Jungalow: Decorate Wild Justina Blakeney, 2021-04-06 From Justina Blakeney, the ultimate guide to designing wildly creative interiors that are free-spirited, layered, and deeply personal Justina Blakeney's new book is her biggest, boldest, and most beautiful volume yet, filled with irresistible style, original patterns, and artwork—lushly photographed by Dabito. In each chapter, Justina shares her distinctive point of view on everything design fans want to know—how to make bold choices with color and pattern, how to take cues from nature, how to authentically glean inspiration from their heritage and travels, how to break rules, and all the other paths to truly begin to decorate wild. Along the way, Justina also shares personal narratives, practical advice, and nuanced insight into how she lives in her own space—how she reconnects with nature, how she plays and stays inspired, how she gives herself permission to feel free and wild, and how readers can do the same. Jungalow is the term coined by Justina for the brand that embodies her wild, but cozy and homey, style. Copycats abound, but there is no other book like this one—offering Justina's authentic, encouraging voice and approachable, signature style.

The New Bohemians Justina Blakeney, 2015-04-14 A New York Times bestseller. “With pages of tips and twelve DIY projects, the book makes the free-spirited style easy to achieve.”

—Architectural Digest In *The New Bohemians*, LA-based designer Justina Blakeney defines the New Bohemians as creative individuals who are boutique owners and bloggers, entrepreneurs and ex-pats, artists and urban farmers. They embrace free-spirited, no-rules lifestyles and apply that attitude to all areas of their existence, including their homes. With little distinction between work and play, the new boho home often includes an office, art gallery, showroom, photography studio, restaurant, or even a pop-up shop. *The New Bohemians* explores 20 homes located primarily on the East and West coasts. Exclusive interviews with the owners, 12 DIY projects created by Blakeney and inspired by objects found in the homes, and a “Plant-O-Pedia” offer insight into achieving this aesthetic. In addition, each home is accompanied by an Adopt-an-Idea section that offers general decor, styling, and shopping tips for easy duplication in your own home. “*The New Bohemians* is sure to inspire readers to create, to reuse, to grow, to let loose, and to invite some cool and collected energy into their own homes.” —California Home+Design “A colorful and endlessly inspiring cover-to-cover read . . . From the dreamy homes of twenty stylesetters across the country to easy

DIY projects, The New Bohemians is our new favorite coffee table book for home inspiration.” —One Kings Lane “Fans of Justina’s style will be glad to see [the book] reads like a how-to for finding one’s own inner bohemian . . . the book is as functional as it is gorgeous.” —Apartment Therapy

Technical Mathematics Paul A. Calter, Michael A.

Calter, 2011-03-22 This textbook has been in constant use since 1980, and this edition represents the first major revision of this text since the second edition. It was time to select, make hard choices of material, polish, refine, and fill in where needed. Much has been rewritten to be even cleaner and clearer, new features have been introduced, and some peripheral topics have been removed. The authors continue to provide real-world, technical applications that promote intuitive reader learning. Numerous fully worked examples and boxed and numbered formulas give students the essential practice they need to learn mathematics. Computer projects are given when appropriate, including BASIC, spreadsheets, computer algebra systems, and computer-assisted drafting. The graphing calculator has been fully integrated and calculator screens are given to introduce computations. Everything the technical student may need is included, with the emphasis always on clarity and practical applications.
