A Venomous Life Struan K. Sutherland,1998 Professor Sutherland was one of Australia's most brilliant and controversial scientists. Well-known for his work on animal toxins, his legacy includes the Snake Venom Detection Kit, and Sydneysiders will always be grateful for his discovery of the Funnelweb spider antivenom, which has saved many lives. This is a witty account of a complex life, covering his time at the Commonwealth Serum Laboratories, his battle to continue important research into our animal toxins, and his successful foundation of the Australian Venom Research Unit at the University of Melbourne. The story of his career is also a story about the workings and politics of bureaucracies and the research establishment in Australia. An intriguing read.

Handbook of Artificial Intelligence for Music Eduardo Reck Miranda,2021-07-02 This book presents comprehensive coverage of the latest advances in research into enabling machines to listen to and compose new music. It includes chapters introducing what we know about human musical intelligence and on how this knowledge can be simulated with AI. The development of interactive musical robots and emerging new approaches to AI-based musical creativity are also introduced, including brain-computer music interfaces, bio-processors and quantum computing. Artificial Intelligence (AI) technology permeates the music industry, from management systems for recording studios to recommendation systems for online commercialization of music through the Internet. Yet whereas AI for online music distribution is well advanced, this book focuses on a largely unexplored application: AI for creating the actual musical content.
