The Future Architect Srinivasulu Kopparapo, Rupesh Nellore, 2020-12-10 After interviewing, talking and surveying with many mid-level managers, technical leads and engineers who are looking for upscaling their career paths, we found a big gap in bridging the business problem understanding and technology solutioning. Especially asking the right questions, factors influenced for choosing the approach, understanding assumptions, finding the low hanging and high fruits and creating an MVP roadmap. This book will help them to connect the dots and uplift the new thought process. The use-cases and problems are being picked up based on real life business scenarios and are widely used in everyday life.

Broadcasting Rights for Cricket Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2006-02 Public interest in the recent Ashes test series served to heighten the anger about the removal of Test cricket from free-to-air television. This report looks at the contract between the ECB and Sky; the statutory framework behind the listing of sporting events; the reasons for excluding test cricket from the A list; and the gentleman's agreement, that had existed, that a substantial proportion of Test cricket would be maintained on free-to-air channels. Although the Committee supports the idea of free-to-air broadcasting they do not recommend re-listing in Group A. They recognise that the ECB is best qualified to judge the long-term interests of the game but that they must also balance the public interest.

LAW OF COPYRIGHT DAS, JATINDRA KUMAR, 2021-02-01 The book attempts to critically analyse the cases on the law of copyright as well as statutory provisions of law of copyright. When the first edition of the book was published in 2015, there was no readable and dependable book for the general reader interested to be acquainted with the changing features of the law of copyright immediate after the enactment of the Copyright (Amendment) Act 2012. Since the publication of this book, the Finance Act 2017 has introduced Appellate Board in place of Copyright Board as well as the Supreme Court and High Courts in India have also delivered a large number of judicial decisions on the law of copyright. In this edition the author has surveyed all such Courts decisions and analysed them and inserted them in appropriate places of the book and also examined the impact of the Appellate Board. It presents not only the provisions of the Copyright Act 1957 in the form of a normative, but points out the changes made thereon by formal amendments as well as conflicts of law which have been settled by judicial interpretations. The book is divided into ten chapters. Chapter 1 is introductory, while Chapters 2 and 3 discuss the origin and development of law of copyright at international as well as national level. The most important debatable issue in copyright law is "works in which copyright subsists", and the Chapter 4 is devoted to this aspect. Chapter 5 explores various issues relating to author of work, owner of copyright and recognised rights of copyright owner. The terms of copyright, licensing of copyright, international copyright and registration of copyright are the subject matter of Chapter 6, while rights of broadcasting organisation and of performers (neighbouring rights) are the subject matter of Chapter 7. Internet is the greatest communication medium of the contemporary era, and there is an inherent link between law of copyright and internet. Therefore, Chapter 8 is devoted to discuss various issues relating to "protection of copyright in internet." While Chapter 9 demonstrates the law relating to infringement of copyright and defences of copyright liability. Chapter 10, the concluding chapter, discusses the enforcement of copyright in India in detail. Though the book is designed for the undergraduate and postgraduate students of Law, it will be equally beneficial for the researchers, academicians, jurists, lawyers, judges as well as members of civil society. **TARGET AUDIENCE** • Undergraduate and postgraduate students of Law. • Researchers, Academicians, Jurists, Lawyers, Judges as well as members of Civil Society.

Emerging Technologies in Data Mining and Information Security Ajith Abraham, Paramartha Dutta, Jyotsna Kumar Mandal, Abhishek Bhattacharya, Soumi Dutta, 2018-12-12 This book features research papers presented at the International Conference on Emerging Technologies in Data Mining and Information Security (IEMIS 2018) held at the University of Engineering & Management, Kolkata, India, on February 23-25, 2018. Contemporary Issues in International Law B.C. Nirmal, Rajnish Kumar Singh, 2018-02-13 This book explores the changing nature of international law and its ability to respond to the contemporary issues related to international environment, trade and information technology. The evolution of international law has reached a stage where we are witnessing diminishing power of the state and its capacity to deal with the economic matters challenging the existing notions of territory and sovereignty. Recent trends in international law and international relations show that states no longer have exclusive control over the decision-making process at the global level. Keeping this in mind, the book brings together the perspectives of various international and national scholars. The book considers diverse issues such as, sustainable development, climate change, global warming, Rio+20, technology transfer, agro-biodiversity and genetic resource, authority for protection of environment, human right to water, globalization, human rights, sui generis options in IP laws, impact of liberalization on higher education, regulation of international trade, intellectual property rights, collective administration of copyright, broadcast reproduction rights, implementation of copyright law, communication rights under copyright law, arbitration for IP disputes, doctrine of exhaustion of rights, trans-border reputation of trademark, information as an asset, cyber obscenity and pornography, e-governance, taxation of e-commerce, computer crime, information technology, domain names, research excellence in legal education, ideological perspective on legal education, challenges for law teachers, and clinical legal education. The topics, though diverse, are closely interrelated, with the common concern throughout being that the global environment, international trade, information technology and legal education need appropriate national normative and institutional responses as well as the global cooperation of members of the international community. Presenting reflections of a number of Asian, African and European scholars on these varied facets, the book is of great value to scholars, practitioners, teachers and students associated with contemporary international law.

12th Man Steven Dawson, 2021-03-01 Offering a painfully honest insight into the male psyche, 'The 12th Man' is a fascinating account of how there can be far more to a die-hard football fan than meets the eye. Most fans don't choose their football club. In fact, the majority of them don't even choose football itself. Becoming a Leeds United fan was a rite of passage for Steven Dawson, and even had he known the scale of the drama that would unfold after he became a fan, he would never have supported another club.

Sports Law in India Mohammad Naseem, Saman Naseem, 2022-08-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in India deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing

relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policy makers access to sports law at this specific level. Lawyers representing parties with interests in India will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law.

Sphere of Influence Gideon Haigh, 2011-08-18 'Does cricket make money in order to exist, or does it exist in order to make money?' In the last three years, cricket has changed more completely than in the preceding three decades, revolutionised by a racy new format, Twenty20, and a glamorous new competition, the Indian Premier League. How did India come to run world cricket? How did clubs owned by billionaires and Bollywood stars begin to shove international competition aside? How did money unite players and divide administrators, amid allegations of massive corruption? Gideon Haigh has followed cricket's biggest story since Kerry Packer's 'World Series' from the beginning: Sphere of Influence is the result. This insightful collection brings the struggle to save cricket's soul into sharp and disturbing focus.

JAVA 9.0 To 13.0 New Features JogA Mandar, 2019-09-20 Comprehensive guide to study the version updates from JDK9.0 to JDK13.0 Key features Learn the journey of Java from its initial days till date. Learn how to implement modular programming in java9. Study the updates in different versions of Java from version 9.0 to 13.0. Understand the need and working of reactive programming. Learn to migrate the pre-existing Java code to new versions. Learn how to use jshell to test a new API before using in a project. Description Version release is one of the important phases of success of any programming language. Over the years, Java had made many improvements in its API to make it reliable and flexible to use. This book aims at providing you information related to all the updates from JDK9.0 to JDK13.0 in one place. This book starts with a brief history of Java. It covers how Java has evolved as a complete programming language over the years by launching different versions. You will learn the concept of module system and other important concepts introduced in JSE9 .0 and JSE10.0. Moving ahead, the book will take you through updates in JDK11.0. Concepts like Epsilon, ZGC, and Nest-Based access control have also been discussed. Though the version updates are good to learn, they create complexities in updating the existing code to make it compatible with the new version. This book talks in detail about how you can migrate your legacy code to match up with the new versions. It also covers how to use jshell, a tool used to test your code snippet without writing the complete application class, with numerous examples. Further, this book covers in detail the concept of reactive programming. Concepts like publisher, subscriber, subscription and back-pressure have been discussed with examples. At the end of the book, you will learn about the very recent updates which have been released by Java. The chapters talk about JDK12.0 and JDK13.0. They cover concepts like Shenandoah, microbenchmark suite, modified switch expression from JDK12.0. Though, Java13 is still a hot-plated dish, this book gives you a fair idea about what are the new updates which have been proposed in this version. What will you learn By the end of this book, you will be able to implement the updates provided in different versions of Java. This book has covered the updates from version 9.0 to 13.0. You will be able to work with the Java Module System. You will be able to test the new API using jshell. Along with this, you will be able to migrate your legacy code to match the recommendations of new versions of Java. Who this book is for This book covers the new version updates in Java. So, prior knowledge of Java is recommended before reading this book. Though we are covering the versions from JSE9.0 onwards, it is not necessary that the reader should be expert in the earlier versions. If you are keen to know the recent developments in Java API, this is the perfect book for you. Table of contents 1. Insights of Versioning 2. What's new in Java 9 3. Understanding JDK10 - Step towards JDK11 4. Dive in JDK11 5. Migrating the code 6. Working with JShell 7. Reactive Programming and Concurrency Updates 8. What next in Java 12 9. Introduction to Java 13 About the author Mandar Jog is a passionate Java Trainer with over 15 years of experience in retail and corporate training. He has global certifications like SCJP and SCWCD. His areas of expertise are Java, J2EE (Spring, Hibernate). He has delivered more than 500 training sessions on Core Java, Web Technologies, Hibernate, Spring Boot, Angular, etc.

The Internet Consumer Bible Tess Read, Calum Chace, Simon Rowe, 2012-05-31 The Internet Consumer Bible is the most authoritative guide to the internet available. Far more than a directory, this book shows you - whether novice or experienced web surfer - which sites can help you and which sites are a waste of time. Taking you through every aspect of life and showing how to save hundreds of pounds and release hours of valuable time for other activities, the book also looks at what you can't do on the web or what you can still do better offline. Chapters finish with a list of sites in the area providing a brief description of what the site does and a star rating of 1-5 for how good each is. There are five major sections: 1) Basics. Chapters in this section include: what is a 'good website?'; getting started, unmetered access, ADSL, virus programmes, firewalls, screening software, mobile internet and interactive TV. 2) Lifestages. Chapters in this section include: births and young children; education; dating, marriage and divorce; work: job-seeking, self-employment, redundancy; death. 3) Shopping.
