Insights on Reporting Sports in the Digital Age Roger Domeneghetti, 2021-07-19 This first book in the Journalism Insights series examines the major practical and ethical challenges confronting contemporary sports journalists which have emerged from, or been exacerbated by, the use of digital and social media. Combining both quantitative and qualitative research and contributions from industry experts in sports reporting across Europe, America and Australia, the collection offers a valuable look at the digital sports reporting industry today. Issues discussed in the text include the ethical questions created by social media abuse received by sports journalists, the impact of social media on narratives about gender and race, and the 'silencing' of journalists over the issue of trans athletes, as well as the impact on 'traditional' aspects of sports journalism, such as the match report. The book features first-hand accounts from leading sports reporters and scholars about how these changes have affected the industry and sets out what 'best practice' looks like in this field today. This book will be a useful resource for scholars and students working in the fields of

journalism, media, sports and communication, as well as for current sports journalism practitioners interested in the future of a changing industry.

The Economics of Professional Road Cycling Daam Van Reeth, Daniel J. Larson, 2015-09-29 Over the past decade, a growing body of academic literature on the economics of road cycling has been amassed. This book is the first volume to bring together a majority of the academic research and knowledge on the economics and management of professional road cycling. Each chapter treats a particular economic aspect of the sport, from organizational structure to marketing, labor, game theory, and competitive balance. By discussing the existing research and complementing it with the newest concepts, ideas and data on professional road cycling, this book sets an agenda for further academic research while providing insights for all

It illustrates the origins, impact, reach,

economics, production, and presentation of sports on video media – including, but not limited to, television. It takes the reader behind the scenes to describe the forces and processes that have shaped and continue to change sports content, its delivery, and how it connects with fans. Dennis Deninger draws from his experiences as an expert in the industry to expose how the choices and decisions that are now being made affect the programming, content, storytelling, production, advertising, and delivery of the sports broadcasting that we will see next season and how it will evolve in the years to come. In this new book, he teams up with Christopher Zook, a renowned financial investor who draws from thirty years of experience to round out the trilogy of #1 New York Times bestselling financial books. Together they reveal how, for decades, trillions of dollars of smart money – think of large institutions, sovereign wealth funds, individuals with ultra-high-net worth – have been making outsized returns using alternative investments in private equity, private credit, private real estate, energy and venture capital. How the renewable energy revolution will create new winners and losers. How investments in private real estate can work as an

inflationary hedge. Interviews, advice, and insights from some of the world's most formidable titans of industry, such as Howard Marks of OakTree Capital, Vinod Khosla of Khosla Capital, Barry Sternlicht of Starwood, Robert Smith of Vista, and Peter Theil of Founders Fund, among others. Sports, Media, and Society Kevin Hull, 2024-03-26 Whether espoused by sports leagues, teams, or individual athletes, social issues are part of the sporting world fabric. The sports media often plays the gatekeeper, deciding how messages are presented and to what extent they're covered—if at all. *Sports, Media, and Society* investigates the impact of societal issues in sports and how the media reports those stories. Why does the sports media operate in the manner that it does, and what's the impact of its decisions on the audience? With *Sports, Media, and Society*, there is now a resource that combines mainstay class discussion points, current case studies, and theoretical and historical foundations in one comprehensive text. The book's 34 chapters are each short and concise—a format preferred by instructors—covering a wide range of topics and easily digestible for students. Part I covers sports media history and the media's role as gatekeeper. Chapters explore the history and evolution of various

media—newspapers, magazines, radio, television, and social media—and the business of and competition between sports media entities. Case studies examine NBC's Olympics coverage and the nimbleness of Sports Illustrated in the digital space. Part II showcases television's impact on how fans follow sports. Discussions include ABC's Wide World of Sports, which exposed viewers to events around the globe; ESPN's foray into 24/7 sports coverage; and Fox Sports' shocking NFL deal, which marked a new era in media rights negotiations and sports broadcasting technologies. The intersection of sports and social issues is the focus of part III. Numerous issues are addressed, punctuated by case studies involving key players and events related to each topic. Cases concerning Colin Kaepernick, USWNT (and coverage of women's sports generally), LGBTQ+ issues, and obstacles faced by women working in sports media are highlights, while examinations of social identity theory and framing provide context on how people identify with specific groups and how the media influences opinions. Athletes and sport entities are constantly in the news—not always in a positive light. Part IV addresses crisis management and communication, featuring case studies about Tiger Woods, Lance Armstrong, LeBron James (The Decision), Kobe Bryant (his death and the misreporting of facts surrounding it), and the Houston Astros sign-stealing scandal. The text concludes with part V, which explores emerging trends in sports media and society. Through social media, virtually anyone can become a thought leader (wresting control from traditional outlets), and teams and athletes can

dialogue directly with fans, effectively sidelining sports journalists. Chapters on the formerly taboo subjects of athlete mental health and sports wagering, as well as the exploding popularity of esports, round out the text. Sports shape our culture in numerous ways, and the sports media plays a transformative role in how it occurs. Sports, Media, and Society prepares tomorrow's sports journalists and communicators to venture beyond the how-tos of developing content to understanding the whys behind it.

Broadcasting Rights for Cricket Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2006-02 Public interest in the recent Ashes test series served to heighten the anger about the removal of Test cricket from free-to-air television. This report looks at the contract between the ECB and Sky; the statutory framework behind the listing of sporting events; the reasons for excluding test cricket from the A list; and the gentleman's agreement, that had existed, that a substantial proportion of Test cricket would be maintained on free-to-air channels. Although the Committee supports the idea of free-to-air broadcasting they do not recommend re-listing in Group A. They recognise that the ECB is best qualified to judge the long-term interests of the game but that they must also balance the public interest.

You Must Like Cricket? Soumya Bhattacharya, 2011-06-30 The great C L R James once asked: 'What do they know of cricket who only cricket know?' For some of us answering that can keep you awake at night. Soumya Bhattacharya knows this: he has a steady job, a loving wife, a daughter he dotes on. But most of all he has cricket. Or perhaps more accurately: cricket has him. Ever since he can remember, he's loved the game. From his first knockabouts on the living-room carpet - with his mother's paper bats and balls - he progressed to Test Match Special on short-wave, then to the whole panoply of obsession: one-dayers, Test matches, TV highlights, re-runs of TV highlights, always following one team - India. When you come from a country where the game is more than a religion, you must like cricket, right? In this sparkling memoir of a lifetime spent in the company of eleven men, a green field and a billion

other worshippers, Soumya Bhattacharya gives us a guided tour of the soul of a cricket obsessive. Part reportage, part travelogue, part cultural politics, *You Must Like Cricket?* takes us from his home in Kolkata to Lord's and back again as Bhattacharya explores the joys and the lows (mostly the lows) of a thirty-year love affair, how one game has become so closely tied to a nation's identity, and the troubling hold cricket has over him. But if your home ground was called Eden Gardens, where else would you rather be?

Introduction to International and European Sports Law Robert C.R.

Siekmann, 2012-04-23 The book is an introduction to sports law, in particular International (worldwide) and European (EU) sports law. The chapters are all put in the perspective of the innovative sports law doctrine that is developed and presented in the opening chapter on what sports law is. After a general coverage of the core concept of "sport specificity" (that is whether private sporting rules and regulations can be justified notwithstanding they are not in conformity with public law), the book covers the following specific main themes of International and European Sports Law (*capita selecta*): comparative sports law; competition law and sport; the collective selling of TV rights; sports betting; Social Dialogue in sport; sport and nationality; professional football transfer rules; anti-doping law in sport; transnational football hooliganism in Europe; international sports boycotts. In this book association football ("soccer") is the sport that is by far most on the agenda. It is the largest sport in the world and most popular all over

the globe. The elite football in Europe is a day-to-day commercialized and professionalized industry, which makes it a perfect subject of study from an EU Law perspective.
