Understanding Korean Webtoon Culture Dal Yong Jin, 2023-11-20 Webtoons—a form of comic that are typically published digitally in chapter form—are the latest manifestation of the Korean Wave of popular culture that has increasingly caught on across the globe, especially among youth. Originally distributed via the Internet, they are now increasingly distributed through smartphones to ravenous readers in Korea and around the world. The rise of webtoons has fundamentally altered the Korean cultural market due to the growth of transmedia storytelling—the flow of a story from the original text to various other media platforms, such as films, television, and digital games—and the convergence of cultural content and digital technologies. Fans can enjoy this content anytime and anywhere, either purely as webtoons or as webtoon-based big-screen culture. *Understanding Korean Webtoon Culture* analyzes webtoons through the lens of emerging digital cultures and discusses relevant cultural perspectives by combining two different, yet connected approaches, political economy and cultural studies. The book demonstrates the dynamics between structural forces and textual engagement in global media flows, and it illuminates snack-culture and binge-reading as two new forms of digital culture that webtoon platforms capitalize on to capture people's shifting media consumption.

Korea's Platform Empire Seongcheol Kim, Dal Yong Jin, 2024-06-07 *Korea's Platform Empire* explores the evolution of

digital platforms in South Korea's media sphere, and their global political, economic, cultural, and technological influence. With a focus on Korea in the context of the global platform revolution, the book takes a methodical look at the broader social implications and the impact on cultural production. The authors explore various facets of the media and cultural industries—looking beyond social media to news broadcasting and the music industry—and look at the policy and regulations behind this shifting technological advancement. This book will appeal to students and scholars working on media industries, digital media, platform studies, information and technology studies, Korean and East Asian media studies, and the creative and cultural industries.

South Korea's Webtooniverse and the Digital Comic Revolution Brian Yecies, Ae-Gyung Shim, 2021-04-09 This book investigates the meteoric rise of mobile webtoons – also known as webcomics – and the dynamic relationships between serialised content, artists, agencies, platforms and applications, as well as the global readership associated with them. It offers an engaging discussion of webtoons themselves, and what makes this new media form so compelling and attractive to millions upon millions of readers. Why have webtoons taken off, and how do users interact with them? Each of the case studies we explore raises interesting questions for both general readers and scholars of new media about how webtoons have become a modern form of popular culture. The book also addresses larger questions about East Asia's contributions to global popular culture and Asian society in general, as well as South Korea's rapid social and cultural transformation since the 1990s. This is a significant – and understudied – aspect of the new screen ecologies and their role in a new wave of media globalisation as we approach the end of the second decade of the 21st century.

Understanding the Korean Wave Dal Yong Jin, 2023-07-31 A comprehensive and critical introduction to understanding the

Korean Wave (Hallyu) as a transnational media phenomenon. This book provides an accessible introduction to the Korean Wave—the rapid growth of local cultural industries and the global popularity of Korean popular culture over the past 30 years—providing historical, political, economic, and socio-cultural context to its initial rise and enduring popularity. Jin explores the transnational cultural flows of Hallyu across a variety of products and digital technologies—from television dramas, film, and K-pop to online games, and webtoons—and explains the process of cross-media convergence and the socio-political contexts behind the Hallyu phenomenon. He also explores how overseas fans and audiences advance K-pop fandom as social agents in different geo-cultural contexts. The book concludes by discussing if Hallyu can become a sustainable global popular culture beyond a fan-based regional cultural phenomenon. Each chapter features detailed contemporary case studies and discussion questions to enhance student engagement. This is essential reading for students of Media and Communication, Cultural Studies, Korean Studies, and Asian Studies, particularly those taking classes on popular culture and media, media and globalization, Korean popular culture, and East Asian culture.

Transnational Hallyu Dal Yong Jin, Kyong Yoon, Wonjung Min, 2021-06-29 While the influence of Western, Anglophone popular culture has continued in the global cultural market, the Korean cultural industry has substantially developed and globally exported its various cultural products, such as television programs, pop music, video games and films. The global circulation of Korean popular culture is known as the Korean wave, or Hallyu. Given its empirical scope and theoretical contributions, this book will be highly appealing to any scholar or student interested in media globalization and contemporary Asia popular culture. These chapters present the evolution of Hallyu as a transnational process and addresses two distinctive aspects of the recent Hallyu phenomenon - digital technology integration

and global reach. This book will be the first monograph to comprehensively and comparatively examine the translational flows of Hallyu through extensive field studies conducted in the US, Canada, Chile, Spain and Germany.

Transmedia Storytelling in East Asia Dal Yong Jin, 2020-04-02

This book offers a thorough investigation of the recent surge of webtoons and manga/animation as the sources of transmedia storytelling for popular culture, not only in East Asia but in the wider global context. An international team of experts employ a unique theoretical framework of media convergence supported by transmedia storytelling, alongside historical and textual analyses, to examine the ways in which webtoons and anime become some of the major sources for transmedia storytelling. The book historicizes the evolution of regional popular culture according to the surrounding digital media ecology, driving the change and continuity of the manhwa industry over the past 15 years, and discusses whether cultural products utilizing transmedia storytelling take a major role as the primary local cultural product in the cultural market. Offering new perspectives on current debates surrounding transmedia storytelling in the cultural industries, this book will be of great interest to scholars and students of media studies, East Asian studies and cultural studies.

The Routledge Companion to Asian Cinemas Zhen

Zhang,Sangjoon Lee,Debashree Mukherjee,Intan Paramaditha,2024-06-20 Balancing leading scholars with emerging trendsetters, this Companion offers fresh perspectives on Asian cinemas and charts new constellations in the field with significance far beyond Asian cinema studies. Asian cinema studies - at the intersection of film/media studies and area studies - has rapidly transformed under the impact of globalization, compounded by the resurgence of a variety of nationalist discourses as well as counter-discourses, new socio-political movements, and the possibilities afforded by digital media. Differentiated experiences of climate change and the COVID-19 pandemic have further heightened interest in the digital everyday and the renewed geopolitical divide between East and West, and between North and South. Thematized into six sections, the 46 chapters in this anthology address established paradigms of scholarship and viewership in Asian cinemas like extreme genres, cinephilia, festivals, and national cinema, while also highlighting political and archival concerns that firmly situate Asian cinemas within local and translocal milieus. Underrepresented cinemas of North Korea, Bangladesh, Laos, Indonesia, Malaysia, Taiwan, Thailand, and Cambodia, appear here amidst a broader cross-regional, comparative approach. An ideal resource for film, media, cultural and Asian studies researchers, students, and scholars, as well as informed readers with an interest in Asian cinemas.

Willing Collaborators Michael Keane,Brian Yecies,Dr. Terry Flew,2018-04-16 As China looks to reinvigorate its soft power by drawing on the creative inputs of foreign media producers and technical expertise, this book explores how and why creative workers are moving to the Mainland from East Asia, and how they are navigating the challenges of producing creative and critical content in a politically constrained environment.

The 44 revised full papers presented were carefully selected and reviewed from over 100 submissions. Transnational Korean Cinema Dal Yong Jin, 2019-12-13 In Transnational Korean Cinema author Dal Yong Jin explores the interactions of local and global politics, economics, and culture to contextualize the development of Korean cinema and its current place in an era of neoliberal globalization and convergent digital technologies. The book emphasizes the economic and industrial aspects of the story, looking at questions on the interaction of politics and economics, including censorship and public funding, and provides a better view of the big picture by laying bare the relationship between film industries, the global market, and government. Jin also sheds light on the operations and globalization strategies of Korean film industries alongside changing cultural policies in tandem with Hollywood's continuing influences in order to comprehend the power relations within cultural politics, nationally and globally. This is the first book to offer a full overview of the nascent development of Korean cinema.

The Assemblage of Korean Shamanism Joonseong Lee, 2022-10-14 The most unique aspect of Korean shamanism is its mysterious duality that continually reiterates the processes of deterritorialization and reterritorialization. This book approaches that puzzle of mysterious duality using an interdisciplinary lens. Korean shamanism has been under continuous oppression and marginalization for a long time, and that circumstance has never dissipated. Shaman culture can be found in every corner of people's lives in contemporary Korea, but few acknowledge their indigenous beliefs with pride. This mysterious duality has deepened as the mediatization process of Korean shamanism has developed. Korean shamanism was revived as the dynamic of shamanic inheritance in the process, but these dynamics have also become the object of mockery. For this reason, any true understanding of Korean shamanism rests in how to unravel the unique puzzles of this mysterious duality. In this book, the duality is mapped out by playing with the puzzles surrounding the contextualization of Korean shamanism and mediatization.

It might be a powerhouse of popular culture, but South Korea is so much more than BTS and bibimbap – and with this book, it's yours to explore. Along the way, you'll get to know the people who've shaped the country

and its customs, uncover the makings of the Hallyu and, of course, explore the global exports we all know and love. How many varieties of kimchi are there? Find out all this and more in this must-have book: the perfect introduction to this wonderfully varied country.

Understanding Hallyu Hyesu Park, 2020-12-10 This book sheds light on aspects of the Korean Wave and Korean media products that are less discussed—Korean literature, webtoon, and mukbang. It explores the making of these Korean popular cultural products and how they work and engage media recipients regardless of their different national, cultural, and geographical backgrounds. Drawing on narrative theory and cultural studies, the book makes a compelling argument about how to analyze the production and consumption of Korean media within and beyond its national boundary with critical eyes. The author shows how transmedial narrative studies (narrative studies across media) offers analytical and theoretical lenses through which one can interpret new and emerging media forms and contents. Furthermore, she explores how these forms and contents can be better understood when they are contextualized within specific time and place using the cultural, social, and political concepts and precepts of the region. The volume will be of great interest to scholars and researchers of Asian Studies, popular culture, contemporary cyberculture, media and culture studies, and literary theory.
