Invitations from Afar Linda A.W. King,2012-06-11 After fulfilling every objective of a top secret mission to Jupiters Ganymede and now only days from home, four NASA astronauts learn from their computer systems analyst in Houston through an unauthorized channel that a bomb may be on a rendezvous course with their ship, the Copernicus. Mission Specialist Jana Novacek, the youngest astronaut ever, who has been chosen for mysterious reasons, suggests breaking security, announcing their existence to everyone over the net, and asking for help. Someone might be willing to help who unknowingly is involved in the plot against them. Cocommander Fawzshen, Prince of Rhatania, further recommends revealing their amazing discovery. Commander Jackson Medwin thinks that Janas journal is ideal for that purpose. Jana is distressed and feels her personal journal is not suitable. Commander Medwin will do anything to save his crew, this mission, and their discovery, but he decides neither to take evasive actions nor break security until they have proof that something is on a collision course with their ship. He considers a deactivated meteoroid detection program uploaded to them from Houston as insufficient proof.

The second part of the volume, on Verbal and Nonverbal Communication Signals, presents 20 original studies devoted to the modeling of timing synchronisation between speech production, gestures, facial and head movements in human communicative expressions and on their mutual contribution for an effective communication.

From Digital Natives to Digital Wisdom Marc R. Prensky,2012-01-10 An expert perspective on 21st century education What can you learn on a cell phone? Almost anything! How does that concept fit with our traditional system of education? It doesn't. Best-selling author and futurist Marc Prensky's book of essays challenges educators to "reboot" and make the changes necessary to prepare students for 21st century careers and living. His "bottom-up" vision includes students' ideas about what they need from teachers, schools, and education. Also featured are easy-to-do, high-impact classroom strategies that help students acquire "digital wisdom." This thought-provoking text is organized into two sections that address: Rethinking education (including what and how we teach and measuring learning) 21st century learning and technology in the classroom (including games, YouTube, and more)

Early Childhood Education [4 volumes] Moncrieff Cochran,Rebecca S. New,2007-01-30 Early childhood education has reached a level of unprecedented national and international focus. Parents, policy makers, and politicians have opinions as well as new questions about what, how, when, and where young children should learn. Teachers and program administrators now find curriculum discussions linked to dramatic new understandings about children's early learning and brain development. Early childhood education is also a major topic of concern internationally, as social policy analysts point to its role in a nation's future economic outlook. As a groundbreaking contribution to its field, this four-volume handbook discusses key historical and contemporary issues, research, theoretical perspectives, national policies, and practices.

The Spy and I Tiana Smith,2024-02-13 Right place. Wrong person. After a case of mistaken identity, one woman must work with her sister's sexy spy partner to save the world in this heart-pounding romantic comedy. The first thing to know about Dove Barkley is that, even though she works as a cyber security analyst, she is one hundred percent not an undercover CIA operative. But when a group of bad guys mistake her for her super-spy sister (news to her!), Dove gets roped into a dangerous government mission that she'd very much rather be left out of, thank you. Too bad Mendez, the man who claims to be her sister's partner, says she's in too deep to back out now. He's smart, capable, and has a body almost distracting enough to make Dove forget about the team of trained assassins after her. Dove has information that can help prevent a national tragedy, but there's mounting evidence that Mendez might not be who he claims. More importantly, she's running out of time to save

her sister. Because the last thing Dove wants is for either of them to go out with a bang.
