Animal behaviorist Claire Arrowsmith explains how mental challenges help to build a strong bond between a dog and its owner and prevent future behavioral problems. Playing games that use reward-based teaching methods provides motivation and establishes trust. The book opens with a review of equipment and the essential obedience commands -- Puppy Sit, Puppy Down and Puppy Come -- as well as information on dog senses, using treats, addressing problems and responding to mistakes, safety, and much more. It covers equipment and using a clicker and addresses such issues as When Can A Puppy Begin To Play?, How To Encourage Play

Behavior, Problems During Brain Games, and Play No-No's! While some games provide more exercise than others, all of the games are brain games in that they challenge the puppy's ability to anticipate, solve problems and learn that by obeying commands it can continue to interact, play and have fun. The brain games are organized by location and type: Home Games include Puppy Sensory Play and Fun in the Play Pen Active Games include Spin Spin and Buried Treasure Search Games include Find It and Where's Your Leash? Party Games include Take a Bow and Can I See Your Belly? Outdoor Games include In and Out and Round About and Football Fanatic.
