The Skinny on Credit Cards Jim Randel, 2009 *The Skinny on Credit Cards* is the story of Billy and Beth, a typical American couple, as they struggle with the use (and abuse) of their credit cards. Our story also looks at their 18-year-old son, Jake, a college freshman who loves the idea of having his own credit cards. Through their experiences, we learn about the incredible convenience, heartache, and commentary generated by that little piece of plastic.

The Credit Card Guidebook Bill Hardekopf, John Oldshue, Lynn Oldshue, 2008-08-11 *The Credit Card Guidebook* simplifies all the facets of the credit card industry. Learn how to find the right card for you; how to decipher the confusing Terms and Conditions of a card; how to get started with no credit; and how you can make money off your credit cards. This book is written by Bill Hardekopf, John Oldshue & Lynn Oldshue, the owners of LowCards.com, the #1 rated Internet resource for credit card information. LowCards.com simplifies the confusion of shopping for credit cards. It is a free, independent website that helps consumers easily compare all the credit cards offered in the United States in a variety of categories such as lowest rates, rewards, rebates, balance transfers and lowest introductory rates. It also gives an unbiased ranking and review for each card.

How You Can Profit from Credit Cards Curtis E. Arnold, 2008-06-06 Who would not be interested in getting an interest-free loan for 12 months for any type of purchase just for taking a few minutes to complete a credit card balance transfer offer? Or a free round-trip airline ticket twice a year just for making purchases on a rebate card? Or lowering their insurance premiums by hundreds of dollars a year just by raising their credit score? Obviously, just about every consumer is interested in saving money and getting freebies! Hence, the universal appeal of this book cannot be overstated. Today, the average American household has 12.7 credit cards. Banks maximize their profits by

nickel and dimeing and outsmarting their cardholders: that's why credit cards are their most profitable product. Banks spend billions enticing consumers with rebates, freebies, low-introductory rate offers, and airline miles. Learn how to take full advantage of these offers, without paying for them through brutally high interest rates, fees, and penalties! Arnold offers specific advice targeted to young consumers who are being aggressively targeted by credit card marketers; retirees facing credit discrimination; Americans recovering from bankruptcy or other debt problems; and even consumers with great credit. You'll learn the techniques he has personally used to escape credit card debt, creatively finance his wedding, car, and home purchases, and earn thousands in credit card perks every year.

The Plastic Effect Polly A. Bauer, Stephen Lesavich, PhD, JD, 2012-12-14 WINNER 2013 ~ INDEPENDENT PUBLISHER LIVING NOW BOOK AWARD ~ GOLD MEDAL for best book in Finance/Budgeting. The Living Now Book Awards celebrate the innovation and creativity of newly published books that enhance the quality of our lives and publicize the importance of these books to readers. Do you have a credit card? Roughly 70% of adults in the U.S. do. In fact, Americans average 3.5 credit cards per person – that's a lot of plastic! Even with all that buying power in their wallets, most consumers have no idea the ways that they use (or misuse) their credit cards can affect their health, their relationships, and their credit scores. Many factors go into mounting credit card debt: impulse shopping, health emergencies, the loss of a job, marriage, divorce, a death in the family. With this debt comes stress, arguments, loss of sleep, inability to pay other bills, worry, health problems, crumbling relationships. Does any of this sound familiar? Increasing credit card debt and a lack of knowledge about how credit cards really work have created a new social phenomenon called The Plastic Effect. And if you have a credit card, The Plastic Effect can affect YOU. In this new book, internationally recognized credit card expert, Polly A. Bauer, CPCS and attorney Stephen Lesavich, PhD, JD, have selected 25 of the most common urban legends influencing the use and misuse of credit cards. The authors, as business leaders and credit card experts, walk you through these urban legends about how credit cards are used and misused, explaining what is true and what is likely to cause you trouble. You will get access to resources and additional information about each myth, tips from industry experts, and guidance that will help you use your credit cards more intelligently and effectively. You'll also learn how to understand your credit reports, improve your credit score and manage your debt in a way that puts the power back in YOUR hands. In short, this book will help you break free of The Plastic Effect.

Confessions of a Credit Junkie Beverly Harzog,2013-11-25 Credit card expert Beverly Harzog shares how she went from being a credit card disaster to a credit card diva. When Beverly got out of college, she spent the next 10 years racking up debt on seven credit cards. Credit card limits, she believed, were merely "guidelines," certainly not anything to be taken seriously...especially if she was in dire need of a new pair of shoes. The fact that she was a CPA at the time adds an ironic twist to the credit quagmire she slowly descended into. In *Confessions of a Credit Junkie*, Beverly candidly details her own credit card mishaps and offers easy-to-follow advice, often with a touch of Southern humor, to help others avoid them. In this much-needed book, you'll learn: How to use the Credit Card Personality Quiz to choose

Credit Card Risks Crash Course IntroBooks, 2018-02-19 A credit card happens to be one of the most contentious products amongst all the monetary tools that are accessible. Most people pay their expenses using credit cards. However, the leaders and financial experts about using credit cards have completely mixed reviews. In fact there are some who are adamant on destroying the powers of this financial instrument. A credit card is merely a tool and whether or not its services are detrimental or obliging depends on how the users use this tool. A credit card may not be something for everyone. If someone lacks the quality of self-control or responsibility then a credit card may not be their piece of cake.
