Cassandra L. Thompson

Crow Call Lois Lowry,2010-11-01 The two-time Newbery medalist has crafted “a loving representation of a relationship between parent and child” in post-WWII America (Publishers Weekly, starred review). This is the story of young Liz, her father, and their strained relationship. Dad has been away at WWII for longer than she can remember, and they begin their journey of reconnection through a hunting shirt, cherry pie, tender conversation, and the crow call. This allegorical story shows how, like the birds gathering above, the relationship between the girl and her father is graced with the chance to fly. “The memory of a treasured day spent with a special person will resonate with readers everywhere.” —School Library Journal (starred review) “Beautifully written, the piece reads much like a traditional short story . . . the details of [Ibatoulline’s] renderings gracefully capture a moment in time that was lost. Relevant for families whose parents are returning from war, the text is also ripe for classroom discussion and for advanced readers.” —Kirkus Reviews

Crow Calls Robin Barber,2001

The Crow's Call Wanda E. Brunstetter,2020-03-01 Mysterious Events Plague a Greenhouse in Pennsylvania’s Amish Country When Vernon King, his son, and son-in-law are involved in a terrible accident, three women are left to cope with their deaths, as they become the sole providers of the family they have left. The women’s only income must come from the family greenhouse, but someone seems to be trying to force them out of business. Amy King has just lost her father and brother, and her mother needs her to help run the family’s greenhouse. It doesn’t seem fair to ask her to leave a job she loves, when there is still a sister and brother to help. But Sylvia is also grieving for her husband while left to raise three children, and Henry, just out of school, is saddled with all the jobs his father and older brother used to do. As Amy assumes her new role, she also asks Jared Riehl to put their courtship on hold. When things become even more stressful at the greenhouse, will Amy crumble under the pressure?

When the Crow Calls C. C. Brower,2018-11-11 Sue had been through a world of pain already. Surviving re-entry to this planet in a powerless escape pod. Learning to speak with telepathic canines that had become the dominant sentient beings on Earth. Finding she could shape-shift and create very real illusions. She brought the end to a civil war between their pack and those nearby. Peace on Earth - at least this little part. By learning only a tiny bit of the special skills she was capable of. That tiny bit might save the rest of the world as well - if she could learn to master what she didn't know. One warm summer's night, a messenger brought her to meet a greater being than she thought existed. To learn a secret she could use to get what she most wanted. All she wanted to do was rescue her family - only 240 thousand miles away - on the moon. First, she again had to solve multiple threatening situations at once... Get Your Copy Now.

Alarm Call of the Crow Llynne Reed,2021-07-23 A big black American crow calls out an alarm! Could his flock of ground feeding birds be endangered by a stalking cat or could it be an unusual human danger he sees from his perch above the driveway? The Barlows, a fictional Vermont family, know the answer, sharing the events of that day as they unfold, along with generations of happy and sad family happenings. Having earned a BA in English and certification as a librarian, Llynne Reed moved from New York state in 1966 to work at the University of Vermont. In the peaceful state of Vermont, the largest visual reminders of discord were twentieth century war memorials found in cemeteries and parks. One August morning she witnessed a painful event that replaced peace and happiness with distress and fear, remaining in her subconscious for years. Fast forward to 2001. Marriage, family and work had filled the years. When her children, now grown, moved west the nest was empty. Then on September 11th the planes flying into the World Trade Center, killing thousands and injuring many thousands more, darkened human spirits in New York City and the entire United States. It was time to be with family, but for the author, flying did not seem safe. Long cross-country road trips were the answer: the first across the southern tier of states, destination Arizona; the second: destination Oregon, across the north with visits to historical sites, Niagara Falls, Kent State University, Minidoka Internment Camp in Idaho; the third: a permanent move to Portland, site of WWII shipbuilding in the Willamette and Columbia rivers, the Japanese American Museum of Oregon, the Portland Japanese Garden and the Vietnam Veterans Living Memorial. Words-in-a-book history became visual and tangible, showing events that must never be forgotten. This historical novel reveals how history and life often intersect: resulting in understanding, appreciation, concerns and questions.

Rainbow Crow Nancy Van Laan,1991-07-02 Illus. in full color. This story of how the Rainbow Crow lost his sweet voice and brilliant colors by bringing the gift of fire to the other woodland animals is a Native American legend that will be a fine read-aloud because of the smooth text and songs with repetitive chants. The illustrations, done in a primitive style, create a true sense of the Pennsylvania Lenape Indians and their winters.-- School Library Journal.

Hollow Kingdom Kira Jane Buxton,2019-08-06 A finalist for the 2020 Thurber Prize for American Humor! The Secret Life of Pets meets The Walking Dead in this big-hearted, boundlessly beautiful romp through the Apocalypse, where a foul-mouthed crow is humanity's only chance to survive Seattle's zombie problem (Karen Joy Fowler, PEN/Faulkner Award-winning author). S.T., a domesticated crow, is a bird of simple pleasures: hanging out with his owner Big Jim, trading insults with Seattle's wild crows (i.e. those idiots), and enjoying the finest food humankind has to offer: Cheetos ®. But when Big Jim's eyeball falls out of his head, S.T. starts to

think something's not quite right. His tried-and-true remedies—from beak-delivered beer to the slobbering affection of Big Jim's loyal but dim-witted dog, Dennis—fail to cure Big Jim's debilitating malady. S.T. is left with no choice but to abandon his old life and venture out into a wild and frightening new world with his trusty steed Dennis, where he suddenly discovers that the neighbors are devouring one other. Local wildlife is abuzz with rumors of Seattle's dangerous new predators. Humanity's extinction has seemingly arrived, and the only one determined to save it is a cowardly crow whose only knowledge of the world comes from TV. What could possibly go wrong? Includes a Reading Group Guide.

The Humane Gardener Nancy Lawson,2017-04-18 In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

Dog Days, Raven Nights John M. Marzluff,Colleen Marzluff,2011-03-29 The coauthor of the award-winning In the Company of Crows and Ravens and his wife, an animal-behavior expert, offer an engaging account of their days as young field biologists in Maine Twenty years ago, fresh out of graduate school and recently married, John and Colleen Marzluff left Arizona for a small cabin in the mountains of western Maine. Their mission: to conduct the first-ever extensive study of the winter ecology of the Common Raven under the tutelage of biologist Bernd Heinrich.Drawing on field notes and personal diaries, they vividly and eloquently chronicle their three-year endeavor to research a mysterious and often misunderstood bird—assembling a gigantic aviary, climbing sentry trees, building bird blinds in the forest, capturing and sustaining 300 ravens as study subjects, and enduring harsh Maine winters in pursuit of their goal. They also shared the unique challenges and joys of raising, training, and racing the sled dogs that assisted them in their work.Accompanied by Evon Zerbetz's lovely linocut illustrations, Dog Days, Raven Nights is a fascinating, behind-the-scenes look at the adventures of field science and an insightful exploration of the nature of relationships, both animal and human.
