Sustainable Supply Chain Management Minh Trang Rausch-Phan, Patrick Siegfried, 2022-01-29 This book presents the current causes and effects of implementing sustainable supply chain management (SSCM) as well as green supply chain management (GSCM) strategies in the automotive industry. The reader is provided a detailed scientific review on SSCM and GSCM and presented the advantages of sustainable development concepts as well as factors causing the implementation of SSCM such as buyers' behavior, governmental regulations, and competitiveness. The book then analyses the current situation of SSCM development, particularly in the automotive industry. It shows challenges, barriers, successes, and benefits that automotive companies obtain from implementing GSCM. Through case studies on leading German car manufacturers VW, BMW, and Daimler, the necessary activities of these companies to implement green development in the entire supply chain, including green supplier selection, green materials, green transportation, and reverse logistics, are defined. Moreover, a benchmark with companies from Asian markets such as Toyota from Japan and Geely from China is performed.

Naturalism in American Fiction John J. Conder, 2021-03-17 In this closely reasoned study, John J. Conder has created a new and more vital understanding of naturalism in American literature. Moving from the Hobbesian dilemma between causation and free will down through Bergson's concept of dual selves, Conder defines a view of determinism so rich in possibilities that it can serve as the inspiration of literary works of astonishing variety and unite them in a single, though developing, naturalistic tradition in American letters. At the heart of this book, beyond its philosophic discussion, is Conder's reading of key works in the naturalistic canon, beginning with Stephen Crane's *The Open Boat* and *The Blue Hotel*. The special character of determinism in Crane is, Conder holds, the source of his complexity and striking originality. He finds a stricter determinism in Norris's *McTeague*. In Dreiser, however, the naturalistic tradition develops toward a fusion of determinism and freedom in a single work, and this fusion in a different guise operates in Dos Passos's view of self in *Manhattan Transfer*. With Steinbeck's *The Grapes of Wrath* the uniting of determinism and freedom finds its fullest realization in the concept of dual selves, one determined, one free. In Faulkner's *The Sound and the Fury* and *Absalom, Absalom!* the concept of the dual self appears in its most complex form. The developments in the work of Steinbeck and Faulkner, Conder believes, bring the classic phase of American literary naturalism to a close. *Naturalism in American Fiction* illuminates a group of major literary works and revives a theoretic consideration of naturalism. It thus makes a fundamental contribution to American studies.

The Djinns of Eidgah Abhishek Majumdar, 2013-10-10 Ashrafi and Bilal are orphaned siblings stranded and defined by the troubles in Kashmir. 18 year old Bilal is the pride of the region, part of a teenage football team set for great heights, and pushed to the limits by the violence around them. Haunted by hope, his sister is caught in the past, and Bilal is torn between escaping the myths of war and the cycles of resistance. Interweaving true stories and testimonies with Islamic storytelling, the play paints a magical portrait of a generation of radicalised kids, and a beautiful landscape lost to conflict.
