Tokyo Underworld Robert Whiting,2010-09-29 A riveting account of the role of Americans in the evolution of the Tokyo underworld in the years since 1945. In the ashes of postwar Japan lay a gold mine for certain opportunistic, expatriate Americans. Addicted to the volatile energy of Tokyo's freewheeling underworld, they formed ever-shifting but ever-profitable alliances with warring Japanese and Korean gangsters. At the center of this world was Nick Zappetti, an ex-marine from New York City who arrived in Tokyo in 1945, and whose restaurant soon became the rage throughout the city and the chief watering hole for celebrities, diplomats, sports figures, and mobsters. Tokyo Underworld chronicles the half-century rise and fall of the fortunes of Zappetti and his comrades, drawing parallels to the great shift of wealth from America to Japan in the late 1980s and the changes in Japanese society and U.S.-Japan relations that resulted. In doing so, Whiting exposes Japan's extraordinary underground empire: a web of powerful alliances among crime bosses, corporate chairmen, leading politicians, and public figures. It is an amazing story told with a galvanizing blend of history and reportage.

**Routledge Handbook of Media Geographies** Paul C Adams,Barney Warf,2021-10-27 This Handbook offers a comprehensive overview of media geography, focusing on a range of different media viewed through the lenses of human geography and media theory. It addresses the spatial practices and processes associated with both old and new media, considering media not just as technologies and infrastructures, but also as networks, systems and assemblages of things that come together to enable communication in the real world. With contributions from academics specializing in geography and media studies, the Routledge Handbook of Media Geographies summarizes the recent developments in the field and explores key questions and challenges affecting various groups, such as women, minorities, and persons with visual impairment. It considers geographical aspects of disruptive media uses such as hacking, fake news, and racism. Written in an approachable style, chapters consider geographies of users, norms, rules, laws, values, attitudes, routines, customs, markets, and power relations. They shed light on how mobile media make users vulnerable to tracking and surveillance but also facilitate innovative forms of mobility, space perception and placemaking. Structured in four distinct sections centered around control and access to digital media, mass media, mobile media and surveillance and media and the politics of knowledge, the Handbook explores digital divides and other manifestations of the uneven geographies of power. It also includes an overview of the alternative social media universe created by the Chinese government. Media geography is a burgeoning field of study that lies at the intersections of various social sciences, including human geography, political science, sociology, anthropology, communication/media studies, urban studies, and women and gender studies. Academics and students across these fields will greatly benefit from this Handbook.

**Transforming Education in the Gulf Region** Khalid Alshahrani, Mohamed Ally, 2016-07-01 Countries in the Arab Gulf are currently experiencing some of the fastest rates of growth and progress in the world. Transforming Education in the Gulf Region argues that education systems in these countries need to use innovative pedagogies and best practices in teaching and learning to educate all citizens so that they obtain the knowledge and skills to be productive members of society. This book will contribute to the transformation of education in the Gulf countries by suggesting best practices, research outcomes and case studies from experts in the Gulf region. It has become increasingly evident in recent years that Gulf countries need to use emerging learning technologies to cater for the needs of learners and to provide maximum flexibility in learning. There is also a growing practical need to use electronic technologies, since learning materials are more widely available in electronic formats than in paper-based formats. This book focuses on the role of emerging technologies and innovative pedagogies in transforming education in six Gulf countries in the region (Saudi Arabia, United Arab Emirates, Kuwait, Qatar, Oman and Bahrain). With contributions from experts around the world, the book argues that the time is right for Arab Gulf countries to make the transition to electronic learning and that they need to implement the outcomes of research and adopt best practices to transform and revolutionize education to prepare learners in the Gulf region for the 21st Century. The book should be of interest to academics and students in the areas of higher education, learning technologies, education policy and education reform. It should also be of interest to educators and policymakers in the Gulf region.

Independent Filmmaking and Digital Convergence Vladan Nikolic, 2016-12-01 Independent Filmmaking and Digital Convergence: Transmedia and Beyond offers a comprehensive analysis of the

technological changes of the past few decades in independent film and media-making, and explores new strategies and practices in media production, exhibition and distribution for independent producers and content creators. The book examines how independent filmmaking concepts have merged with digital and online technologies to create new hybrid multi-platform content creations. It explores key questions like how to reach an audience at a time when media conglomerates and their products dominate the market, and simultaneously, there is an overabundance of content competing for viewer time. The book investigates what kind of stories we tell and why; how the audience has changed, and what their expectations are; what the various niche markets are for independent producers and creators in new media; and new models for media financing and distribution. The content found in this book: Bridges the gap between professional media-makers and amateurs by focusing on new and emerging media models and practices. Provides a holistic view of the new media landscape, and practical advice on producing content in the new multi-platform media environment. Demonstrates how to create financially sustainable models for independent producers and creators in a shifting and unstable environment, providing many challenges, but also opportunities for independents. The author's website (<http://www.filmconvergence.com/>) supports this book with case studies, news and updates.

**The Technology, Business, and Economics of Streaming Video** Eli Noam, 2021-01-29 Along with its interrelated companion volume, *The Content, Impact, and Regulation of Streaming Video*, this book covers the next generation of TV—streaming online video, with details about its present and a broad perspective on the future. It reviews the new technical elements that are emerging, both in hardware and software, their long-term trend, and the implications. It discusses the emerging ‘media cloud’ of video and infrastructure platforms, and the organizational form of such TV.

*Fashionable Masculinities* Vicki Karaminas, Adam Geczy, Pamela Church Gibson, 2022-07-15 *Fashionable Masculinities* explores the expression of masculinities through constructions of fashion, identity, style and appearance as the third decade of the new millennium begins: a contradictory and precarious moment when masculinities are defined by protests and pandemics whilst being problematized across class, ethnicity, race, gender and sexuality. Whilst a majority of men might still define themselves as ‘traditional,’ post-millennials are now talking about how they envision a future without gender boundaries and borders. Rather than being defined as a gender, masculinity has now become a style that can be worn and performed as traditional and normative codes of masculinity are modulated and manipulated. This volume includes original essays on musical pop sensation Harry Styles, rapper and producer “Puff Daddy” Sean Combs, lumbersexuals, spornosexuals, sexy daddies, and aging cool black daddies. Bringing together contributions from leading scholars, this book interrogates and challenges the meaning of masculinities and the ways that they are experienced and lived.
