Things I Have Drawn Tom Curtis, 2018-11-06 Perfect funny stocking-filler gift for fans of the Instagram sensation THINGS I HAVE DRAWN. KIDS' DRAWINGS HILARIOUSLY BROUGHT TO LIFE. ***** Have you ever wondered what the world would look like if children's drawings were real? Wonder no more. Global Instagram sensation THINGS I HAVE DRAWN does just that - and the results are AMAZING. 8-year-old Dom and 6-year-old Al are brothers who love to doodle, and then Dad Tom painstakingly transforms their creations into photorealistic scenes. Join the family on a trip to the zoo and laugh your socks off at all of the weird and wonderful creatures, including a gurning goat, a terrifying polar bear and a rather smug looking flamingo. Spectacularly funny and slightly disturbing, this book is packed with previously unseen material and the brilliant before-and-after images that have made @thingsihavedrawn such a cult hit.

Fraidyzoo Thyra Heder, 2013-11-05 It's a great day to go to the zoo As her family hustles to get out the door, Little T lags behind. She's afraid to go back to the zoo; the only trouble is, she can't remember why. As an ingenious solution to help her remember, her mom, dad, and sister construct homemade costumes and act out zoo animals--in alphabetical order, no less The costumes and scenes grow increasingly elaborate and breathtakingly creative. An umbrella and bubble wrap magically transform into a jellyfish, bath towels and a can of soda become a parrot, and many, many more. At the end of the day, Little T has conquered her fear and no longer feels like a fraidyzoo. In this charming, witty picture book debut, Thyra Heder honors the bravery it takes to face your fears, and the loving people who help you do so. Praise for Fraidyzoo STARRED REVIEWS WARNING: Expect riotous buffoonery after reading this clever and original alphabet story, as kids will definitely want to parrot the examples. --Kirkus Reviews, starred review Debut talent Heder comes up with a wildly imaginative idea for an alphabet book/animal guessing game, elaborates it with smartly drafted ink-and-watercolor spreads, and seasons it with plenty of family warmth and hullabaloo. --Publishers Weekly, starred review The cut-and-paste, handmade look and feel of this picture book underscores its thematic ode to creative problem solving... The charming, detailed watercolor and ink illustrations really tell the story, and children will relish poring over them to guess the animal costumes and identify their construction materials. --School Library Journal Heder tells a child-relevant story about facing your fears with a light hand and zippy prose, but it's her art that dials the zippiness up to 11, as her warm and humorously realistic figures gallivant alongside some remarkably envisioned handcrafted animal puppets. --Booklist This book does the impossible, taking one of the oldest children's book conventions, the zoo alphabet, and completely reinventing it. It's a story about a family helping one of their own overcome fear by being utterly silly and completely loving. The whole thing is done with such a confident and lively style, it's hard to believe that this is Heder's first picture book. Fraidyzoo is funny, original, and announces Heder as a force to be reckoned with. --The Atlantic Wire Illustrations capture the empathy of a very concerned, loving, and creative family. --Library Media Connection Award 2014 Texas 2x2 Reading Award List Notable Children's Books from ALSC 2014

Creative Challenges Tim Lowson, 2021-03-01 Edward de Bono has long been recognised as a 'guru' in the area of lateral thinking. It is his contention that the mental activity of 'creative thinking' is not just the product of a high level of intelligence. Indeed, as thinking can be seen as a skill, the end result can be affected considerably by the amount of practice that the 'thinker' has been exposed to before undertaking the given task. The activities in Creative Challenges have been designed to stretch your students' understanding and thinking skills. This activity book follows the

basic principles of de Bono and Dalton in concentrating on eight processes or skills which foster an increased ability to think creatively and divergently. These include: Cognitive abilities – Fluency, Flexibility, Originality and Elaboration; and Affective abilities – Curiosity – Complexity, Risk Taking and Imagination.

Creativity and Giftedness Roza Leikin, Bharath Sriraman, 2016-08-24 This volume provides readers with a broad view on the variety of issues related to the educational research and practices in the field of Creativity in Mathematics and Mathematical Giftedness. The book explores (a) the relationship between creativity and giftedness; (b) empirical work with high ability (or gifted) students in the classroom and its implications for teaching mathematics; (c) interdisciplinary work which views creativity as a complex phenomena that cannot be understood from within the borders of disciplines, i.e., to present research and theorists from disciplines such as neuroscience and complexity theory; and (d) findings from psychology that pertain the creatively gifted students. As a whole, this volume brings together perspectives from mathematics educators, psychologists, neuroscientists, and teachers to present a collection of empirical, theoretical and philosophical works that address the complexity of mathematical creativity and giftedness, its origins, nature, nurture and ways forward. In keeping with the spirit of the series, the anthology substantially builds on previous ZDM volumes on interdisciplinarity (2009), creativity and giftedness (2013).

Wild About Books Judy Sierra,2012-07-25 OVER HALF A MILLION COPIES SOLD! Winner of the E.B. White Read Aloud Award It started the summer of 2002, when the Springfield librarian, Molly McGrew, by mistake drove her bookmobile into the zoo. In this rollicking rhymed story, Molly introduces birds and beasts to this new something called reading. She finds the perfect book for every animal—tall books for giraffes, tiny ones for crickets. “She even found waterproof books for the otter, who never went swimming without Harry Potter.” In no time at all, Molly has them “forsaking their niches, their nests, and their nooks,” going “wild, simply wild, about wonderful books.” Judy Sierra’s funny animal tale coupled with Marc Brown’s lush, fanciful paintings will have the same effect on young Homo sapiens. Altogether, it’s more fun than a barrel of monkeys!
