Out of the Ashes Tim Albone,2011-05-05 Cool Runnings meets Joseph O'Neill's *Netherland* in an inspiring and feel-good story of bravery and sporting success from a country so widely known for war and extremism. This is the true story of the Afghanistan cricket team and their extraordinary attempt to join the world's elite cricketing nations. That this devastated nation should be able to field a cricket team at all, let alone one as successful as this, is an unbelievable achievement. Seven years ago, in a country which does not have a real cricket pitch even today, there was no national team. But a group of young Afghan men, exiled by war, learnt to play in the smashed concrete of refugee camps, and have risen from obscurity to the groomed grass pitches of international cricket. With unlimited access, Tim Albone travelled alongside the team for the two years, charting the players' progress from refugees in Pakistan to the brink of international sporting stardom. Far from being bogged down in cricket jargon, this tale of a gang of dedicated, charismatic, occasionally exasperating young men seeking triumph out of disaster is one that will move and inspire everyone. Foreword by Mike Atherton.

The Promise of Endless Summers Martin Smith,2013 Whenever an august figure departs the world of cricket, The Daily Telegraph records a decorous tribute. There will certainly be an obituary – in days of yore penned by the doyen of cricket writers, E.W. Swanton, in recent times unafraid to be a lot more whimsical, waspish, and even extremely funny. There will often be an appreciation by one of the paper’s stable of cricket correspondents, such as Derek Pringle, Michael Henderson or Scyld Berry, most likely drawing on their memories of having played against the subject or watched his deeds. And sometimes a hero’s demise will prompt a heartfelt tribute from someone whose only qualification as an elegist is their own eloquence, as John Major displays on Denis Compton and Michael Parkinson on Keith Miller. And those cricket lives deemed worthy of memorialising need not be illustrious Test careers, though all the great names from Bradman to Bedser, Cowdrey to D’Oliviera, are here. They can also be quixotic county mavericks like ‘Bomber’ Wells, self-effacing professionals like Tom Cartwright and Derek Shackleton, or charismatic one-offs like Colin Milburn or the Nawab of Pataudi. They may not even be cricketers, but rather much-loved commentators and broadcasters like Brian Johnston and Christopher Martin-Jenkins, players-turned-umpires like David Shepherd and Bill Alley, or, like the Bishop of Liverpool who previously opened for Sussex and England, have made their name equally elsewhere. Their achievements are often hymned by their peers – Mark Nicholas on his Hampshire team-mate Malcolm Marshall, Tony Lewis on John Arlott, Colin Croft on Alf Valentine, and Simon Hughes on facing the fearsome Sylvester Clarke. Here, then, are more than eighty greats of the game – Australians and South Africans alongside Somerset yeomen and Yorkshire’s finest. For any cricket lover, this little book is an endlessly browsable testament to the sheer richness and variety of the cricketing life.

The Empire's of J. G. Ballard David Ian Paddy,2015-08-25 J. G. Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world. The Empires of J. G. Ballard is the first extensive study of Ballard's critical vision of nation and empire, of the political geography of this planet. Paddy examines how Ballard s self-perceived status as an outsider and exile, the Sheppertonian from Shanghai, generated an outlook that celebrated worldliness and condemned parochialism. This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization. Presenting analyses of Ballard s full body of work with its tales of reverse colonization, psychological imperialism, the savagery of civilization, estranged Englishmen abroad and at home, and multinational communities built on crime, The Empires of J. G. Ballard offers a fresh perspective on the fiction of J. G. Ballard. The Empires of J.G. Ballard: An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings. To what extent can Ballard be considered an international writer? What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism? And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity? Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars, but for anyone interested in the intersections of modern and contemporary literature, history and politics. (Jeanette Baxter, Anglia Ruskin University) Shanghai made my father. Arriving in England after WW2, he was a person of the world who d witnessed extremes of human experience, and remained the outsider observing life from his home in Shepperton. 1930s Shanghai, Paris of the East , was a mix of international sophistication and violence, unfettered capitalism and acute poverty, American cars, martinis and Coca Cola, a place marked by death and war. It had a profound influence on my father and his imagination. Dr Paddy s fascinating book explores my father s fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world. (Fay Ballard)
