**Space Weapons, Space War** John W. Macvey, 1985

Dark Galaxy Brett Fitzpatrick, 2019-07-22 The Tarazet Galactic Star Empire should be a realm without hunger, disease, violence or suffering, but the nobility are out of touch, terraforming entire planets just so they can hunt the best game. This is creating the conditions for... rebellion. Over the course of three books (Galaxy Dog, Iron Dart, and Sun Chaser) Altia, the most prominent young scientist in the empire, Knave, a young soldier, and Jay, a humble logistics robot, are sucked ever deeper into this rebellion, and then rise to become its leaders. There are plenty of space battles, unknowable aliens, and galactic power struggles in the series. These are not dry old books full of visionary concepts but dull on action, plot, and characters, it is a series that combines the action of militaristic science fiction with the heart of good space opera. The only reason the heroes have any chance of surviving in the face of the repression of the Tarazet Star Empire is the alien starship they discover. What this spaceship is capable of becomes apparent in the second book, and in the third installment the entire star empire is slowly destabilized by this new force in the galaxy. It seems, at last, as though the empire might topple, bringing a new utopia, or possibly just political chaos in its wake.

Space Wars! Max Chase, 2012-04-01 It is the year 5012 and the Milky Way galaxy is under attack. After the Universal War, a war that almost brought about the destruction of every known universe, the planets in the Milky Way banded together to create the Intergalactic Force - an elite fighting team sworn to protect and defend the galaxy. Only the brightest and most promising students are accepted into the Intergalactic Force Academy, and only the very best cadets reach the highest of their ranks

and become . . . STAR FIGHTERS! Space Wars! Having escaped Xion, the crew of the Phoenix needs to find a way back home, but before they can locate the Milky Way they see a monstrous object looming through space towards them. It's the legendary Extractor - destroyer of planets - and it's on its way to destroy Xion. Faced with a dilemma: return home, or help save the aliens who just tried to kill them, Peri decides to use his half-human half-robot skills to try and save the Xion. Only then can they go home.

**Galaxy's Edge: Black Spire (Star Wars)** Delilah S. Dawson, 2019-08-27 Walk the ancient streets, meet the colorful characters, and uncover the secret history of Star Wars: Galaxy's Edge, the new expansion to the Disney Parks experience! After devastating losses at the hands of the First Order, General Leia Organa has dispatched her agents across the galaxy in search of allies, sanctuary, and firepower—and her top spy, Vi Moradi, may have just found all three, on a secluded world at the galaxy's edge. A planet of lush forests, precarious mountains, and towering, petrified trees, Batuu is on the furthest possible frontier of the galactic map, the last settled world before the mysterious expanse of Wild Space. The rogues, smugglers, and adventurers who eke out a living on the largest settlement on the planet, Black Spire Outpost, are here to avoid prying eyes and unnecessary complications. Vi, a Resistance spy on the run from the First Order, is hardly a welcome guest. And when a shuttle full of stormtroopers lands in her wake, determined to root her out, she has no idea where to find help. To survive, Vi will have to seek out the good-hearted heroes hiding in a world that redefines scum and villainy. With the help of a traitorous trooper and her acerbic droid, she begins to gather a colorful band of outcasts and misfits, and embarks on a mission to spark the fire of resistance on Batuu—before the First Order

snuffs it out entirely.

*The Swarm War: Star Wars Legends (Dark Nest, Book III)* Troy Denning, 2006-04-04 In the explosive conclusion to the Dark Nest trilogy, Luke Skywalker summons the heroes of the New Jedi Order from near and far, as the Star Wars galaxy teeters on the edge of eternal war. Yet even the combined powers of the formidable Jedi may not be enough to vanquish the deadly perils confronting them. The Chiss-Killik border war is threatening to engulf the entire galaxy and raising the awful specter of Killiks sweeping across space to absorb all living creatures into a single hive mind. The only hope for peace lies with the Jedi—and only if they can not only end the bloodshed between two fierce enemies but also combat the insidious evil spread by the elusive Dark Nest and its unseen queen. Leia's newly acquired Jedi skills will be put to the ultimate test in the coming life-and-death battle. As for Luke, he will have to prove, in a lightning display of Force strength and swordplay, that he is—beyond a shadow of a doubt—the greatest Jedi Master in the galaxy. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Now suppose the device to grant them infinite life has been stolen by your enemy who now has the power to existence-erase your warriors forever. A science fiction horror story set in the Sixth Millennium, the last book of the Apocrypha trilogy is told in a tense gothic style, immersed in Norse and Egyptian lore. Riptide: Star Wars Legends Paul S. Kemp, 2011-10-25

Anyone can escape danger. No one can escape the truth. When a ship full of Sith warriors arrived in Galactic Alliance space, the fight to destroy it accidentally uncovered a hidden menace: a long-hidden group of clones, secretly created as insidious weapons capable of wielding the Force and heedless of the differences between light side and dark side. Now the clones have escaped—and evidence suggests that they are flawed by genetic disease and violent madness. Jedi Knight Jaden Korr pursues the clones, hoping to heal them but prepared to destroy them.

What he doesn't know is that Sith agents are hot on his heels, determined not only to recover the clones for their Master but to capture Jaden for their own dark-side purposes. In a life-or-death battle, Jaden will confront a shocking reality that will rock him to his core and bring him face-to-face with the question of what makes a man . . . and a Jedi. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

**Dark Space (Book 2)** Jasper T. Scott, 2013-07-23 The Sequel to the #1 Best-Selling Space Opera in the UK, Dark Space. New to the series? Get Dark Space 1 here for a special price: [goo.gl/tDpkU](http://goo.gl/tDpkU) THEIR SHIP IS DAMAGED Ethan Ortane has just met his long lost son, Atton, but the circumstances could have been better. After a devastating bio-attack and the ensuing battle, they've fled Dark Space aboard the Defiant to get away from the crime lord, Alec Brondi, who's just stolen the most powerful vessel left in the Imperial Fleet--the Valiant, a 5-kilometer-long gladiator-class carrier. THEY ARE LOW ON FUEL They need reinforcements to face Brondi, but beyond Dark Space the comm relays are all down, meaning that they must cross Sythian Space to contact the rest of the fleet. Making matters worse, they are low on fuel, so they can't jump straight there. They'll have to travel on the space lanes to save fuel, but the lanes are controlled by Sythians now, and they are fraught with entire fleets of cloaked alien ships. AND THERE IS NO WAY OUT With Brondi behind them, they can't go back, and they can't afford to leave the last human sector in the galaxy to the crime lords, so they must cross through enemy territory in the Defiant, a damaged, badly undermanned cruiser with no cloaking device. Making matter worse, trouble is brewing

aboard the cruiser, dropping their chances of survival from slim . . . to none.
