## **Lifelong Technology-Enhanced Learning** Viktoria

Pammer-Schindler, Mar Pérez-Sanagustín, Hendrik Drachsler, Raymond Elferink, Maren Scheffel, 2018-08-24 This book constitutes the proceedings of the 13th European Conference on Technology Enhanced Learning, EC-TEL 2018, held in Leeds, UK, in September 2018. The 42 full and short papers, 7 demo papers, and 23 poster papers presented in this volume were carefully reviewed and selected from 142 submissions. This year, the European Conference on Technology-Enhanced Learning (EC-TEL) will engage researchers, practitioners, educational developers, entrepreneurs and policy makers in a joint discussion on how to put science, technology and practice at the service of learning to embrace these challenges on the topic: Lifelong technology enhanced learning: Dealing with the complexity of 21st century challenges. /div Chapter is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](http://link.springer.com).

## **The ASCRS Manual of Colon and Rectal Surgery** David E.

Beck, John L. Rombeau, Michael J. Stamos, Steven D. Wexner, 2009-06-12 The ASCRS Textbook of Surgery of the Colon and Rectum offers a comprehensive textbook designed to provide state of the art information to residents in training and fully trained surgeons seeking recertification. The textbook also supports the mission of the ASCRS to be the world's authority on colon and rectal disease. The combination of junior and senior authors selected from the membership of the ASCRS for each chapter will provide a comprehensive summary of each topic and allow the touch of experience to focus and temper the material. This approach should provide the reader with a very open minded, evidence based approach to all aspects of colorectal disease. Derived from the textbook, The ASCRS Manual of Surgery of the Colon and Rectum offers a "hands on" version of the textbook, written with the same comprehensive, evidence-

based approach but distilled to the clinical essentials. In a handy pocket format, readers will find the bread and butter information for the broad spectrum of practice. In a consistent style, each chapter outlines the condition or procedure being discussed in a concise outline format – easy to read, appropriately illustrated and referenced.

*Revision Surgery of the Foot and Ankle* Mark J.

Berkowitz, Michael P. Clare, Paul T. Fortin, Lew C. Schon, Roy W. Sanders, 2019-12-28 This unique text utilizes a bulleted, case-based approach to present a variety of surgical strategies and techniques for tackling the many challenges posed by revision foot and ankle surgery. The book is organized thematically into sections on the forefoot, trauma, sports injuries, and arthritis and reconstruction, with each chapter including key takeaway points, discussions of evaluation, surgical planning, and the cases themselves. Specific revision topics presented include first MTP joint fusion, failed bunion and hammertoe, failed Lisfranc and fifth metatarsal fracture, failed flatfoot and subtalar fusion, and nonunion of ankle fusion and failed total ankle replacement, among others. The challenge of revision foot and ankle surgery is that there are countless ways for a surgery to fail. Therefore, presenting as many different scenarios as possible and techniques to address them is the main advantage of the book. Practical and user-friendly, *Revision Surgery of the Foot and Ankle* will prove indispensable to both the young and veteran orthopedic surgeon preparing for these challenging surgical interventions.

**Sacred Landscapes in Antiquity** Ralph Haussler, Gian

Franco Chiaï, 2020-07-31 From generation to generation, people experience their landscapes differently. Humans depend on their natural environment: it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities (such as droughts, famines, floods and landslides) need to be appeased. We presume that, in many societies, lakes, rivers, rocks, mountains, caves and groves were considered sacred.

Individual sites and entire landscapes are often associated with divine actions, mythical heroes and etiological myths. Throughout human history, people have also felt the need to monumentalize their sacred landscape. But this is where the similarities end as different societies had very different understandings, beliefs and practices. The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi-disciplinary approach. More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east. They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it. We see the role of performance, ritual, orality, textuality and memory in people's sacred landscapes. A diachronic view allows us to study how landscapes were 'rewritten', adapted and redefined in the course of time to suit new cultural, political and religious understandings, not to mention the impact of urbanism on people's understandings. A key question is how was the landscape manipulated, transformed and monumentalized – especially the colossal investments in monumental architecture we see in certain socio-historic contexts or the creation of an alternative humanmade, seemingly 'non-natural' landscape, with perfectly astronomically aligned buildings that define a cosmological order? Sacred Landscapes therefore aims to analyze the complex links between landscape, 'religiosity' and society, developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic, holistic, contextual and historical perspective.

### **Hydrogen in Intermetallic Compounds II** Louis

Schlapbach, 2006-01-21 The topic of hydrogen in an on metals and alloys is important in a number of disciplines including solid-state physics, materials science, physical chemistry, and energy technology. This volume treats the dynamics of hydrogen in intermetallic compounds, surface properties, kinetics, and

applications of metal hydrides in energy technology. In addition, selected experimental methods are described. The introductory chapter will enable non-specialists to gain an overall picture of the field and to appreciate the relevant scientific issue. The companion volume, *Hydrogene in Intermetallic Compounds I*, was published as Vol. 63 of *Topics in Applied Physics*.

**Fehlertolerierende Rechensysteme / Fault-Tolerant Computing Systems** Fevzi Belli, Winfried Görke, 2012-12-06  
Dieser Band enthält die 38 Beiträge der 3. GI/ITG/GMA-Fachtagung über Fehlertolerierende Rechensysteme. Unter den 10 aus dem Ausland eingegangenen Beiträgen sind 4 eingeladene Vorträge. Insgesamt dokumentiert dieser Tagungsband die Entwicklung der Konzeption und Implementierung fehlertoleranter Systeme in den letzten drei Jahren vor allem in Europa. Sämtliche Beiträge sind neue Forschungs- oder Entwicklungsergebnisse, die vom Programmausschuß der Tagung aus 70 eingereichten Beiträgen ausgewählt wurden.

**Fundamental Astronomy** Hannu Karttunen, Pekka Kröger, Heikki Oja, Markku Poutanen, Karl Johan Donner, 2007-08-09  
Fundamental Astronomy is a well-balanced, comprehensive introduction to classical and modern astronomy. While emphasizing both the astronomical concepts and the underlying physical principles, the text provides a sound basis for more profound studies in the astronomical sciences. This is the fifth edition of the successful undergraduate textbook and reference work. It has been extensively modernized and extended in the parts dealing with extragalactic astronomy and cosmology. You will also find augmented sections on the solar system and extrasolar planets as well as a new chapter on astrobiology. Long considered a standard text for physical science majors, Fundamental Astronomy is also an excellent reference work for dedicated amateur astronomers.

**Approach to Internal Medicine** David Hui, 2011-01-15  
Feedback from users suggest this resource book is more

comprehensive and more practical than many others in the market. One of its strengths is that it was written by trainees in internal medicine who understand the need for rapid access to accurate and concise clinical information, with a practical approach to clinical problem solving.

*Introduction to Systemic Functional Linguistics* Suzanne Egging, 2004-01-01 Introduction to systemic functional linguistics explores the social semiotic approach to language most closely associated with the work of Michael Halliday and his colleagues>

**Nanostructures and Nanomaterials** Guozhong Cao, Ying Wang, 2011-01-03 This is the 2nd edition of the original "Nanostructures and Nanomaterials" written by Guozhong Cao and published by Imperial College Press in 2004. This important book focuses not only on the synthesis and fabrication of nanostructures and nanomaterials, but also includes properties and applications of nanostructures and nanomaterials, particularly inorganic nanomaterials. It provides balanced and comprehensive coverage of the fundamentals and processing techniques with regard to synthesis, characterization, properties, and applications of nanostructures and nanomaterials. Both chemical processing and lithographic techniques are presented in a systematic and coherent manner for the synthesis and fabrication of 0-D, 1-D, and 2-D nanostructures, as well as special nanomaterials such as carbon nanotubes and ordered mesoporous oxides. The book will serve as a general introduction to nanomaterials and nanotechnology for teaching and self-study purposes.

An Introduction to Systemic Functional Linguistics Suzanne Egging, 1994 Systemic-functional linguistics is becoming an increasingly popular approach to language, given the range and thoroughness of the analytical techniques it offers, and the variety of applications it has been demonstrated to have.

Occelli, 2016-04-06 With petroleum prices spiraling upward, making synthetic fuels-or synfuels-from coal, natural gas, and biomass has become more economically competitive. Advanced energy companies now focus exclusively on alternative fuels, and many oil companies have programs dedicated to developing synthetic fuels. The Fischer-Tropsch process, which uses a colle

**The Combined Sharon/Anammox Process** L. G. J. M. van Dongen, M. S. M. Jetten, Mark C. M. van Loosdrecht, 2001-09-30 Wastewater treatment management, alongside many other industries, is seeking to attain a higher degree of sustainability for its processes by focusing on new technologies which minimise the consumption of resources or even recover them from the wastewater. Conventional removal of ammonium requires usually large amounts of energy for aeration and organic carbon for denitrification. This report focuses on making the nitrogen-removal process more sustainable. This can be achieved by a partial oxidation of ammonium to nitrite, after which the nitrate produced can be converted into nitrogen gas with the rest of ammonium under anoxic conditions. The treatment of nitrogen-rich water can be carried out beneficially by a combination of the Sharon process with the Anammox process. In this combined process less than 50% of the aeration energy is needed, no COD is required and an insignificant amount of sludge is produced. In this Report the potential of using this technology for the treatment of water arising from sludge treatment at a municipal wastewater treatment plant (WWTP) is evaluated and the results of the operation of the system are described in detail. This reject

water contains a significant fraction of the N-load towards the wastewater treatment plant. The results are used in an economic evaluation of a potential full scale installation. The Combined Sharon/Anammox Process Report will provide an invaluable source of information for all those concerned with the efficient and sustainable treatment of wastewater including plant managers, process designers, consultants and researchers.

*Mleiha* Sabah A Jasim,Hans-Peter Uerpmann,Margarethe Uerpmann,2015-04 Over the past 40 years, archaeological surveys and excavations in the Mleiha inland basin have shed much light on the diversity and richness of the human societies that have flourished there over many thousands of years. So far no other landscape in south-east Arabia has yielded so much information about its pre- and proto-history. The pre-Islamic city of Mleiha represents the peak of the area's ancient civilization. During the last centuries bce and after, an important caravan town flourished there - part of the network of Arabian overland trade that linked the shores of the Indian Ocean and Mediterranean worlds in antiquity. Mleiha issued its own coinage, and its rulers and merchants were wealthy enough to acquire the finest camels and horses, and to build monumental tower tombs that expressed their status. The archaeological evidence of the Mleiha area reaches back as far as the Palaeolithic period 130,000 years ago. Later, as the last Ice Age gave way to a warming climate, graveyards and adjacent settlements shed light on the lives of the Neolithic communities who lived there from 11,000 years ago. Civilization evolved during the succeeding Bronze Age from 3000 bce onward, evidenced by elaborate

communal tombs. The centuries that followed witnessed the introduction of the underground falaj irrigation system. Domestication of the camel enabled extensive trans-regional trade connections. There is evidence for all of these developments in the Mleiha area. The Emirate of Sharjah today takes great pride in its role as a centre for culture, the arts and civilized values. The publication of this book has been timed to coincide with the opening of the new Mleiha Visitor Centre as a focal point for all those wanting to find out more about the civilizations that once flourished in this unique area. Beautifully illustrated with photographs of many of the significant finds in the area as well as maps, charts and diagrams, the authoritative text is written in a style to appeal to both the layman and the expert. Mleiha: The Unwritten History is available in English and Arabic and provides a valuable record of the history, pre-history and archaeology of this significant region of the world.
