Tweaked Patrick Moore, 2006-06-01 There are moments when I suddenly realize that I'm a nice boy from Iowa who is entirely comfortable sitting in a room of freaks. So begins Patrick Moore's unforgettable account of life as a crystal meth addict—a tweaker. Like a wild ride down Alice's rabbit hole with a guide who is darkly funny and heartbreakingly honest, *Tweaked* chronicles a twenty-year trip that stretches from Moore's lonely childhood in Iowa with his grandmother, Zelma—an alcoholic artist who, when loaded, turns frozen food into crafts projects—to the day he sits, naked, in a Los Angeles rental, hallucinating about psycho-robbers while talking to a possum he's sure is God. Along the way, there are acid trips at the V.F.W., Dexetrim study halls with his Bad Girl Posse in the seventies, teeth-grinding nights of dancing and anonymous sex in New York City's hottest eighties clubs, taking pictures of Andy Warhol, losing friends and lovers, and navigating a Byzantine underworld of cooks, users, club kids, dealers, and colorful characters as intense as the drug itself. There is Lee, the glamorous, outré bad boy with a devastating wit and a taste for danger; Tony, the tweaker who likes to remove his eyebrows; Ding-Dong, the Depends-wearing, nearly blind housemate; Hisako, the artist and squatter with an impenetrable Japanese accent and a fondness for hot plate cooking; Mother Judy, the tough, butch rehab counselor who takes no prisoners, and countless others on the road from crystal meth hell to eventual sobriety. Candid, gripping, and ultimately triumphant, *Tweaked* is that rarest of memoirs—a tale so vivid and personal in the telling it feels like fiction, but every word is true.

Lesson Planning Tweaks for Teachers Melanie Aberson, Debbie Light, 2015-06-18 Lesson planning is a requirement of every teacher. Whether you are planning your day-to-day lessons or a formal observation, planning is a skill that can be refined and improved to ensure your workload is manageable and your lessons exceptional. Aimed at committed and reflective teachers who want to develop their practice, this book introduces *Tweaks for Teachers*: small changes that make a big difference! It encourages you to review your current lesson planning practice and develop lessons that enable students to make outstanding learning gains. The book focuses on making practical, small changes that, over time, can make a real difference to the quality of learning and teaching in the classroom. Organised around real lesson snippets and full lesson plans covering every secondary subject, the book focuses on the key areas you need to plan for every lesson: assessment for learning, questioning, stretch and challenge and commitment to learning, as well as covering the importance of developing a good marking practice. Real examples of successful lessons are provided as well as a commentary of missed opportunities and practical 'tweaks' that could be made to improve students' learning and to develop outstanding teaching. This format means that the book is not only useful to those teachers wanting to develop their practice, but it is also a really useful training tool for those with responsibility for training new teachers or devolving a school's CPD provision. *Lesson Planning Tweaks for Teachers* takes a highly original approach to improving your lesson planning. Mel and Debbie's down to earth and accessible style will help every secondary teacher, whatever your level of experience, to make the planning process more meaningful and manageable, and one that leads to outstanding progress over time. Preparing Teachers for Young and Adolescent Multilingual Learners Huili Hong, Patricia Rice Doran, 2022-04-07 Multilingual learners (MLs) students spend most of their school time with their teachers, who often feel professionally unprepared to meet their linguistically diverse students' needs. As such, preparing teachers for increasing numbers of multilingual learners (MLs) has become a critical factor in promoting equity and success for all students in our global society. This book explores and highlights the reflective narratives of teacher educators, in-service, and preservice teachers. It shows

how these narratives are grounded in their personal lives, professional training, and daily teaching, and how they can unfold the complexities in their various experiences and the rich implications for MLs teaching and teacher preparation. The book presents papers that utilize teachers' reflective narratives to prepare and train teachers who are or will be working with MLs. It discusses the challenges and implications of teaching groups of MLs made up of diverse learners, including immigrants, refugees, and learners with disabilities. 'This book seeks to change the narrative of some of our most vulnerable student populations by giving voice to the experiences, challenges, success, and best practices encountered in the international education landscape. The power contained within each chapter is the systematic and intentional reflections that bring the marginalized stories to the center of the discussion. Anyone seeking an understanding of how reflective narrative can build equity and social justice for multilingual learners will appreciate the breadth of experience described. This understanding is critical for culturally and linguistically diverse teaching and learning.' Jordan González, Ph.D., St. John's University, NY

 READER REVIEW _____ Sarah is doing just fine. Sure, she's been single for the last five years, and has to spend an uncomfortable amount of time around her ex-boyfriend, his perfect new girlfriend and all their mutual friends. And yes, her job as a PA to one of the most disgusting men in London is mind-numbingly tedious and her career is a constant disappointment to her mother. But it's really okay. She's happy (ish). So it's not surprising that when Sarah starts dreaming about a handsome stranger, she begins to look forward to falling asleep every night. Reality isn't nearly as exciting. That is until her dream-stranger makes an unexpected real-life appearance, leaving Sarah questioning everything she thought she wanted. Because no one ever really finds the person of their dreams . . . do they? _____ 'Saucy, fun and full of heart. This is Giovanna's most accomplished novel yet! This book ticked every one of our must have boxes' Heat 'Tons of charm and genuine warmth' Star

The Gambling Act 2005 Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2012-07-24 High street betting shops and casinos alike are currently allowed a maximum of four B2 (FOBT) gaming machines, which allow stakes up to £100 and a £500 prize. Casinos, should instead be permitted to operate up to twenty B2-type gaming machines. Limiting the number of B2 machines in betting shops has encouraged them to cluster in some high streets in order to satisfy customer demand. Local Authorities should have the power to permit more than the four B2 machines per shop if they believe it will help with clustering. The Committee also recommends that any local authority be able to make the decision as to whether or not they want a casino. As a step towards this, existing 1968 Act Casino licences should be made portable, allowing operators to relocate to any local authority provided that they continue to be constrained

by the need to obtain local authority approval, a premises licence and planning permission. The failure to set remote gambling taxation at a level at which online operators could remain within the UK has led to almost every online gambling operator moving offshore whilst most are still able to advertise and operate into the UK. The Committee further recommends the Gambling Commission should introduce a new licence fee structure which reduces the current anomaly where small, independent bookmakers pay much higher fees per shop than large chains. Particularly given the absence of a significant UK-regulated online sector or any Regional Casinos, the Gambling Commission remains an overly expensive, bureaucratic regulator.
