The Very True Legend of the Mongolian Death

Worms Sandra Fay, 2022-02-22 A funny picture book celebrating the universal truth about wanting to be loved just as you are, fangs and all, inspired by the real-life legend of Mongolian Death Worms. Like the ongoing search for Big Foot and the Loch Ness Monster, scientists have searched the Gobi Desert for these giant worms. Reported sightings claim that their skin is blood red; their fangs razor sharp. The worms are supposedly poisonous and electrifying . . . or are they? In this funny story, we meet the Mongolian Death Worm family: Beverly, Trevor, Neville and Kevin. In spite of their deadly reputation, they're determined to make nice and win over the other animals. Their overtures of friendship are . . . not reciprocated. But when disaster strikes, it's the Mongolian Death Worm family to the rescue! With additional information about the legend, this book is perfect for storytime and discussions of legends and science. Perfect for fans of Ben Clanton, Sandra Fay's *The Very True Legend of the Mongolian Death Worms* will leave readers of all ages laughing and heartwarmed!

Chasing the Mongolian Death Worm Anna

Anderhagen, 2023-12-15 Does the Mongolian Death Worm exist? This title explains what a cryptid is, then examines the Mongolian Death Worm, including supposed sightings, scientists who study and search for it, and those who believe it is not even a worm. Includes a map of Mongolian Death Worm sightings. Aligned to Common Core standards and correlated to state standards. Big Buddy Books

Gigantic Death Worm Vince Kramer, 2011-10-01 It's kind of like that awesome movie, Frozen, you know where there's those people stuck on a ski-lift while surrounded by wolves. But imagine if instead of wolves they were bears. And the bears spit wolves! Like they're fucking grenade launchers or something! It's awesome! And then there's these gigantic death worms that come out of the ground and kill and eat everyone. And they're huge ... big enough to eat breweries and shit. And it's all because of 2012! But, don't worry, there's a bunch of Mexican Ninjas with invisibility ponchos and throwing-sombreros that are going to save the day. They are so badass! And the main character Dave does some stuff, too. He can pull things out of the air, like burgers and Armani suits. He and his friend Worm-Head Girl, along with the Mexican Ninjas, and a veterinarian named LeAnn must try to save Phoenix from total annihilation. But they better hurry up because these gigantic death worms are going to utterly fucking destroy everything in like two seconds!

The Mongolian Death Worm: On the Hunt in the Gobi Desert Pat Spain, 2022-12-09 Pat Spain is not a very good dancer. Nor is he a person used to wearing bikini briefs, or wrestling in front of hundreds of nomads and an international TV audience. He is certainly not a person you would expect to find wearing said bikini briefs while dancing in front of said audience, but here we are: On the Hunt in the Gobi Desert. Pat and a National Geographic film crew are searching for

the truth behind stories of the Mongolian Death Worm, and to crack this legend Pat will have to wrestle a giant while risking indecent exposure, brave the worlds' most disgusting long-drop bathroom, eat and drink toxic 'delicacies', wrangle a very jumpy electric eel and testy spitting cobra, avoid the temptation to smuggle archeological artifacts and deal with bed-bug and camel-tick infestations while they traverse the least densely populated country in the world, Mongolia.

Cody Rexell and the Death Worm Michael

Bray, 2015-07-02 Montana, 1959. When an earthquake strikes, it unleashes a horror in the shape of a sixty foot flesh eating worm which has existed away from humanity for centuries. With the military unable to stop it, President Eisenhower is forced to take drastic if unorthodox action. Meet Cody Rexell, a dangerous criminal, womaniser and former bounty hunter who was legendary for his no nonsense, no remorse methods used in order to get the job done, who after finally being captured waits in Alcatraz where faces death via execution. President Eisenhower offers Rexall a deal, one which will see him go free if only he can use his unorthodox methods to destroy the worm and keep the country safe. Together with his trusty Alsatian, Magnum, Rexell steps out into a world in which he has been given full authority to do whatever it takes to destroy the worm and try to win back his freedom in the only way he knows how...

The Expendables: The Deathworms of Kratos Edmund

Worm Kevin Butt,2023-12-18 A richly illustrated celebration of the mysterious world of worms in science and culture. This book celebrates the mysterious world of worms from gardens to toothaches and beyond. Kevin Butt introduces all manner of worms, including many that bear only superficial resemblance to our limbless, sinuous friends in the dirt. To trace the intimate history between worms and people, he discusses worms that live in bodies, soil, and water as well as worms

from literature and mythology. Throughout the ages, worms have been portrayed as benign, even beautiful, yet at other times spitefully ostracized as deadly creatures. This richly illustrated book looks at the microscopic and the very large indeed, asking what the future holds for both human- and worm-kind.

A Life Underwater Charlie Veron,2017-07-17
Hailed by David Attenborough, proclaimed a second Charles Darwin, John 'Charlie' Veron almost didn't become a scientist. Disheartened at school, by chance he won a scholarship to a university where he could indulge his passion for the natural world. It was scuba diving that returned him to his childhood love of marine life, and led to a career as a self-taught coral specialist, a field he revolutionised. His discoveries include an original concept of what a species is, and the mechanism that drives their evolution – matters that lie at the heart of conservation. He has named more coral species than anyone in history, becoming widely known as the Godfather of Coral. Charlie has dived most of the world's coral reefs, revelling in their beauty. Here he explains what they say about our planet's past and future, and why it's critical they be protected. And also why it's critical that scholarly independence be safeguarded, for it was the freedom Charlie had as a young scientist – to be wayward, to take risks –

that allowed his astonishing breakthroughs.
'Charlie Veron isn't just a coral scientist, he's a pathfinder, a scout who's been sending back dispatches on the future of our planet for decades. If ever there was a moment for Australians to listen up and act on what he's learnt, it's now.' Tim Winton 'Charlie Veron is a ravishing writer. He shares Darwin's passionate love of nature, forensic brilliance, courage and compassion. His gritty, inspiring and thrilling life symbolises why we must all work to save our planet's most spectacular marine environment.'
Iain McCalman 'This is the story of one of my heroes, not just a world expert but someone who has been fearless in trying to protect a natural wonder. And to think he became a marine scientist by chance. Charlie's story reads with flair, clarity and a sense of adventure. A compelling book for our turbulent times.'
