Jicheng Xie

Second Time Dead Stephen Cain,2013-01-07 Eight highly trained but retired SAS members find their skills in demand worldwide. Their team leader Jonnie McBride lives in Thailand where he is contacted by billionaire Vanessa Stock, whose twin sister has been kidnapped by a human slave trader. The high octane story takes its reader on a journey of power, wealth, lust and murder from America to England, Oman to Cyprus and Turkey in order to kill the man that Jonnie McBride thought was already dead.

Empire Nothing William Smith,2010-01-19 Chaos wrapped around love, hate, and despair. Question what you can as each page aches and saturates beyond your eyes. Destiny can't be perfect, but continue to rely on faith as the surreal is explored and documented in Empire Nothing. This realm speaks from you and back at you, living in experience and movements of thought that drip, and continue to drip, up and back again in a collective spiral of angst, vanity, memories and visions. Spectrum after spectrum on the cusp of bliss and agony rip away the fabric of a society that puts the individual second. Wars rage. Propaganda becomes actions and images instead of words. People love fear. The memories of the past are used as opiates to sweeten the present and ensure the forgiving future. But once inside, you learn more about the conditions we feel and the emotions we endure to express.

Halo: Oblivion Troy Denning,2020-04-07 A Master Chief story and original full-length novel set in the Halo universe—based on the New York Times bestselling video game series! 2526. It has been more than a year since humanity first encountered the hostile military alliance of alien races known as the Covenant, and several weeks after the United

Nations Space Command's devastating counterattack of Operation: SILENT STORM was deemed an overwhelming success. The UNSC has put its faith in the hands of the Spartans, led by the legendary Master Chief, John-117: enhanced super-soldiers raised and trained from childhood via a clandestine black ops project to be living weapons. But the Covenant—enraged and fearful of their enemy's unexpected strategies and prowess—is not taking its recent defeat lightly, and is now fully determined to eradicate humanity from existence, brutally overrunning the ill-fated planets of the Outer Colonies faster than retreats can be ordered. If the UNSC has any chance of stemming the tide of the war, the Master Chief and Blue Team must drop onto an empty, hellish world in order to capture a disabled Covenant frigate filled with valuable technology. It has all the makings of a trap, but the bait is far too tempting to ignore—and this tantalizing prize is being offered by a disgraced and vengeful Covenant fleetmaster, whose sole opportunity for redemption lies in extinguishing humanity's only hope of survival...

Extraction Point! Travis S. Taylor, Stephanie Osborn, 2011 Brilliant scientist and government operative Dr. Reagan Ray Brady should be dead. Instead, Ray has the perfect life, working for an ultra-secret division of DHS, watching for invasion by extraterrestrials and time travelers. This team includes his wife, Samantha Brady. The team's mascot is their one-year-old daughter, Abigail. When a mysterious man shows up, leaving several dead, Ray's team confronts him in NYC, where the man leaps from the roof of a ten-story building - and vanishes in mid-air. Seconds later, Samantha sees video of the same man touring the Y-12 Plant in Oak Ridge, Tennessee. A genetic scientist disappears from his locked office. Gold and other items, including fissile material from Oak Ridge, are

vanishing around the world. Who is this man? What does he intend to do with all of the stolen wealth and dangerous material he has amassed? And can Ray and his team stop him?

The Hero John Ringo, Michael Z. Williamson, 2004-06 On an enemy planet inhabited by the Darhel, an alien race with extraordinary empathic abilities, a human hunter stalks his alien prey, a Darhel who must overcome his sensitivities to kill his stalker, or be killed in the process.

Advanced Tutorials for the Biomedical Sciences Charles Pidgeon, 1996-09-15 This unique book and computer disk package will help researchers, instructors, and students in pharmacy, medicinal chemistry, biochemistry, or other biomedical sciences reach a deeper understanding of the more advanced chemical and physicochemical processes as they relate to drug action, drug discovery, and biomedical science in general. Mathematica software permits rapid numerical, symbolic, and graphic calculations that allow complex concepts to be displayed, animated, and discussed in the same document. In Advanced Tutorials for the Biomedical Sciences, Mathematica is used as a tool to display, animate, and calculate various physical phenomena: No programming by the instructor or the reader is needed to activate these functions. The Tutorials are interactive in that the user not only enters but may also change the values of parameters within the code in order to better understand difficult concepts. The computer disk will continue to serve the researcher as a computational toolbox for the common calculations needed to perform a variety of chromatographic and spectroscopic analyses. While the Mathematica software is needed to run the Tutorials, it can be applied to any number of additional mathematical or

scientific applications.

Liminal Politics in the New Age of Disease Agnes Horvath, Paul

O'Connor, 2022-12-21 Liminal Politics in the New Age of Disease explores the phenomenon of 'liminal politics': an open-ended 'state of exception' in which normal rules no longer apply, and things which were previously unimaginable become possible – even appearing remarkably quickly to represent a 'new normal'. With attention to the emergency measures introduced to counter the spread of Covid-19, it shows how the emergency suspension of democratic accountability, ordinary life and civil liberties, while accidental, can lend itself to orchestration and exploitation for the purpose of political gain by 'trickster' or 'parasitic' figures. An examination of the cloning of political responses from jurisdiction to jurisdiction, with little consideration of their rational justification or local context, this volume interrogates the underlying dynamics of a global technological mimetism, as novel technocratic interventions are repeated and the way is opened for new technologies to reorganise social life in a manner that threatens the disintegration of its existing patterns. As such, it will appeal to scholars and students of sociology, social theory and anthropological theory with interests in political expediency and the transformation of social life.

Capital Punishment Alex Feigns, Life should be hard in any dystopia. So imagine yourself inside the body of the 10-year-old Regina Faulkner. The year is 2139. Decades after an untold apocalypse, the United States of America is no longer united. But Regina and her brother Tom still have the best. The rampant devastations and diseases barely affect Vernigan, where outsiders are more likely to be shot at the gates. This city is

teeming with synthesized food, purified water and ramshackle homes. So a safe house and a fully belly. But everything changes after the Faulkners are accepted in the Seattle Literacy Program. Like any school, it is a dream for parents. Again like any school, it becomes a surrealistic nightmare instead. Their transport convoy is bared to the teeth and flames, triggering a deafening leadership crisis in Vernigan. Hungry and traumatized, the Faulkners have many reasons to be afraid. No evil bikers in ragged leather patrol these wastes. There are neither green mutants nor decomposing zombies as well. Their fear is realistic, for they need the help from the very communities who Vernigan has shunned for a very long time. Against the background of slavery, harlotry and banditry, Regina falls into the hands of a very powerful mogul, the Shorrosh. Despite experiencing unspeakable savageries including a mass rape, she has a strong reason to cling to life. At the head of the cavalry is her father, a trucker turned mayor. He forms an unlikely alliance with another crime family. This newfound coalition however does not in any way sit well with the President as any cooperation with criminals is treasonous. A political infighting unexpectedly festers into an open rebellion, shattering the shaky stability that binds the republic.

Scientific American Science Desk Reference The Editors of Scientific American, 2008-05-02 Who names newly discovered planets? What exactly are black holes? Where are there the most earthquakes? Death and the Rock Star Catherine Strong, Barbara Lebrun, 2016-03-03 The untimely deaths of Amy Winehouse (2011) and Whitney Houston (2012), and the 'resurrection' of Tupac Shakur for a performance at the Coachella music festival in April 2012, have focused the media spotlight on the relationship between popular music, fame and death. If the phrase 'sex, drugs and rock'n'roll' ever qualified a lifestyle, it has left many casualties in its wake, and with the ranks of dead musicians growing over time, so the types of death involved and the reactions to them have diversified. Conversely, as many artists who fronted the rock'n'roll revolution of the 1950s and 1960s continue to age, the idea of dying young and leaving a beautiful corpse (which gave rise, for instance, to the myth of the '27 Club') no longer carries the same resonance that it once might have done. This edited collection explores the reception of dead rock stars, 'rock' being taken in the widest sense as the artists discussed belong to the genres of rock'n'roll (Elvis Presley), disco (Donna Summer), pop and pop-rock (Michael Jackson, Whitney Houston, Amy Winehouse), punk and post-punk (GG Allin, Ian Curtis), rap (Tupac Shakur), folk (the Dutchman André Hazes) and 'world' music (Fela Kuti). When music artists die, their fellow musicians, producers, fans and the media react differently, and this book brings together their

intertwining modalities of reception. The commercial impact of death on record sales, copyrights, and print media is considered, and the different justifications by living artists for being involved with the dead, through covers, sampling and tributes. The cultural representation of dead singers is investigated through obituaries, biographies and biopics, observing that posthumous fame provides coping mechanisms for fans, and consumers of popular culture more generally, to deal with the knowledge of their own mortality. Examining the contrasting ways in which male and female dead singers are portrayed in the media, the book

A Very Jaguar Christmas Terry Spear, 2016-10-04 There are all kinds of surprises under the mistletoe! As a protector of all jaguar-kind, Guardian agent Demetria MacFarlane isn't surprised to get a call near Christmas-but when she's sent to protect a cub whose species she didn't even know existed, her holiday season gets complicated. And it doesn't help that her partner is a distraction of the hottest kind. Hotshot JAG agent Everett Anderson can handle dangerous poachers and wildlife traffickers, no problem...but kids? Everett fears he'll be stuck cub-sitting under the Christmas tree, but working with one sexy Guardian she-cat may be the best present he's ever gotten. Praise for *A Silver Wolf Christmas*: Another awesome paranormal romance from Terry Spear. -Night Owl Reviews, 4 1/2 Stars, Reviewer Top Pick! Praise for *Jaguar Pride*: The unexpected surprises included in this installment of the Heart of the Jaguar series are enough to make readers' jaws drop... Spear's latest is chilling and thrilling from start to finish and fans of bad-ass cats will revel in each minute, clawing their way to the finish. - RT Book Reviews, 4 Stars

Carlos Alberto Pestana Andrade, Stephen John Hawkins, Alan Hodgson, Tomoyuki Nakano, Diego Castejón Bueno, 2024-01-30

Bitter Oath Nhys Glover, 2013-10-26 Rene York was a French Canadian ecologist before the Last Great Plague. Now he is a time-travelling researcher who spends whole lifetimes with his Ojibwe ancestors collecting data on all the planet has lost. A legend leads him to Regency England where he meets the blue-stocking granddaughter of a famous Naturalist, and he falls in love for the first time in nearly 800 years. But history has Livianna Mulgrave dying in a riding accident 4 months after he meets her. And the past cannot be changed. Liv never planned to marry, preferring the freedom of spinsterhood. But a handsome and mysterious stranger leads her into an incomprehensible future world where everything is possible - except escaping her fate.
