Design School: After Boundaries and Disciplines Paul A. Rodgers, Craig Bremner, 2019-07-15 By examining the contemporary situation of the Design School from a global perspective, this book explores how the structure of design learning and teaching, research and practice, is being transformed by a number of internal, external, and contextual factors and the implications of these factors for future iterations of the Design School. Exploring contemporary design education, this book asks whether Design Schools are shaping a new type of designer, or if tomorrow's designers will emerge from other professions such as business, health care, education, and computing, where design 'thinking' is now regularly applied. The book is proposed at a time when governments and markets across the world are reshaping education. In a time of rapid and intensive change, it looks internationally at the shape of the Design School of the future. The book has been developed from a series of summits that explored the

future of the contemporary Design School informed by international perspectives from high level invited speakers from design education, culture and industry who were asked: * How can a Design School in the age of the Anthropocene best prepare future designers for this complex world? * How can the Design School maximize the potential opportunities suggested by this future, uncertain world at a time of rapid and intensive change? * Having changed the planet how should the Design School react to the planet changing us? The three summits reflect three significant turns in the contemporary Design School. The first focused on the current issues surrounding the Design School from the academic perspective. The second summit examined the increasingly intensive relationship between industry and Design Schools. The third summit focused on the increasingly close relationship between the Design School and the Cultural Sector. The book includes essays from the expanding landscape of the Design School, including educational providers, the design museum sector, the international design festival circuit and influential practitioners engaged in design education. The essays in this book provide a valuable, comprehensive examination of the future of the Design School and render a unique forecast of its probable trajectory.

Human-Centered Communication Ethan Beute, Stephen Pacinelli, 2021-10-12 Wall Street Journal Bestseller DIGITAL POLLUTION IS THE PROBLEM. HUMAN-CENTERED COMMUNICATION IS THE SOLUTION. We're spending more time than ever in virtual environments. That will only increase, as will the amount of noise we encounter there. The seemingly endless series of unwelcome digital distractions range from frustrating to dangerous. As individuals and businesses, we not only spend time and energy managing this digital pollution, we often create it. At risk are relationships and revenue. The only viable way forward is to be more thoughtful, intentional, and personal. Human-Centered Communication provides a philosophy and practice to help you connect in more meaningful and effective ways with prospects, customers, team members, and every stakeholder in your success. Learn to: Break through the noise and earn attention Build trust and create engagement Enhance your reputation with both people and algorithms The concepts and models in this book apply to any form or channel of communication, but human centrality favors video. More visual and emotional than faceless digital communication, video enhances tone, intent, subtlety, nuance, and meaning. Learn to be clearer and more confident on camera in live video calls, meetings, and presentations, as well as in recorded video emails, social messages, and text messages. The authors of the bestselling *Rehumanize Your Business* join with eleven industry-leading experts from companies like Salesforce, HubSpot, and RE/MAX to lead the growing conversation on leveraging human strengths in an increasingly digital world. The brightest future is tech-enabled, but authors Ethan Beute and Stephen Pacinelli show that it's also human-centered. The experts studied, interviewed, and featured: Jacco van der Kooij, Founder of Winning by Design Dan Hill, PhD, President of Sensory Logic Mathew Sweezey, Director of Market Strategy at Salesforce Julie Hansen, Creator of the Selling on Video Master Class Adam Contos, CEO of RE/MAX Lauren Bailey, Founder and President of Factor 8 and #GirlsClub Mario Martinez Jr, Founder and CEO of Vengreso Viveka von Rosen, Cofounder and Chief Visibility Officer at Vengreso Shep Hyken, Customer Service and Customer Experience Expert Morgan J Ingram, Director of Sales Execution at JB Sales Training Dan Tyre, sales executive and founding team member at HubSpot

Among the themes addressed: Trust and relationships Communication and connection Service and value Text and video Noise and pollution Among the types of videos in which you'll become more confident and effective: Live, synchronous video meetings Recorded, asynchronous video messages Video calls and video presentations Video in emails and text messages Video in social feeds and social messages Video for specific individuals and large groups Video for known audiences and anonymous masses Video for prospects, customers, employees, and other stakeholders For immediate benefits and for long-term reputation, now is the time to get ahead of and stay ahead of ever-increasing digital noise and pollution - with Human-Centered Communication.

Selling Through Tough Times: Grow Your Profits and Mental Resilience Through any Downturn Paul Reilly, 2021-09-28 An indispensable guide to thriving in a challenging sales environment As a sales professional, you know that it's harder to sell in tough times—whether it's a recession, industry-wide challenge, or global pandemic. You may also have noticed that some salespeople and managers not only survive, but thrive through tough times. How do they do it? What do they do to thrive through adversity? Paul Reilly explains it all in *Selling Through Tough Times*: Customers buy differently in tough times, so salespeople need to sell differently in tough times. In this eye-opening and indispensable guide, he shows how to develop the right mindset and adapt your skills to prevail in even the most challenging selling climate. His plan includes both immediate, hands-on action plans (including six Daily Mental Flex activities) as well as longer-range strategies to ensure you (and your team) never get caught on the back foot again. While the principals of selling are constant, Reilly demonstrates how changing your tactics in tough times will not only help you through current difficulties, but help you emerge stronger. You'll discover how to redefine value in customer terms, reposition products and services, and how to employ different persuasion tactics. You'll also learn how to select and pursue the right opportunities, win more deals, and—crucially—protect profit by embracing the “tough timers” mental attitude. Tough times are inevitable and often unpredictable. But in *Selling Through Tough Times*, you'll find the tools and mindset you need to power through them—and come out on top.
