

Csi Sherlock

Stewart Ross

American Sherlock Kate Winkler Dawson, 2021-02-16 A gripping historical true crime narrative that reads like the best of Conan Doyle himself (Karen Abbott, author of *The Ghosts of Eden Park*), *American Sherlock* recounts the riveting true story of the birth of modern criminal investigation. Berkeley, California, 1933. In a lab filled with curiosities--beakers, microscopes, Bunsen burners, and hundreds upon hundreds of books--sat an investigator who would go on to crack at least two thousand cases in his forty-year career. Known as the American Sherlock Holmes, Edward Oscar Heinrich was one of America's greatest--and first--forensic scientists, with an uncanny knack for finding clues, establishing evidence, and deducing answers with a skill that seemed almost supernatural. Heinrich was one of the nation's first expert witnesses, working in a time when the turmoil of Prohibition led to sensationalized crime reporting and only a small, systematic study of evidence. However with his brilliance, and commanding presence in both the courtroom and at crime scenes, Heinrich spearheaded the invention of a myriad of new forensic tools that police still use today, including blood spatter analysis, ballistics, lie-detector tests, and the use of fingerprints as courtroom evidence. His work, though not without its serious--some would say fatal--flaws, changed the course of American criminal investigation. Based on years of research and thousands of never-before-published primary source materials, *American Sherlock* captures the life of the man who pioneered the science our legal system now relies upon--as well as the limits of those techniques and the very human experts who wield them.

More Secret Adventures of Sherlock Holmes Gary Lovisi, 2011-03 Two years ago Gary Lovisi came out with his first collection of unknown stories about Sherlock Holmes in *THE SECRET ADVENTURES OF SHERLOCK HOLMES*. Now, Gary adds three more tales to the canon with *The Notorious Crosby Murders*, *A Study in Evil* and *The American Adventure*. These reveal sides of the great detective you may not be familiar with, for instance, his obsession with blood spatter evidence almost a century before *Dexter* and *CSI* got in the act. And did you know that Holmes once visited the United States and solved a crime there? Join Gary Lovisi in his quest to regale us with ALL of the Sherlock Holmes stories -- even the ones Watson never knew about!

AMERICAN SHERLOCK KATE WINKLER. DAWSON, 2021

The Science of Sherlock Holmes E.J. Wagner, 2010-12-07 Praise for *The Science of Sherlock Holmes* Holmes is, first, a great detective, but he has also proven to be a great scientist, whether dabbling with poisons, tobacco ash, or tire marks. Wagner explores this fascinating aspect of his career by showing how his investigations were grounded in the cutting-edge science of his day, especially the emerging field of forensics.... Utterly compelling. --Otto Penzler, member of the Baker Street Irregulars and proprietor of *The Mysterious Bookshop* E. J. Wagner demonstrates that without the work of Sherlock Holmes and his contemporaries, the *CSI* teams would be twiddling their collective thumbs. Her accounts of Victorian crimes make Watson's tales pale! Highly recommended for students of the Master Detective. --Leslie S. Klinger, Editor, *The New Annotated Sherlock Holmes* In this thrilling book, E. J. Wagner has combined her considerable strengths in three disciplines to produce a work as compelling and blood-curdling as the best commercial fiction. This is *CSI* in foggy old London Town. Chilling, grim fun. --John Westermann, author of *Exit Wounds* and *Sweet Deal* I am recommending this delightful work to all of my fellow forensic scientists.... Bravo, Ms. Wagner! --John Houde, author of *Crime Lab: A Guide for Nonscientists* A fabulously interesting read. The book traces the birth of the forensic sciences to the ingenuity of Sherlock Holmes. A wonderful blend of history, mystery, and whodunit. --Andre Moenssens, Douglas Stripp Professor of Law Emeritus, University of Missouri at Kansas City, and coauthor of *Scientific Evidence in Civil and Criminal Cases*

The Science of Sherlock Holmes E. J. Wagner, 2007-04-20 Praise for *The*

The Secret Cases of Sherlock Holmes Donald Thomas, 2013-07-14 For more than two decades, Sherlock Holmes played a vital, though secret, role in solving the major crimes and scandals of his day – some too damaging to the monarchy, the government or the security of the nation to be fully revealed at the time. Compiled in narrative form by Dr Watson soon after the great detective's death, Holmes's notes have been kept under lock and key at the Public Record Office in Chancery Lane. Now, seventy years later, we can finally open the secret casebook of Sherlock Holmes. 'Seven stories about the greatest of all fiction detectives . . . all told by Dr Watson in a very credible imitation of the original style' Birmingham Post

Sherlock Holmes's Greatest Cases Arthur Conan Doyle, 2011-04-28 The greatest adventures of the greatest detective of them all The most famous of all fictional detectives in a selection of his most challenging cases, including the novel *THE HOUND OF THE BASKERVILLES*.

The Execution of Sherlock Holmes Donald Thomas, 2013-08-13 Suspenseful stories from “the all-time best at Sherlockian pastiche” (Ellery Queen's *Mystery Magazine*). Drugged, manacled, condemned to a dank cell in the depths of London's infamous Newgate prison, the world's greatest literary detective awaits execution by a vengeful crew of formidable enemies. Escape is impossible; death, a certainty. But not for Sherlock Holmes, who, in a stunning display of intellect and derring-do, will elude his hangman's noose and live to fiddle, spy, and ratiocinate another day.

The Criminal World of Sherlock Holmes – Volume One Kelvin Jones, 2022-02-14 Kelvin I. Jones has been writing about Sherlock Holmes for over 50 years, and studied the real-life crime, criminals and criminalistics of the late Victorians. Kelvin's forensic approach has already made a significant impact on the Holmes aficionado, previous titles including ‘*The Sherlock Holmes Murder Files*,’ etc. However, the first of this three volume magnum opus on Holmes and crime covers absolutely everything that the reader fresh to, or even more familiar with Holmes wants to know about the murder and mayhem of his age. And there is much more. We learn about the poisoners, the prostitutes, the garroters, the psychopaths and the abductors; in fact the whole panoply of the dangerous criminal underworld once lorded over by Moriarty. This exhaustive study, with its grim descriptions of the savage criminals of that age, is portrayed in graphic, uncompromising detail. What also emerges is a profile of the real Conan Doyle. Here is a profile of an author who knew more than is assumed about crime; and the book includes an

examination of the Ripper, plus Conan Doyle's theories on the murderer's identity. Profusely illustrated, with many rare illustrations from 19th Century documents. Overall, a stunning contribution to the literature about Holmes, by someone who David Marcum, the editor and author of Holmes pastiches, once described as 'a Master Sherlockian.'

The Criminal World of Sherlock Holmes - Volume Two Kelvin Jones, 2023-01-05 A shocking account of the savage world in which Sherlock Holmes operated. The crimes of The Ripper; Conan Doyle's knowledge of the killer's identity; the methods employed by criminals, and of their pursuers; the harrowing truth about Holmes' drug abuse, and of his gang of 'street arabs', the long-lost crime monographs by the Baker Street sleuth; and much more, this book tells the true story of Holmes' gas-lit and sinister criminal world. Victorian society was violent & exploitive..., footpads and garroters stalked the streets of the City...beggars were rife.. Kelvin is the author of many books about Holmes, the definitive biography of Doyle as a spiritualist & the 3 volume edition of the author's spiritualist writings. A distinguished life member of the Sherlock Holmes Society of London, he has published contemporary crime novels and poetry, and is a member of the Crime Writers' Association. The almost legendary Mr Jones...- Roger Johnson, commissioning ed. of *The Sherlock Holmes Journal*. Kelvin Jones takes the reader into Victorian England, walking side by side with the Great Detective..., an all-round, relentless researcher... - Mark Alberstaat, ed. of *Canadian Holmes*.

The Rivals of Sherlock Holmes Nick Rennison, 2008 Sherlock Holmes is the most famous fictional detective ever created. He and Dr Watson will forever be associated with the smog-filled streets of late 19th and early 20th century London. Yet the years between 1890 and 1914 were a golden age for English magazines, most of which published detective fiction. The Holmes stories spawned countless imitators. Sherlock Holmes did have his rivals and, as this collection of short stories shows, many of their adventures were as exciting and entertaining as those of the master himself.

There's A Murder Afoot Vicki Delany, 2020-01-07 Just in time for Sherlock Holmes's 166th birthday, the fifth installment in national bestselling author Vicki Delany's Sherlock Holmes Bookshop mystery takes Sherlockania to the max with a Holmes convention and historic 221 Baker Street. Gemma Doyle and her friends travel to London for a Sherlock Holmes convention--but will Gemma's father take the fall for a felonious forger's fatality? The 6th of January is Sherlock Holmes's birthday, and lucky for Gemma Doyle, January is also the slowest time of the year at both the Sherlock Holmes Bookshop and Emporium, and Mrs. Hudson's Tea Room. It's a good time for Gemma and her friends to travel to England for a Holmes Convention. For Gemma, the trip provides an opportunity to visit her parents, Jayne Wilson is excited about seeing all the sites London has to offer, and Ryan Ashburton just wants to spend some time with Gemma. But the trip is immediately derailed when Gemma's father Henry recognizes his brother-in-law Randolph Denhaugh, who disappeared more than thirty years ago on the night he stole a valuable painting from his own parents. Henry, a retired detective with Scotland Yard, has been keeping tabs on the man's career as a forger of Old Masters and he warns Randy to stay away from his family. It's up to Gemma, with the help of her friends, to plunge into the lowest and vilest alleys of London to save her father from prison.

SHERLOCK HOLMES vs. PROFESSOR MORIARTY - Complete Series (Illustrated) Arthur Conan Doyle, 2024-01-16 Professor James Moriarty is a criminal mastermind whom Holmes describes as the Napoleon of crime and considers him his archenemy. Moriarty is a crime lord who protects nearly all of the criminals of England in exchange for their obedience and a share in their profits. The Valley of Fear - Holmes gets led to Moriarty by his perception that many of the crimes he investigated were not isolated incidents, but instead the machinations of a vast and subtle criminal ring. One of Moriarty's agents sends cipher to Holmes, but doesn't give him the key.

Holmes manages to decipher the message and must prevent Moriarty's agents from committing a murder. The Final Problem - Holmes is on the verge of delivering a fatal blow to Moriarty's criminal ring, but is forced to flee to continental Europe to escape Moriarty's retribution. The criminal mastermind follows, and the pursuit ends on top of the Reichenbach Falls, where the two are involved in a deadly struggle. The Adventure of the Empty House - Watson bumps into a wizened old book collector, who follows him home to his Kensington practice study then drops his disguise - it is Holmes. Holmes tells him how he beat Moriarty and apologizes for the deception needed to outwit his enemies. Arthur Conan Doyle (1859-1930) was a British writer best known for his detective fiction featuring the character Sherlock Holmes. Doyle is also known for writing the fictional adventures of Professor Challenger and for propagating the mystery of the Mary Celeste. He was a prolific writer whose other works include fantasy and science fiction stories, plays, romances, poetry, non-fiction and historical novels.

The Criminal Mastermind of Baker Street Rob Nunn, 2017-09-19 What if Sherlock Holmes had turned to crime instead of detection? THE CRIMINAL MASTERMIND OF BAKER STREET by Rob Nunn investigates this very concept. Holmes famously said that "when a clever man turns his brains to crime it is the worst of all." A sinister influence is at work in Victorian London with Sherlock Holmes and Doctor Watson running a hidden criminal empire. THE CRIMINAL MASTERMIND OF BAKER STREET explores all of Sir Arthur Conan Doyle's original stories through the lens of Holmes as a criminal while adding many new exciting tales of Holmes' daring to delight its readers.

The Return of Sherlock Holmes Jakobowski, 2021-08

Sherlock Holmes and The Scarlet Thread of Murder Luke Benjamin Kuhns, 2015-10-05 Sir Arthur Conan Doyle's Sherlock Holmes and Doctor Watson feature in three brand new and exciting adventures that you won't want to miss. The Scarlet Thread of Murder: Three seemingly separate crimes, three detectives. A mysterious stalker is on the loose in London known only as the Goblin Man and his sights are set on a wealthy businessman, David Daniels. A horrific explosion rips through Whitechapel Underground Station and the prime suspect is a Jewish anarchist. And a Mrs Clara Edwards is searching for her missing lover, Philias Jackson. What connects these three? It's a dangerous and complex game that links Sherlock Holmes, Investigator Martin Hewitt, and former Ripper investigator and head of H Division Edmund Reid. A Scandal in America: In 1888 Mr Sherlock Holmes was beat by Irene Adler aka the Woman. After her marriage to Godfrey Norton she left London. Two years later her husband is found dead in his New York office, apparently having committed suicide. Irene Adler believes it to be staged, unable to accept Norton capable of such an end. There is one person, if any, who she can turn to: Sherlock Holmes. Holmes and Watson are headed to America where they must dive into the mysterious life of Godfrey Norton to learn how and why he died. No one is ready for what they learn. The Allegro Mystery: Someone lurks in the shadows and is sending mysterious and haunting letters to the beautiful ballerina, Mademoiselle Dipin. Believing her life to be endangered by a ghost from her past, she bursts into the study of 221b to plead with Sherlock Holmes for aid. Can Sherlock Holmes and Doctor Watson find and expose her ghost before something terrible happens to their client? The game is afoot.

Sherlock Holmes And The Autumn Of Terror Randy Williams, 2016-10-31 Would Sherlock Holmes be able to catch Jack the Ripper? Everyone knows the name of Sherlock Holmes -- the fictional detective created by Arthur Conan Doyle with his superhuman powers of observation and unbeatable methodology for solving crimes. But could his 1800's philosophy really work in the modern world to solve genuine crimes? That's the very question that a real-life US-based private detective asked himself before embarking on the adventure of a lifetime by stepping into Holmes' shoes and using his mindset to solve real crimes. So effective was this method that he decided to turn his attention to the greatest set of crimes known in history -- the brutal murders perpetrated

by the criminal who came to be known as Jack the Ripper. The author, along with a team of three of the world's top forensic scientists and criminologists, Dr. Michael M. Baden, Dr. Cyril H. Wecht and Dr. Henry C. Lee, have convincingly solved the infamous Jack the Ripper murders of 1888 London - arguably the world's most talked-about unsolved murder mystery. But their true-life resolution of the case is presented here in the form of a Sherlock Holmes novel, painstakingly penned faithfully in the style of Sir Arthur Conan Doyle. In it, the author - who actually used Holmes' methods to uncover the killers' identity - explains exactly how the crimes were committed and by whom, all in the form of a fast-paced thriller featuring the world's most beloved detective along with Dr. Watson, from whose point-of-view most of the tale is told. Once the reader has finally been clued in on the final solution, the murders are then revisited from the killers' perspective. The story opens in the year 2017 with the sealed box of Holmes' most controversial cases being opened by Watson's great grandson Jacob, and among those cases is that of London's Ripper murders that took place in what was then and has forever after been known as the "Autumn of Terror." Jacob is shocked to learn the true story, as well as the reasons Holmes deemed the case's explosive resolution too shocking and incendiary to have been revealed to the public in Victorian England and so to be sealed "entombed in a tin box" for 125 years, as were a number of other cases that are mentioned in some of Doyle's Holmes stories. Along the way, the actual facts of the case and the evidence that led Randy and his team to the real killer will be revealed to the reader through Holmes' investigative methods.

Sherlock Holmes For Dummies Steven Doyle, David A. Crowder, 2010-03-22 Get a comprehensive guide to this important literary figure and his author. A classic literary character, Sherlock Holmes has fascinated readers for decades -- from his repartee with Dr. Watson and his unparalleled powers of deduction to the settings, themes, and villains of the stories. The Science of Sherlock Holmes Stewart Ross, 2020-05-14 Lively and immensely readable, The Science of Sherlock Holmes looks at the advancements in crime-solving and general science from late Victorian times to the modern day. Over the course of the nineteenth century, the reading public acquired a taste for the new genre of detective fiction. At the same time, science was transforming every aspect of human life. Arthur Conan Doyle, a young doctor and up-and-coming writer, brilliantly wove these two strands together to create detective fiction's most memorable and enduring character: Sherlock Holmes. Detailed yet eminently readable, The Science of Sherlock Holmes looks at contemporary scientific achievement at the time of writing and how these were employed in the Sherlock stories. The book looks at Holmes' deductive logic and his skills in specific areas: codes, prints, writing, disguise, guns etc. and how these are still used today in the world of criminology. Learn about Holmes's brilliant forensic reasoning and his skills in areas such as prints and marks, handwriting, disguise and weaponry. Discover his

encyclopaedic scientific knowledge over an immense field, from botany and poisons to physics and ballistics. See, too, how many of the techniques pioneered by Holmes are still relevant in modern criminal investigation.

The Murder Room Mike Capuzzo, Michael Capuzzo, 2010 Documents the efforts of the Vidocq Society, an elite trio of gifted investigators, to solve such notorious cold cases as those of JonBenet Ramsey, the Butcher of Cleveland and Jack the Ripper, in a vivid account that details their work with the world's top forensic specialists. (true crime).
