Carey McWilliams

*Deadeye Dick* Kurt Vonnegut, 2010-10-31 Rudolf Waltz's principal objection to life was that it was too easy to make horrible mistakes. He was himself to become a double-murderer at the age of twelve - on Mother's Day. This would at least make subsequent mistakes seem fairly trivial. Rudolf's father, Otto Waltz, had in 1910 bought a painting in Vienna from a destitute Adolf Hitler, thereby possibly saving him from starvation for a future generation. He made the further mistake of setting himself up as an artist when he returned from Europe to Midland City, Ohio, where everyone knew Otto couldn't draw for sour apples. He had funds to indulge this grand illusion (in the splendor of a vast converted 'medieval granary' studio, reminiscent of Mount Fujiyama) because his father had made a fortune producing an opium-and-cocaine-laced quack medicine called Saint Elmo's Remedy, popularly known to be 'absolutely harmless unless discontinued'. The Waltz inheritance even stretched to a troupe of black servants, which was just as well since Rudy's mother was as disinclined to look after a home as his 'artist' father was to paint.

**The Dead Shot - Shotguns and Shooting** Marksman, 2017-09-21 A republication of the 1896 edition. The illustrated contents contain much valuable information on shooting, shotguns and ammunition. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, high-quality, modern edition.

*Instinctive Shooting* Buz Fawcett, 2013-07-01 Here, point and shoot." These words from his father propelled Buz Fawcett's shooting success as a child, gaining him a number of High Gun awards at local trap clubs by the time he was fourteen. Because of his success, his father awarded him his grandfather's Model 1912 Winchester, which he mastered, even though it

“kicked the whey” out of him. However, his amazing shooting abilities as a kid didn’t follow him into adulthood. Fawcett entered into what he calls his “Dark Ages” of shooting after accepting an associate editor position at Sports Afield in New York City, where he had to read and edit what other gunmen were writing about shooting techniques. Eventually, he took a position as editor of Guns & Ammo magazine, located in California. He soon found himself in a position where he could shoot as much as he liked. After a number of years and extensive research into shooting methods, Fawcett rediscovered his talents through a technique called “Instinctive Shooting.” This research and a lot of practice finally led to teaching a workshop on instinctive shooting to help others become adept at this miraculous “point and shoot” method. Instinctive Shooting is Fawcett’s guide for other gunmen, describing exactly how and what needs to be done to achieve the ultimate shooting instincts. Practical and hands-on, the book covers such topics as determining your dominant eye, achieving proper shotgun fit, how to correct point and shoot, selecting equipment, practice regimens, mounting, and much more.

**Dead Eye** Mark Greaney, 2013-12-03 Ex-CIA master assassin Court Gentry gets hit with a blast from the past in the fourth Gray Man novel from #1 New York Times bestselling author Mark Greaney. Court Gentry has always prided himself on his ability to disappear at will, to fly below the radar and exist in the shadows—to survive as the near-mythical Gray Man. But when he takes revenge upon a former employer who betrayed him, he exposes himself to something he’s never had to face before: a killer who is just like him. Code-named Dead Eye, Russell Whitlock is a graduate of the same ultra-secret Autonomous Asset

Program that trained and once controlled Gentry. But now, Whitlock is a free agent who has been directed to terminate his fellow student of death. He knows how his target thinks, how he moves, and how he kills. And he knows the best way to do the job is to make Gentry run for his life—right up until the moment Dead Eye finally ends it...

**Deadeye** Meredith Doench, 2019-07-16 Special Agent Luce Hansen's Thanksgiving vacation with her new lover, forensic pathologist Harper Bennett, is cut short when she's tasked with recapturing Deadeye, a vicious serial predator who has escaped custody. The timing couldn't be worse, especially when Bennett seems to be struggling with the realities of Hansen's work and questioning whether she's willing to risk building a life with a woman who puts work first, even when the job puts her in the line of fire. Hansen can't put aside the chase even with her relationship on shaky ground. On the anniversary of Deadeye's first kill, two brothers are shot while jogging along a quiet country road. Before Deadeye can claim another victim, Hansen and her team must track a killer who has proven to be an expert at hiding in plain sight. The stakes, both professional and personal, get even higher when Hansen is cut off from her team in rural Ohio and must fight for her very survival. As Bennett frantically searches for clues to Hansen's disappearance, Deadeye's hunt draws ever closer to home.

**A Shooting Guide for the Blind** Carey McWilliams, 2022-08-01 This is a guide regarding the proper application of firearms, especially by those with any degree of visual impairment, with an emphasis on safe firearms usage when engaging in activities such as hunting, target shooting, and even selfaEURdefense at home or on the street. In these pages, the author, Mr. McWilliams, utilizes his thirty years of certified gun training to teach others with visual impairments, as well as those seeking to train them, all the various methods that have allowed him to pass countless shooting exams to obtain a number of stateaEURissued concealed carry permits and hunting licenses. For this guide's creation, real guns from the author's personal firearms collection were used as props for certain technical sections, as well as old written text and recorded lectures obtained during his training through the National Rifle Association, law enforcement, and even the United States Army. Topics include how to identify, load, unload, and work with different types of firearms without the benefit of sight, how the military's techniques in closeaEURquarters combat governs defensive shooting by the blind, case studies and official government research debunking the myth that

blind people pose a greater danger than the sighted regarding firearm usage, and how to find resources to obtain training certification. This book, however, is only intended as a prelude to official gun training by a licensed instructor, not as a standalone manual for perspective blind gun users. It is the author's wish that such information included here bridges the gap between blind Americans and their constitutional right to bear arms.

**Jump Shot: Kenny Sailors** Lew Freedman, 2014-03-03 Kenny Sailors was a basketball star, and the inventor of the jump shot. He attended the University of Wyoming and was MVP in 1943 in college AA basketball. After WWII, he spent five years as an early player in the new NBA. As a youngster, Kenny was five-foot-seven but his older brother was six-foot-two so when playing basketball, Kenny had to jump up over his brother to get off a shot. That is how the jump shot was born, and Kenny used it in college and professional basketball. He played in Denver and several other cities whose team names have now changed, but he also played for the Boston Celtics with Bob Cousy. After he left the NBA, he moved to Alaska and in 1965 settled in the Glennallen area, where he was a fishing and hunting guide in the Wrangle Mountains for thirty-five years. He now lives in Idaho, and his son lives and flies aircraft from Antioch, California.

Ed McGivern's Book of Fast and Fancy Revolver Shooting Ed McGivern, 2007-10-17 Ed McGivern needs no introduction to gun enthusiasts and serious marksmen. For more than 50 years he was revered as one of the top authorities in the field of small firearms. A world champion marksmen who made The Guinness Book of World Records, he trained scores of law enforcement officers and developed a system of teaching that is as effective today as it was when this book was originally published. It resulted from years of

experimentation and research conducted by McGivern, who utilized electric timers and other devices to determine the angles and techniques that would produce the fastest, most accurate revolver shooting. Packed with handgun lore and original photographs from the first edition, this much-sought-after classic contains a wealth of facts for marksmen everywhere.

*Oh No! We're Gonna Die* Bob Bell, 2006-01-01 *Oh No! We're Gonna Die* is a compilation of short stories about close calls in Alaska involving the author and his friends and family. These stories are written in a humorous fashion, but still convey the apprehension, excitement and relief involved in life-threatening adventures. It shows how a relatively small mistake can become a major problem in the remote Alaska bush. It takes the reader on adventures throughout the state with a unique cast of characters who never seem to lack in questionable judgment or bad luck. You will encounter airplane crashes, bears of every size and shape, extreme weather, vicious fish, malfunctioning boats and a host of other challenges. These stories will give you an insight into how rugged, and how fun, life on the last frontier can be for some people. The theme of the book is that Alaska has lots of tools to kill you

with, and she used most of them on the author and his friends. They survived, mostly by luck, certainly not by wit. Keep in mind as you read this book that these are true stories involving real people, many of whom are still around and in good health. I hope you enjoy sharing our adventures.
