Exploring Raspberry Pi Derek Molloy,2016-06-13 Expand Raspberry Pi capabilities with fundamental engineering principles Exploring Raspberry Pi is the innovators guide to bringing Raspberry Pi to life. This book favors engineering principles over a 'recipe' approach to give you the skills you need to design and build your own projects. You'll understand the fundamental principles in a way that transfers to any type of electronics, electronic modules, or external peripherals, using a learning by doing approach that caters to both beginners and experts. The book begins with basic Linux and programming skills, and helps you stock your inventory with common parts and supplies. Next, you'll learn how to make parts work together to achieve the goals of your project, no matter what type of components you use. The companion website provides a full repository that structures all of the code and scripts, along with links to video tutorials and supplementary content that takes you deeper into your project. The Raspberry Pi's most famous feature is its adaptability. It can be used for thousands of electronic applications,

and using the Linux OS expands the functionality even more. This book helps you get the most from your Raspberry Pi, but it also gives you the fundamental engineering skills you need to incorporate any electronics into any project. Develop the Linux and programming skills you need to build basic applications Build your inventory of parts so you can always make it work Understand interfacing, controlling, and communicating with almost any component Explore advanced applications with video, audio, real-world interactions, and more Be free to adapt and create with Exploring Raspberry Pi.

Zero Hour: Crisis in Time Dan Jurgens, 2015-07-07 Written and pencilled by Dan Jurgens (CONVERGENCE, THE NEW 52: FUTURES END) and inked by Jerry Ordway (THE DEATH OF SUPERMAN), ZERO HOUR chronicles the discovery by DC's greatest heroes of a tidal wave of temporal disruption, as they band together to combat choral chaos. When all of his family and friends were killed by the attack of a super-villain, the once heroic Green Lantern went insane and became the immensely powerful Parallax. Hoping to save his loved ones, the mad Hal Jordan decided to recreate the universe by unraveling time. Now as realities and time lines converge, dinosaurs walk the Earth again, deceased heroes are resurrected, and half the population has suddenly vanished. With Parallax on the verge of success, Superman, Batman, Robin, Flash, Wonder Woman, Aquaman, and the rest of the world's heroes must find a way to stop their former comrade or cease to be as all existence ends. This volume collects stories from SHOWCASE '94 #8-9 and ZERO HOUR: CRISIS IN TIME #4-0.

And look for Moïra Fowley-Doyle's newest book, *Spellbook of the Lost and Found*. Every October Cara and her family become inexplicably and unavoidably accident-prone. it's just a lot of cuts and scrapes. This accident season—when Cara, her ex-stepbrother, Sam, and her best friend, Bea, are 17—is going to be a bad one. But not for the reasons they think. Cara is about to learn that not all the scars left by the accident season are physical: There's a long-hidden family secret underneath the bumps and bruises. This is the year Cara will finally fall desperately in love, when she'll start discovering the painful truth about the adults in her life, and when she'll uncover the dark origins of the accident season—whether she's ready or not.
