Instant Self-Hypnosis Forbes Robbins Blair,2004-03-01 Hypnosis is a proven technique that allows people to reprogram their subconscious to change unwanted behaviors. Most books on self-hypnosis require the reader to memorize or record scripts, then put the book aside while they do their hypnosis work. But Instant Self-Hypnosis is the only self-hypnosis book that allows you to hypnotize yourself as you read, with your eyes wide open, without putting down the book. Barboza's Book of Hypnotic Inductions John Barboza,2020-12-08 Barboza's Book of Hypnotic Inductions is filled with creative inductions easy enough for a novice hypnotist to master and clever enough for seasoned hypnotists to ponder at. The inductions presented within the pages are understandable and translatable enough to easily put into action. John thought that the style of the vintage book cover illustration taken directly from the classic comic book ads from the 50's to the 80's would be fitting enough to complement the imaginative instant and rapid inductions he has assembled. The inductions vary enough so that some can be used in the office setting and others during presentations, street and stage performances and demonstrations. This book is for anyone who is interested in learning about hypnosis and others who have a basic grasp of the concept of hypnotic inductions. It is for the hypnotist who has an interest in learning new induction techniques and it's for the seasoned hypnotists who aren't comfortable doing instant and rapid inductions but would like to become more proficient in using them.

The Hypnotist Magician Reese Kern,2015-05-08 When I opened my first hypnosis office I was in my early 20s. I was fresh out of hypnosis trade school, and excited, but more nervous, and you get the point. Anyway, I will never forget my first client. She was a little girl, very nervous, and her parents seemed very at odds with taking their young daughter to see some hypnotist to help her with a problem she'd been having. They had been referred by a mutual acquaintance, but not one I knew very well. I have to tell you I wasn't prepared for a child client. I instantly and intuitively knew that the techniques I'd been taught weren't going to work with this young girl. Getting her to imagine walking down a peaceful path with beautiful sunrays beaming down on her wasn't going to cut it. In highschool I had taken up magic. After graduation I became so mastered in magic that I actually began performing street shows and small venues on the weekends. I actually earned a nice sum of money, which later went to my hypnosis training, but that's another story in itself. The young girl laid down in my comfortable hypnosis chair, her mother sat in one back corner of my office, her father the other, and the look her father gave me caused sweat beads to deposit on my forehead. It was a small office anyhow and the four bodies didn't help my comfort level. I needed help, but there was none. I couldn't screw this up or else my reputation in this small town would be ruined forever. It was one of those small towns where everybody knew everybody and they talked. Did they ever talk! I decided to do something totally radical. I decided to hypnotize her with a magic trick I figured I could use to hold her attention. When I mentioned a magic trick the little girl's face came alive and her nervousness left instantly. Mind followed. I was comfortable with magic. I had performed in front of live audiences and it was...well...what I did. I took the principles of hypnosis and applied it to the magic trick. I very much so wanted to help the little girl, so I prefaced to her that the hypnosis would come during the magic trick. I gained her confidence in me and thus gained greater confidence in my ability to help her. Something happened. I became a natural hypnotist, forgetting my lack of experience, everything I had thought about myself up to that point, and something inside of me snapped and I became first class instantly. The little girl became hypnotized and entered a deep hypnotic trance and I was able to give her suggestions and they worked. Her life changed after that, and the respect I received from her parents turned into hundreds (if not thousands) of referrals over the years I was in private practice. I have found one of the easiest ways to hypnotize anyone is through the application of magic tricks. In this book I will explain seven magic tricks to you that work well. I'll give you everything you need to know to apply them, including why you should use each one, what you must know upfront, how to do the trick, other applications, frequently asked questions students of mine have asked regarding each trick, and some action keys to help you proactively take charge and use the trick to discover how easy applying magic can be. Many people over the years have asked me, Why magic tricks? You'll love it! You'll use it! Grab your copy now!

Mind Control Hypnosis Dantalion Jones,2014-07-10 As a rule I no longer give hypnotic suggestions to my clients.The result is that hypnosis works every time ... for every client I have. This second edition of Mind Control Hypnosis invites anyone interested in hypnosis to consider how, as a hypnotist, making a few seemingly small changes can give you unbelievable results. Here are few gems that you'll learn from readingMind Control Hypnosis: * You'll learn how to increase your effectiveness as a hypnotist by never giving a hypnotic suggestion. * What YOU believe as a hypnotist has a direct result on your effectiveness. You'll learn some central beliefs held by the best hypnotists alive. * You'll learn how to create hallucinations in people ... in and out of hypnosis. * You'll learn how to program your clients mind to say Yes automatically to ALL your instructions. This make hypnosis easy for you and effective for them! * You'll learn why direct hypnosis (as opposed to permissive or Ericksonian hypnosis) is the most direct and fastest way to get results. * You'll learn why most hypnotist don't tell the truth when they claim You can't be hypnotized to do something against your will! The truth is OF COURSE YOU CAN ... it's just not always a good idea. Most hypnotists will tell you You can't be made to do something in hypnosis that is against your Will. Most of them actually believe it. But a few of the most experienced hypnotists simply say it to put people at ease. They know that, in the right hands, very few people can resist a skilled hypnotist. Skilled hypnotists know what it takes to resist suggestions and it's not what most people would think. There are two reasons hypnotists continue to hold so tightly to this information about the human Will? Reason #1 - Because they don't want others to have the power they have. In spite of what they may want you to believe hypnotists are human beings. They have egos and ambitions just like everyone else. lot of hypnotists discover something that works really well and they'll want to keep it to themselves. I'm no different. I sat on this for over a year before I decide to put it to print. Reason #2 - Because it frightens away clients who believe they have some sort of Will Power. The belief that we have control over our lives is one of our central needs that help us feel secure. But the fact is most people have very little real Will Power. For most people real Will Power is a myth, a story, even a fantasy. Facing this truth, for most people,is a humbling experience. The secret of the human Will is that it's much easier to overcome than anyone has ever thought. The good news is that these secrets can help hypnotists and their clients to improve. Hypnotists become more effective and more compassionate and their clients discover exactly what they can do to the get most from any hypnosis session. The book Mind Control Hypnosis describes how skilled hypnotists bypass the human Will and get people to do things that seem out-of-the-ordinary. Thankfully, most of these hypnotists are good and decent people who use this knowledge to help people improve their lives.

Conversational Hypnosis Bryan Westra,2015-04-27 Think about how important the simple everyday conversations in your life have been. Think about a time when a simple conversation encouraged you to alter your course in life, or allowed you to dissolve a long running feud. Think about dialogues that have helped you make important life decisions and conversations that have cemented friendships. Invariably, we all have been privy to such conversations, because a large part of our lives, if you were to really consider it, are simply snippets of interactions and conversations. Now you will agree with me when I say that a conversation can hold the power to change your mind, your life, your relationships and your personality. Imagine then the power that a conversation, carefully designed to do specifically this, can then hold ? With this book, we are going to reveal to you the secrets and mysteries of conversational hypnosis. This is often also termed as covert hypnosis, because unlike the traditional hypnotic techniques in which the hypnotist puts her audience to sleep first, this technique is one that is often used untraceable. Meaning, the person you are using the hypnotic techniques on will have no idea that he/she is being hypnotized. Founded by one of the greatest psychologists of all times, Milton H. Erickson, conversational hypnosis is one of the most brilliant forms of hypnosis known to humankind. It also requires incredible skill and practice, and a clear understanding of the techniques of hypnosis and the workings of the mind. This book teaches you all this, plus more. By the end of this book you will be able to hypnotize anyone by just having a normal conversation with them. You'll learn secret secrets that even some of the best hypnotists haven't learnt yet. This is a book you'll want in your personal library, because you'll turn to it time and time again for refreshing and polishing your conversational hypnosis skills. Much time and effort has been taken so as to ensure you learn properly, methodically, and hypnotically. You are going to love this book! Grab your copy now!

Hypnosis Leonard Moore,2021-01-10 Imagine if you could direct other people's decisions. Imagine if you could influence people's subconscious minds and make them do what you want. Imagine if you could learn how to discover and take advantage of the hypnotic reflexes we all have.

Everything you're about to read is completely possible. Maybe you're not going to believe me. If this is the case, I feel sorry for you. So many people are already using hypnosis to direct other people's decisions and thinkings, maybe even yours. The truth is, once you find a way to reach the subconscious you can easily direct the brain's decisions. As human beings we don't think like computers. Because of that we can be influenced easily. Hypnosis is just a way to take advantage of a pre-existing weakness. I have already used three hypnotic practices to keep you reading, but you probably didn't notice. Imagine how powerful you can become by using the power of hypnosis and mind control in your own life. Hypnosis is not some sort of magical fluff, it's a powerful, century-old psychological practice.
