age. The VBVM Group Study series is designed to suit the needs of students new to a study of end times while still offering a challenge to experienced Bible students. The videos feature the teaching of Stephen Armstrong, acclaimed for his unique and gifted approach to explaining the Bible. The Promise-Plan of God Walter C. Kaiser, Jr., 2009-10-06 What is the central theme of the Bible? Given the diversity of authorship, genre, and context of the Bible's various books, is it even possible to answer such a question? Or in trying to do so, is an external grid being unnaturally superimposed on the biblical text? These are difficult questions that the discipline of biblical theology has struggled to answer. In this thoroughly revised and expanded edition of his classic *Toward an Old Testament Theology*, Walter Kaiser offers a solution to these unresolved issues. He proposes that there is indeed a unifying center to the theology and message of the Bible that is indicated and affirmed by Scripture itself. That center is the promise of God. It is one all-encompassing promise of life through the Messiah that winds itself throughout salvation history in

both the Old and New Testaments, giving cohesiveness and unity to the various parts of Scripture. After laying out his proposal, Kaiser works chronologically through the books of both testaments, demonstrating how the promise is seen throughout, how the various sub-themes of each book relate to the promise, and how God's plan to fulfill the promise progressively unfolds. Here is a rich and illuminating biblical theology that will stir the emotion and the intellect.

Voice of the Volcano Creation Ministries International (Australia), 1993-07-01

Creation or Evolution Denis Alexander, 2014-09-19
Dr Denis Alexander is a neuroscientist who believes passionately in both the biblical doctrine of creation and the coherence of evolutionary theory. His book draws on the latest genetic research. What do we mean by creation and evolution? What are the common scientific objections to evolution? Is evolution atheistic? Who were Adam and Eve? Can the concept of the Fall be reconciled with evolutionary theory? How could a God of love create a world where animals kill each other? What about intelligent design? The author concludes that the question in the title is a false dichotomy: we do not need to choose, since both are true. 'Nature is what God does' - Augustine This new edition takes account of the most recent scientific and theological developments and responds to critiques of the first edition.

Unlocking the Mysteries of Creation Dennis R. Petersen, 2008 Unlocking the Mysteries of Creation is a top-selling book in the homeschool market.

This book is marketed in both homeschool and adult markets. The book has wide appeal in all the following areas: Youth, Adult, Creation/Science, Biblical Studies, and General Interest.

Understanding Scientific Theories of Origins

Robert C. Bishop, Larry L. Funck, Raymond J.

Lewis, Stephen O. Moshier, John H. Walton, 2018-12-04

The question of origins remains a stumbling block for many. But just as the Psalmist gained insight into God's character through the observation of nature, modern scientific study can deepen and enrich our vision of the Creator and our place in his creation. In this often contentious field Bishop, Funck, Lewis, Moshier, and Walton serve as our able guides. Based on over two decades of teaching origins together in the classroom, the authors present a textbook exploring mainstream scientific theories of origins in astronomy, cosmology, chemistry, geology, biology, physical anthropology, and genetics. While many authors engage origins from a Christian perspective, this is the first work offering a full-fledged discussion of the scientific narrative of origins from the Big Bang through humankind, from biblical and theological perspectives accessible to a lay audience. Topics include Principles of biblical interpretation Close readings of relevant Genesis texts A comprehensive Trinitarian doctrine of creation Cosmic origins The geologic history of Earth The origin of life on Earth The origin of species and diversity of life Human origins New creation and creation care Science education Rather than the familiar scenario where science and faith compete, this book seeks to diffuse

tensions by taking the inspiration and authority of the Bible seriously while respecting and honoring God's revelation through creation. Understanding Scientific Theories of Origins gives the reader a detailed picture of the sciences of origins along with how they fit into the story of God's creative and redemptive action. BioLogos Books on Science and Christianity invite us to see the harmony between the sciences and biblical faith on issues including cosmology, biology, paleontology, evolution, human origins, the environment, and more.

Creating a Missional Culture JR

Woodward, 2013-09-20 Once upon a time, Moses had had enough. Exhausted by the challenge of leading the Israelites from slavery to the Promised Land, Moses cried out to God, What have I done to displease you that you put the burden of all these people on me? . . . If this is how you are going to treat me, please go ahead and kill me (Exodus 11:11, 15). If that sounds hauntingly familiar to you, you may be the senior pastor of a contemporary church. The burden of Christian leadership is becoming increasingly unbearable--demanding skills not native to the art of pastoring; demanding time that makes sabbath rest and even normal sleep patterns seem extravagant; demanding inhuman levels of efficiency, proficiency and even saintliness. No wonder pastors seem and even feel less human these days. No wonder they burn out or break down at an alarming rate; no wonder the church is missing the mark on its mission. In *Creating a Missional Culture*, JR Woodward offers a bold and surprisingly refreshing model for churches--not small adjustments around the periphery of a church's infrastructure but a radical revisioning of how a church ought to look, from its leadership structure to its mobilization of the laity. The end result looks surprisingly like the church that Jesus created and the apostles cultivated: a church not chasing the wind but rather going into

the world and making disciples of Jesus.

Refuting Evolution Jonathan D.

Sarfati, 2008-01-01

The Creationists Ronald L. Numbers, 2006 In light of the embattled status of evolutionary theory, particularly as 'intelligent design' makes headway against Darwinism in the schools and in the courts, this account of the roots of creationism assumes new relevance. This edition offers an overview of the arguments and figures at the heart of the debate.

By Design Jonathan D. Sarfati, 2008 At last, a definitive work on design by a leading biblical creationist. Today, the ID (intelligent design) movement is capturing headlines (and igniting controversy) around the world. But in the process, many are coming to think that a credible challenge to the dominant Darwinian naturalism of our time means backing away from a clear stand for the truth of the Bible. Now creationist heavyweight Jonathan Sarfati, whose *Refuting Evolution* has the most copies in print of any creation book ever, challenges this mindset head on. In the process, *By Design* is set to become a classic of the creation movement -- in the same vein as Dr. Sarfati's comprehensive *Refuting Compromise*, which is arguably the most powerful biblical and scientific defense of straightforward Genesis in existence. - Back cover
