**Bargain Fever** Mark Ellwood, 2014-09-25 Almost half of everything sold in America is listed at some kind of promotional price. People don't only want a deep discount, they expect it - and won't settle for anything less. In this playful, deeply researched book, journalist Mark Ellwood takes a trip into this new landscape. From the floor of upscale department store Saks Fifth Avenue to the bustling aisles of a Turkish bazaar, from the outlet Disneyworld of rural Pennsylvania to a town in Florida that can claim to be couponing's spiritual capital, Ellwood shows how some people are, quite literally, born to be bargain junkies thanks to a quirk of their DNA. He also uncovers the dark side of discounting: the sales-driven sleights of hand that sellers employ to hoodwink unsuspecting buyers. Bargain Fever is a manual for thriving in this new era, when deal hunting has gone from being a sign of indigence to one of intelligence. There's never been a better time to be a buyer - at least if you know how the game works. 'This book is a bargain hunter's bible.' Michael Tonello, author of Bringing Home the Birkin 'Bargain Fever is just as fierce, funny, tenacious, and tantalizing as its author. I love this book.' Kelly Cutrone, founder, People's Revolution, and author of Normal Gets You Nowhere 'A book after my own heart. Bargain Fever lifts the veils off the sales, ensuring even more that you'll never pay retail again.' Carmen Wong Ulrich, financial contributor, CBS This Morning, and author of Generation Debt 'Highly informative and entertaining.' Booklist

School Libraries in a Time of Change Kathleen W. Craver, 2019-08-01 By becoming practical futurists, school librarians can help their libraries not only to survive sweeping changes in education but to thrive. This book shows how to spot technological trends and use them to your library's advantage. During this time of rapid modernization of technology and educational reform, this book is a must-read for school librarians tasked with ensuring their libraries meet evolving standards. This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees: technology, curricula, and strategic planning. School librarians need to collect and publicize national and local school-based evidence that shows the positive correlations between school librarians and student achievement. Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable. In addition, acquiring technological skills and becoming expert at their application are paramount for librarians. Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking skills throughout the curriculum. Craver analyzes studies that show students' inability to discern fact from fiction, ads from news, and information bias in electronic information sources and recommends six actions that school librarians take to ensure

that they become active participants in their future rather than its victims.

**The Family Gene** Joselin Linder, 2017-03-14 A riveting medical mystery about a young woman's quest to uncover the truth about her likely fatal genetic disorder that opens a window onto the exploding field of genomic medicine When Joselin Linder was in her twenties her legs suddenly started

to swell. After years of misdiagnoses, doctors discovered a deadly blockage in her liver. Struggling to find an explanation for her unusual condition, Joselin compared the medical chart of her father—who had died from a mysterious disease, ten years prior—with that of an uncle who had died under similarly strange circumstances. Delving further into the past, she discovered that her great-grandmother had displayed symptoms similar to hers before her death. Clearly, this was more than a fluke. Setting out to build a more complete picture of the illness that haunted her family, Joselin approached Dr. Christine Seidman, the head of a group of world-class genetic researchers at Harvard Medical School, for help. Dr. Seidman had been working on her family's case for twenty years and had finally confirmed that fourteen of Joselin's relatives carried something called a private mutation—meaning that they were the first known people to experience the baffling symptoms of a brand new genetic mutation. Here, Joselin tells the story of their gene: the lives it claimed and the future of genomic medicine with the potential to save those that remain. Digging into family records and medical history, conducting interviews with relatives and friends, and reflecting on her own experiences with the Harvard doctor, Joselin pieces together the lineage of this deadly gene to write a gripping and unforgettable exploration of family, history, and love. A compelling chronicle of survival and perseverance, *The Family Gene* is an important story of a young woman reckoning with her father's death, her own mortality, and her ethical obligations to herself and those closest to her.

*Inferno* Catherine Cho,2020-08-04 A New York Times Book Review Editors' Choice *Inferno* is a disturbing and masterfully told memoir, but it's also an important one that pushes back against powerful taboos. . . --The New York Times Book Review Explosive --Good Morning America Sublime --Bookpage (starred review) When Catherine Cho and her husband set off from London to introduce their newborn son to family scattered across the United States, she could not have imagined what lay in store. Before the trip's end, she develops psychosis, a complete break from reality, which causes her to lose all sense of time and place, including what is real and not real. In desperation, her husband admits her to a nearby psychiatric hospital, where she begins the hard work of rebuilding her identity. In this unwaveringly honest, insightful, and often shocking memoir Catherine reconstructs her sense of self, starting with her childhood as the daughter of Korean immigrants, moving through a traumatic past relationship, and on to the early years of her courtship with and marriage to her husband, James. She masterfully interweaves these parts of her past with a vivid, immediate recounting of the days she spent in the ward. The result is a powerful exploration of psychosis and motherhood, at once intensely personal, yet holding within it a universal experience - of how we love, live and understand ourselves in relation to each other.
