The Sumerians Samuel Noah Kramer, 2010-09-17 The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation.—American Journal of Archaeology An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity.—Library Journal

Garcia: An American Life Blair Jackson, 2000-08-01 He was there when Dylan

went electric, when a generation danced naked at Woodstock, and when Ken Kesey started experimenting with acid. Jerry Garcia was one of the most gifted musicians of all time, and he was a member of one of the most worshiped rock 'n' roll bands in history. Now, Blair Jackson, who covered the Grateful Dead for twenty-five years, gives us an unparalleled portrait of Garcia--the musical genius, the brilliant songwriter, and ultimately, the tortured soul plagued by his own addiction. With more than forty photographs, many of them previously unpublished, Garcia: An American Life is the ultimate tribute to the man who, Bob Dylan said, had no equal.

Bootleg! The Rise And Fall Of The Secret Recording Industry Clinton Heylin, 2010-03-04 An absorbing account of the record industry's worst nightmare. In the summer of 1969, Great White Wonder, a collection of unreleased Bob Dylan recordings appeared in Los Angeles. It was the first rock bootleg and it spawned an entire industry dedicated to making unofficial recordings available to true fans. Bootleg! tells the whole fascinating saga, from its underground infancy through the CD 'protection gap' era, when its legal status threatened the major labels' monopoly, to the explosion of trading via Napster and Gnutella on MP-3 files. Clinton Heylin provides a highly readable account of the busts, the defeats and victories in court; the personalities – many interviewed for the first time for this book. This classic history has now been updated and revised to include today's digital era and the emergence of a whole new bootleg culture.

Artistic Experimentation in Music Darla Crispin, Bob Gilmore, 2014-10-07 Essential reading for anyone interested in artistic research applied to music This book is the first anthology of writings about the emerging subject of artistic experimentation in music. This subject, as part of the cross-disciplinary field of artistic research, cuts across boundaries of the conventional categories of performance practice, music analysis, aesthetics, and music pedagogy. The texts, most of them specially written for this volume, have a common genesis in the explorations of the Orpheus Research

Centre in Music (ORCiM) in Ghent, Belgium. The book critically examines experimentation in music of different historical eras. It is essential reading for performers, composers, teachers, and others wanting to inform themselves of the issues and the current debates in the new field of artistic research as applied to music. The publication is accompanied by a CD of music discussed in the text, and by an online resource of video illustrations of specific issues. Contributors Paulo de Assis (ORCiM), Richard Barrett (Institute of Sonology, The Hague), Tom Beghin (McGill University), William Brooks (University of York, ORCiM), Nicholas G. Brown (University of East Anglia), Marcel Cobussen (University of Leiden), Kathleen Coessens (Vrije Universiteit Brussel, ORCiM); Paul Craenen (Director Musica, Impulse Centre for Music), Darla Crispin (Norwegian Academy of Music), Stephen Emmerson (Queensland Conservatorium, Griffith University, Brisbane), Henrik Frisk (Malmö Academy of Music), Bob Gilmore (ORCiM), Valentin Gloor (ORCiM), Yolande Harris (Center for Digital Arts and Experimental Media – DXARTS), University of Washington, Seattle), Mieko Kanno (Royal Conservatoire of Scotland), Andrew Lawrence-King (Guildhall School of Music and Drama, London, Royal Danish Academy of Music, Copenhagen, University of Western Australia), Catherine Laws (University of York, ORCiM), Stefan Östersjö (ORCiM), Juan Parra (ORCiM), Larry Polansky (University of California, Santa Cruz), Stephen Preston, Godfried-Willem Raes (Logos Foundation, Ghent), Hans Roels (ORCiM), Michael Schwab (ORCiM, Royal College of Art, London, Zurich University of the

Ringside at Roast Battle: The First Five Years of L.A.'s Fight Club for Comedians Julie Seabaugh,2018-08-04 Every Tuesday night at midnight in a dark corner of the Comedy Store, a beautiful and hilarious fight breaks out. Starving comedians drown their prejudice in comedy. It's scary. It's hilarious. It's completely punk rock. Burgeoning comics and cast-aside performers have moments of heroism, and we all get the rare chance to cleanse our sins in humor. - director Jason Reitman Accidentally conceived in July 2013 at a small, sweaty Comedy Store open mic to avoid a comedian fistfight, insult-joke competition Roast Battle has since become a global phenomenon. Taking cues from two seemingly divergent insider traditions - Friars Club roasts and urban rap battles - the show melded both into a mainstream format accessible to anyone who dared take the stage. The rules were simple: No subject was off limits, original material only, and at the end of the battle, competitors hugged. Equal parts blood sport and personal catharsis, the show instantly caught on with performers, industry members scouting the next big thing, and audiences who preferred their punchlines off-color. As host and referee, Brian Moses assembled a zany cast of supporting characters including revered Roastmaster General Jeff Ross, who was hooked from his first night.

Ross gave the show instant legitimacy. He also brought his celebrity friends along to judge. Tastemakers like Judd Apatow, Jim Carrey, Jason Reitman, Dave Chappelle, Jimmy Kimmel, Snoop Dogg, Sarah Silverman, Seth Rogen, and John Mayer counted themselves among Roast Battle's devotees. The show caught early breaks at the New York Comedy Festival and South by Southwest. Just as a TV deal seemed inevitable, tensions rose and egos flared. Founders squabbled over ownership rights. Factions formed. Friendships were irrevocably broken. But for the creators and competitors who believed Roast Battle's potential was bigger than the sum of its (often raunchy) parts, freedom of speech was more than a political talking point. It was everything comedy's most enduring legends fought for since the advent of brick-wall backdrops. Five years since its inception, Roast Battle remains the most adventurous, influential comedy show in the world. Imitators exist in every city with a local comedy scene. In addition to three stateside seasons on Comedy Central, the TV brand has expanded to South Africa, Mexico, and the U.K...the latter of which became Comedy Central U.K.'s most-watched series of all time. Yet despite the growing pains, the L.A. original stubbornly retains its gritty, underground spirit, reaching capacity weekly without a lick of advertising. With on-the-scene photos by Troy Conrad showcasing the venues, competitors, riotous cast of characters, and celebrity judges this Verbal Boxing and Fight Club for Comedians has welcomed along the way, longtime comedy journalist Julie Seabaugh's Ringside at Roast Battle chronicles the emergence of a new fourth

pillar of live comedy. From the coming-together of the principal players to the continuing influence the show will wield in years to come, the book explores the organic diversity, DIY nature, and politically-charged atmosphere encouraging a new generation of comedians to laugh in the face of tragedy.

The Book of Trinity College, Dublin, 1591-1891 Trinity College (Dublin,

Ireland), 1892

The Gutenberg Galaxy Marshall McLuhan, 1962-01-01 Since its first appearance in 1962, the impact of The Gutenberg Galaxy has been felt around the world. It gave us the concept of the global village; that phrase has now been translated, along with the rest of the book, into twelve languages, from Japanese to Serbo-Croat. It helped establish Marshall McLuhan as the original 'media guru.' More than 200,000 copies are in print. The reissue of this landmark book reflects the continuing importance of McLuhan's work for contemporary readers.

The Lost Constellations John C. Barentine, 2015-10-23 Casual stargazers are familiar with many classical figures and asterisms composed of bright stars (e.g., Orion and the Plough), but this book reveals not just the constellations of today but those of yesteryear. The history of the human identification of constellations among the stars is explored through the stories of some influential celestial cartographers whose works determined whether new inventions survived. The history of how the modern set of 88 constellations was defined by the professional astronomy community is recounted, explaining how the constellations described in the book became permanently "extinct." Dr. Barentine addresses why some figures were tried and discarded, and also directs observers to how those figures can still be picked out on a clear night if one knows where to look. These lost constellations are described in great detail using historical references,

enabling observers to rediscover them on their own surveys of the sky. Treatment of the obsolete constellations as extant features of the night sky adds a new dimension to stargazing that merges history with the accessibility and immediacy of the night sky.

They're Playing Our Song Marvin Hamlisch, Neil Simon, Carole Bayer Sager, 1980 America's premier funny man and the Tony Award-winning composer of A Chorus Line; collaborated on this hit musical; a funny, romantic show about an established composer and his relationship with an aspiring young female lyricist, not unlike Carole Bayer Sager. Professionally, their relationship works beautifully, but ultimately leads to conflict on the home front. Of course, there's a happy ending.

Alice in Concert Elizabeth Swados, 1987 Based on: Alice's adventures in Wonderland; Through the looking-glass / Lewis Carroll.

Instrumentation and Orchestration Alfred Blatter, 1997 The second edition features a new discussion of the bugle, information on percussion instruments of American and African origin, an extensively rewritten section on the organ, and the addition of Spanish terms to the existing English, French, German, and Italian. Appendixes on MIDI, guitar fingering, and guitar chords are new to the second edition, and the material on electronic instruments and electronic sound modification has been revised and expanded. The revision also includes nearly 100 new musical examples.
