Modernism Ahmet Ersoy, Maciej Górny, Vangelis Kechriotis, 2010-07-10 This volume presents and illustrates the development of the ideologies of nation states, the modern successors of former empires. They exemplify the use of modernist ideological frameworks, from liberalism to socialism, in the context of the fundamental reconfiguration of the political system in this part of Europe between the 1860s and the 1930s. It also gives a panorama of the various solutions proposed for the national question in the region.

Professional Property Briefings: Croatia Adam Jolly, 2006 This is the definitive English language guide to the laws and procedures governing the Croatian property market and to the investment opportunities in the country. Aimed at an international audience of property developers, professional investors, lawyers, estate agents and multinational companies, who are interested in both commercial and residential property investment, it addresses issues such as: gaining clear title to land; land registry records; gaining permission to buy a property; tax on capital gains; social legislation. And it looks in depth at the structure and future prospects for the property market in Croatia.

Anti-modernism Diana Mishkova, Marius Turda, Balázs Trencsényi, 2014-09-01 The last volume of the Discourses of Collective Identity in Central and Southeast Europe 1770-1945 series presents 46 texts under the heading of

antimodernism. In a dynamic relationship with modernism, from the 1880s to the 1940s, and especially during the interwar period, the antimodernist political discourse in the region offered complex ideological constructions of national identification. These texts rejected the linear vision of progress and instead offered alternative models of temporality, such as the cyclical one as well as various narratives of decline. This shift was closely connected to the rejection of liberal democratic institutionalism, and the preference for organicist models of social existence, emphasizing the role of the elites (and charismatic leaders) shaping the whole body politic. Along these lines, antimodernist authors also formulated alternative visions of symbolic geography: rejecting the symbolic hierarchies that focused on the normativity of Western European models, they stressed the cultural and political autarchy of their own national community, which in some cases was also coupled with the reevaluation of the Orient. At the same time, this antimodernist turn should not be confused with rightwing radicalism—in fact, the dialogue with the modernist tradition was often very subtle and the anthology also contains texts which offered a criticism of 'modern' totalitarianism in an antimodernist key.

The Habsburg Empire Pieter M. Judson, 2016-04-25 A EuropeNow Editor's Pick A Choice Outstanding Academic Title of the Year "Pieter M. Judson's book informs and stimulates. If his account of Habsburg achievements, especially in the 18th century, is rather starry-eyed, it is a welcome corrective to the black legend usually presented. Lucid, elegant, full of surprising and illuminating details, it can be warmly recommended to anyone with an interest in modern European history." —Tim Blanning, Wall Street Journal "This is an engaging reappraisal of the empire whose legacy, a century after its collapse in 1918, still resonates across the nation-states that replaced it in central Europe. Judson rejects conventional depictions of the Habsburg empire as a hopelessly dysfunctional assemblage of squabbling nationalities and stresses its achievements in law, administration, science and the arts." —Tony Barber, Financial Times "Spectacularly revisionist... Judson argues that...the empire was a force for progress and modernity... This is a bold and refreshing book... Judson does much to destroy the picture of an ossified regime and state." —A. W. Purdue, Times Higher Education "Judson's reflections on nations, states and institutions are of broader interest, not least in the current debate on the future of the European Union after Brexit." —Annabelle Chapman, Prospect

Sites of European Antisemitism in the Age of Mass Politics, 1880-1918 Robert Nemes, Daniel Unowsky, 2014-08-05 This innovative collection of essays on the upsurge of antisemitism across Europe in the decades around 1900 shifts the focus away from intellectuals and well-known incidents to less-familiar events, actors, and locations, including smaller towns and villages. This from below perspective offers a new look at a much-studied phenomenon: essays link provincial violence and antisemitic politics with regional, state, and even transnational trends. Featuring a diverse array of geographies that include Great Britain, France, Austria-Hungary, Romania, Italy, Greece, and the Russian Empire, the book demonstrates the complex interplay of many factors--economic, religious, political, and personal--that led people to attack their Jewish neighbors.

Bulgaria, Hungary, Romania, the Czech Republic, and Slovakia Britannica Educational Publishing, 2013-06-01 Bulgaria, Hungary, Romania, the Czech Republic, and Slovakia share a remarkably similar trajectory on their individual paths to becoming the nations they are today. Each had ties to the Roman, Byzantine, and Ottoman

empires in earlier times, all became Eastern-bloc countries in the 20th century, and all successfully emerged from Communist rule in the late 20th and early 21st centuries. These multi-layered lands—where folk traditions still exist alongside the hallmarks of modern life and the remnants of communist rule—are the subjects of this sweeping tome.

A Divided Hungary in Europe Gábor Almási, 2015-01-12 Despite fragmentation, heterogeneity and the continuous pressure of the Ottoman Empire, early modern “divided Hungary” witnessed a surprising cultural flourishing in the sixteenth century, and maintained its common cultural identity in the seventeenth century. This could hardly have been possible without intense exchange with the rest of Europe. This three-volume series about early modern Hungary divided by Ottoman presence approaches themes of exchange of information and knowledge from two perspectives, namely, exchange through traditional channels provided by religious/educational institutions and the system of European study tours (Volume 1 – Study Tours and Intellectual-Religious Relationships), and the less regular channels and improvised networks of political diplomacy (Volume 2 – Diplomacy, Information Flow and Cultural Exchange). A by-product of this exchange of information was the changing image of early modern Hungary and Transylvania, which is presented in the third and in some aspects concluding volume of essays (Volume 3 – The Making and Uses of the Image of Hungary and Transylvania). Unlike earlier approaches to the same questions, these volumes draw an alternative map of early modern Hungary. On this map, the centre-periphery conceptions of European early modern culture are replaced by new narratives written from the perspective of historical actors, and the dominance of Western-Hungarian relationships is kept in balance due to the significance of Hungary’s direct neighbours, most importantly the Ottoman Empire.

Religious Separation and Political Intolerance in Bosnia-Herzegovina Mitja Velikonja, 2003-02-05 Velikonja sees the former Ottoman borderland as a distinct cultural and religious entity where three major faiths—Islam, Catholicism, and Orthodoxy—managed to coexist in relative peace. It is only during the past century that competing nationalisms have led to persecution, ethnic cleansing, and mass murder. Here, he presents a comprehensive survey that examines how religion has interacted with other aspects of BosniaHerzegovina's history.
