American Dark Legends Leo Hardy, 2021 Early snowstorms caused the Donner Party to become stranded and lost in the mountains in the winter of 1846. This was the beginning of what would come to be the reason for the Donner Party to earn themselves a spot in the history books, murder, and Cannibalism. Who was Albert Johnson, the Mad Trapper of Rat River? What drove this foul-tempered loner to become a murderer? The Starving Time at Jamestown in 1609 - 1610. An all but forgotten moment in history where many starving colonists resorted to cannibalism to stay alive. The SS Sultana sinking produced a greater loss of life than the Titanic. Three of the boat's four boilers exploded and she burned to the waterline and sank near Memphis, Tennessee. The official count by the United States Customs

Service of the dead was 1,547 with only 931 survivors. This maritime disaster is a sadly overlooked moment in history. Please allow me to tell you about it.

The Dark Legend of the Foreigner Frank

Destefano, 2014-03-05 In 17th century Japan, a battle between the shoguns and the Lees raged for a lengthy period of time. The shoguns wanted the Lees to come join their elite army, but the Lees remained neutral and peaceful people. After much harassing, the husband and wife became supreme warriors. The Lees began killing whatever shoguns threatened them. After a particularly violent, gruesome battle with the shoguns, the Lees disappeared into the Oakla Mountains for about twenty years. The mastermind, an ancient wizard siding with the shoguns, commanded what was left of the shoguns to patrol the mountains of Oakla trying to find the Lees. Decades would pass. In those twenty long years, the Lees raised a son who would become known as "the Master." Phenomenal genetics would breed an individual who became a far better warrior and stronger fighter than both

of his parents put together. In the Master's infantile years, the mother and father went up on the mountains of Oakla, similar to Moses' summoning of God, where they asked their God for a sacrifice. He answered, and in return of this sacrifice, he would give their extraordinary son, the Master, the power of immortality in the form of Five Scrolls of Terror. Their God asked for the skin from their baby's head, a threatening request, but would ultimately create a child who would grow into that of the Master: the Skulled Warrior. As the Lees returned from Oakla on that twentieth or so year, they got ambushed and killed—an attack decades in the making. When the Master found the bodies of his parents, he naturally flew into a blind rage and killed many shoguns, slaughtering anyone who stood in his way. As he battled on Oakla Mountain, his scrolls disappeared off the mountain and were never seen again. As the Master went to the end of Oakla searching for the ancient wizard for retribution, he came across an ancient hut, and inevitably the wizard and the Master did battle. The Master would ultimately kill the wizard, but he would put a curse on the Master that would remain with the Master for nearly four hundred years. As the Master's statue, which in reality was the curse turning him to stone, was moved by cult followers and believers, it eventually found its way to New Amsterdam, which as we know, would evolve into present-day New York City. An adventure unfolds as the Master awakens after a four-hundred-year slumber, masked as a mysterious piece of art, to deal with our current world as we know it. And so

begins The Dark Legend of The Foreigner.
