To Terminator with Love Wes Kennedy, 2016 Dexter Wu's life is hectic, but he's managing--mostly. He's on the verge of finishing grad school, and that means putting the final touches on his number one project: HAL, a social robot and children's storytelling companion. But his best friend is leaving the country for good, his birthday's coming up, he's swamped with studying for finals, and he hasn't slept in days. He's also going to destroy the world. At least, his robot is, according to the possibly untrustworthy Agency, an organization whose mission is to protect the world at all costs. After his birthday party turns into a fight for his life, Dexter's simple life of fast food and Netflix binges is replaced by a glitchy oracle, the world's douchiest secret agents, and an ever-increasing chain of conspiracies. With the help of Andre, a mysterious and disenchanting young agent turned rogue, Dexter sets out to plead his case to the Director in an effort to get his life back to what counts as normal--but he should know by now nothing is ever so easy.

A Season of Dying Deborah Mark McClellan, 2012-05-11 Middle-aged, a single mother,

and newly divorced, Debra Bergman is a woman who freely admits she has gone to hell and back one too many times in her life due to the bad choices involving men with addictive and destructive behaviors. She has survived a disastrous ten-year marriage to her daughter's father, making her strong enough, she believed, to weather any storm that would come her way. Despite a reputation for being a "player," Debra discovers a fierce attraction to the charismatic and captivating musician, Michael Jamison. In spite of flashes of past relationships and Michael's excessive drinking and suspicious behaviors, Debra surrenders to her desires, believing the marriage was God's plan for her life and allows Michael to find his way into her mind and body. But for Michael, the lure of celebrity and being in the spotlight were too desirable for him to leave behind... And when all she believed in revolts against her with a vengeance, she collapses into a downward spiral, crossing the threshold of a black hole that threatens not just her life but her faith as well. Debra soon discovers that her only hope out of the darkness and desolation in her life is to embark on yet another relationship.

Outdated Jonathan "JP" Pokluda, Kevin McConaghy, 2021-03-02 Everyone wants to be loved--to find someone who will stick with them through all of life's ups and downs, someone who is in it for the long haul. But in a world where dating is increasingly based on split-second decisions and geared toward casual relationships rather than marriage, it's easy for single people to feel discouraged, used, or unworthy of true love and lasting affection. Reality just never seems to match up with our (often wildly unrealistic) expectations. Jonathan JP Pokluda has counseled thousands of young singles through the pain and heartbreak of dating the world's way. Now he wants to dispel the myths, misconceptions, and fairy

tales you've believed about dating and replace them with the truth from the One who invented marriage, created you to crave relationship, and is the very embodiment of true love. With plenty of true stories about relationships healed and love found, this practical book explains God's purposes for singleness, dating, and marriage and covers why you should date, who you should date, and how you should date. If you're ready to trade the world's way of dating for the way that actually works, it's time to begin dating well.

Borders, Boundaries and the Bible Martin

O'Kane, 2002-01-01 This collection focuses on the interdisciplinary nature of current biblical studies, especially the interpretation of the Bible through the arts. Its aim is to illustrate how the crossing of boundaries enriches our understanding of the text itself. Contributors include Robert Carroll, Mary Douglas, Wendy Porter, Edward Kessler, Larry Kreitzer, John Hull and Martin O'Kane. The themes embrace literature (Kipling), music (Bach) and art (Holbein). The editor contributes an introduction and an illustrated essay on the Flight into Egypt as an icon of refuge.>

Thieves! Hannah Dennison, 2012-09-20 After a spate of local robberies Vicky's hot on the trail of gypsies, tramps and thieves! Unaware that their temporary pitch is also the official gathering site for the upcoming annual Morris Man Dance-a-thon, the gypsies have set up their illegal campsite at The Grange - much to the dismay of almost everyone in town. And when shortly afterwards there is a slew of sliver thefts in the area, blaming the despised uninvited guests makes more than a little sense. But when the body of an unnamed woman is found in a shallow stream, Vicky suspects there's a connection between the murder and the recent thefts - and she's determined to prove it. It's a criminal conundrum suited only

for the mind of Vicky Hill, Cub Reporter on the Gipping Gazette, and she's determined to uncover answers and clinch her fourth national exclusive!

Querying XML Jim Melton, Stephen Buxton, 2011-04-08 XML has become the lingua franca for representing business data, for exchanging information between business partners and applications, and for adding structure- and sometimes meaning-to text-based documents. XML offers some special challenges and opportunities in the area of search: querying XML can produce very precise, fine-grained results, if you know how to express and execute those queries. For software developers and systems architects: this book teaches the most useful approaches to

querying XML documents and repositories. This book will also help managers and project leaders grasp how “querying XML fits into the larger context of querying and XML. Querying XML provides a comprehensive background from fundamental concepts (What is XML?) to data models (the Infoset, PSVI, XQuery Data Model), to APIs (querying XML from SQL or Java) and more. * Presents the concepts clearly, and demonstrates them with illustrations and examples; offers a thorough mastery of the subject area in a single book. * Provides comprehensive coverage of XML query languages, and the concepts needed to understand them completely (such as the XQuery Data Model). * Shows how to query XML documents and data using: XPath (the XML Path Language); XQuery, soon to be the new W3C Recommendation for querying XML; XQuery's companion XQueryX; and SQL, featuring the SQL/XML * Includes an extensive set of XQuery, XPath, SQL, Java, and other examples, with links to downloadable code and data samples.

The Comedy Film Nerds Guide to Movies Graham Elwood, Chris Mancini, 2012-06-01 The Comedy Film Nerds Guide to Movies brings what has been missing from movie discussion for too long: A healthy dose of humor. This is the first time ever two filmmakers who are also comedians give their views on film. It will bring movie discussion to a younger audience in a way they can relate to it without all the stodgy film school discussion. This is a movie book for film and comedy fans, by filmmakers and comedians. In the way that Jon Stewart and Bill Mahr have brought comedy to politics, Chris and Graham will do this for film.

Fantasy Girls Elyce Rae Helford, 2000 A new collection on women in American television in the 90s uncovers a cultural obsession with tough yet sexy heroines in mythical pasts, the girl power present, and utopic futures. Xena, Buffy, Sabrina, and a host of other characters have become

household words, as well as icons of pop culture 'feminism.' Their popularity makes for successful programming, however, how much does this trend truly represent a contemporary feminist breakthrough? And what does it mean for feminism in the next few decades? *Fantasy Girls: Navigating the New Universe of Science Fiction and Fantasy Television* seeks to explore as well as challenge the power and the promises of this recent media phenomenon. Such TV programming offers the exciting opportunity to rethink established gender norms, but how far is it really pushing the limits of the status quo? Amidst the exuberant optimism of fanzines and doting fan websites, the contributors to this volume endeavor to provide us with a much needed critical analysis of this contemporary trend. These essays explore the contradictions and limitations inherent in the genre, forcing readers to take a fresh and critical look through a variety of lenses including girl power, postfeminism, cyborg feminism, disability politics, queer studies, and much more. Programs covered are *Babylon 5*, *Buffy the Vampire Slayer*, *Disney's Cinderella*, *Lois and Clark*, *Mystery Science Theater 3000*, *Sabrina the Teenage Witch*, *Star Trek: Voyager*, *The X-Files*, *Third Rock from the Sun*, and *Xena: Warrior Princess*.

East from 'Frisco - on the Trail of America's Soul Chris Harris, 2010-08-26 This work is not 'just another travelog' ' it is a light-hearted blend of observation, anecdote, humour and history. The book was inspired by a USA coast-to-coast expedition from San Francisco to Washington DC to raise funds for charity (Motor Neurone Disease), undertaken for much of the way in a 30-year-old open top 'classic' car along the historic Route 66. Little escapes critique ' from cow-chip throwing to IndyCar racing; from poker running to the deeply ingrained religiosity of the American people. The story ranges from the sparkling waters of San Francisco Bay, via Amarillo in the Texas panhandle, to shipwreck in the pounding Atlantic surf off Cape Hatteras. The quirks and

idiosyncrasies of people and places, and the tragedies and triumphs of American history, are all sympathetically portrayed through the pen of a visitor from Europe. The style is the author's own ' although he likes to think it is inspired by the best of Bryson, RL Stevenson and JK Jerome. Enjoy!
