Steven Spurrier: A Life in Wine (unabridged) Steven Spurrier, 2022-05-25 Steven Spurrier is one of the wine trade's most important figures. Over the years he took the role of wine merchant, buyer, wine educator and lecturer; he wrote books, wine courses and over 300 columns for Decanter magazine. He set up the breakthrough 'Judgement of Paris' in 1976 - a tasting in which outsider wines from California were pitched blind against Bordeaux' finest, and won - which still sends reverberations through the wine trade today. Steven's message from it remains clear: don't judge until you've tasted - quality in wine can be found where you'd least expect it. The moment he was handed a glass of Cockburn 1908 vintage port by his grandfather at 13 years old, Steven Spurrier knew there was no turning back. Family holidays to France and Italy, and a first job working for Christopher's - London's oldest wine merchant - only confirmed that no other career would do. So, after learning the ropes by travelling France in his red sports car (fitted with a compact wine fridge in the boot), working the vintage in Burgundy, Bordeaux and Champagne, Steven's first extraordinary move was to set up shop and sell wine to the French. As an Englishman in the heart of Paris, this seemed a remarkably bold (if not foolish) project, but the plan worked, and he went on to set up the Académie du Vin and to teach them about it too... This audio edition is recorded by Richard Avery. Averys of Bristol have been wine merchants since 1793 and Richard is one of the fifth generation to be involved. Under the stage name of Alex he is also an actor and has combined these areas of interest to start producing audiobooks which have wine as a central topic.

Fizz! ROSE, 2024-02-07 - An entertaining history as well as a comprehensive guide to sparkling winemaking techniques and the variety of wines produced - Originating in Europe and made famous by Champagne, sparkling wine is enduringly popular and now made across the globe - This book was a Finalist at the Guild of Food Writers Awards 2022 Sparkling wine has delighted humanity for nearly 500 years. It has become essential at celebratory meals, a toast to new marriages, new babies, new jobs, and is even used to launch ships, but there's more to it than the fizzy and festive. In *Fizz!*, Anthony Rose takes an in-depth look at sparkling wines around the world, exploring how and where they are made, and why they are such a joy to drink. The first part of *Fizz!* delves into the history of sparkling wine, including early accidents and experiments in sparkling winemaking, its nineteenth-century surge in popularity (and associated debauchery) and the breakthroughs in vineyard and cellar that ensured Champagne's place among the great wines of the world. Rose then goes on to detail fizz-making techniques, from the traditional method to pet nat, and explores the terroirs and grapes suited to producing the wines, from the Champagne trio of Chardonnay, Pinot Noir and Meunier to the native varieties producing compelling effervescence worldwide. Following a look at the science behind the bubbles, Rose begins his global quest in search of sparkling wines. Traveling Europe, from Portugal to Moldova, he samples Cava from Spain, proves there's more to France than Champagne, finds out why southern England makes some of the world's best bubbles, discovers Sekt secrets of the Germans and explores Italy beyond the Prosecco that began the new fashion for fizz. Journeying further afield, Rose recommends the best fizz from California, Canada, Australia and New Zealand, tastes some of South Africa's Cap Classique and even finds sparklers of note in Japan and China. This comprehensive celebration of sparkling wine is rounded off with thorough appendices, making it essential reading for wine lovers and students of wine.

Wine Production and Quality Keith Grainger, Hazel Tattersall, 2016-03-07 Gourmand Award for the No. 1 Best Wine Book in the World for Professionals Since the publication of *Wine Production: Vine to Bottle* (2005) and *Wine Quality: Tasting and Selection* (2009), there has been a great deal of change in the wine industry, and the perceptions of critics and expectations of consumers have shifted. *Wine Production and Quality, Second Edition* brings together its two predecessors in one updated and considerably expanded volume.

This comprehensive guide explores the techniques of wine production in the vineyard and winery, and considers their impact upon the taste, style and quality of wine in the bottle. Part 1 of the book provides a structured yet easily readable understanding of wine production, from vine to bottle. The impact of natural factors, including climate and soil, is considered, together with the decisions made and work undertaken in the vineyard and winery. Part 2 looks at quality in wines: the concepts and techniques of tasting are detailed, along with the challenges in recognising and assessing quality. Also discussed are the steps producers may take, and the limitations they may face, in creating quality wines. The book will prove valuable to beverage industry professionals, wine trade students, wine merchants, sommeliers, restaurateurs, and wine lovers as well as those entering (or thinking of entering) the highly competitive world of wine production.

Cynthia Howson and Pierre Ly explore how Chinese wine went from being ignored and ridiculed to earning gold medals and praise by famous critics in less than a decade. Wine made in... China? Until recently, for most people, at best, it didn't exist. Or at worst, as one colorful tasting note described, it evoked: "ash tray, coffee grounds, and urinal crust." Then, a 2009 Chinese red shocked the world when it won Best Bordeaux Blend at the Decanter World Wine Awards. Could China take over the wine world? Cynthia Howson and Pierre Ly provide a knowledgeable and exuberant exploration of how

Chinese wine went from being ignored and ridiculed to earning gold medals and praise by famous critics in less than a decade. They take the reader along on their adventure on the China wine trail to meet the farmers, entrepreneurs, and teachers who are shaping this new industry. They travel to Chinese wine tourism hotspots, talk to winemakers who struggle to find good wine grapes, and visit lush mountaintops and arid deserts to see what French multinational corporations have in common with small family farms. Then, they visit a Chinese wine school to meet professors and their students eager to join the wine work force. They reveal where they bought the best local wines as they give travelers new insights on China and ideas for Chinese wine tourism. Readers interested in current affairs, economic development, and business in China will find that wine offers a clear lens for understanding the larger issues facing the country.

The Wines of Bulgaria, Romania and Moldova GILBY, 2024-02-07 - Winner of the OIV award 2020, Wines and Territories Category - Author is respected by the wine community across the region and has received awards from the national wine bodies, enabling her to gain a unique view denied to many outsiders - A uniquely authoritative work on the wines of three Eastern European wine countries Eastern Europe is the last undiscovered gem of the wine world. Over the last thirty years three countries, Bulgaria, Romania and Moldova have been working hard to escape the legacy of communism. For all three the regimes that took hold after the Second World War affected their wine industries profoundly, with state farms favouring mechanization and mass production over care and quality. Recent decades have seen a huge switch in attitudes following privatization, with more focus on quality and reconnecting people with the land to rebuild these historic wine industries for today's wine drinkers. Bulgarian wine's fall in sales in the West due to the rising popularity of New World wines, Moldova's economic crisis at the hands of a Russian ban on Moldovan wine and Romania's need to counter imports from foreign producers as tastes in wine change have forced wineries to rethink their approaches to viticulture and winemaking. Instead of production lines of anonymous wines, makers now focus on creating authentic regional wines using local and international varieties and modern techniques. In *The wines of Bulgaria, Romania and Moldova*, Eastern European wine expert Caroline Gilby MW presents the wine stories of these three connected but distinct countries as one who has witnessed the vast changes as they happened. The cultures of the three countries, their complex and troubled histories and their roads to recovery are profiled here along with details of the geography, climate, grapes grown and, most importantly, the producers working to revive and reinvent their respective wine industries. For those who seek something new beyond the traditional wines of Western Europe or who find New World wines losing their thrill *The Wines of Bulgaria, Romania and Moldova* is an inspirational introduction to a wine world waiting to be explored.

Wines of the Rhône Matt Walls, 2020-03-30 This new exploration of the wines of the Rhône Valley is an essential reference guide to one of the great classic wine regions of France. It covers all the appellations of the Rhône from timeless Côte-Rôtie and Châteauneuf-du-Pape to insiders' secrets such as the forgotten Brézème and Seyssuel. One of the largest and most ancient wine regions of France, the Rhône remains remarkably accessible and true to itself despite a growth in size and reputation in recent years. *Wines of the Rhône* features interviews with some of the most respected winemakers and personalities of the region and includes fascinating insights and anecdotes from experts based further afield. Dividing the region into two parts, Walls depicts the sights, sounds and smells of the towns and countryside that make each unique. He then brings readers up-to-date with top-line facts and figures and explores the climate, terrain, main soil types, grape varieties and peculiarities of viticulture and vinification in each part of the region. Although the focus of the book is on the present Walls takes time to look at the main historical events that have shaped each part of the Rhône Valley and its wines. Part 1 covers

Châteauneuf-du-Pape, Gigondas, Vacqueyras, Rasteau, Cairanne, Beaumes-de-Venise, Vinsobres, Lirac, Tavel, Brézème and St Julian St. Alban, the Diois and Côtes-du-Rhône Villages and other southern Rhône appellations. Part 2, the northern Rhône, covers Côte-Rôtie, Seyssuel, Condrieu, Château-Grillet, Saint Joseph, Cornas, Saint-Péray, Hermitage and Crozes-Hermitage. Part 3 contains vintage guides for both parts of the region, giving a brief description of the quality and typical wine styles in both red and white from 1978 to the present day and detailing main vintage characteristics and any over- or underperforming appellations as well as providing a guide to food and wine matching. Wines of the Rhône examines the contemporary issues being tackled across the region with clarity and authority, in a readable and entertaining format that makes an invaluable addition to the library of any serious wine lover.

Wine Wars Mike Veseth, 2011-06-16 Writing with wit and verve, Mike Veseth (a.k.a. the Wine Economist) tells the compelling story of the war between the market trends that are redrawing the world wine map and the terroirists who resist them. Wine and the wine business are at a critical crossroad today, transformed by three powerful forces. Veseth begins with the first force, globalization, which is shifting the center of the wine world as global wine markets provide enthusiasts with a rich but overwhelming array of choices. Two Buck Chuck, the second force, symbolizes the rise of branded products like the famous Charles Shaw wines sold in Trader Joe's stores. Branded corporate wines simplify the worldwide wine market and give buyers the confidence they need to make choices, but they also threaten to dumb down wine, sacrificing terroir to achieve marketable McWine reliability. Will globalization and Two Buck Chuck destroy the essence of wine? Perhaps, but not without a fight, Veseth argues. He counts on the revenge of the terroirists to save wine's soul. But it won't be easy as wine expands to exotic new markets such as China and the very idea of terroir is attacked by both critics and global climate change. Veseth has grape expectations that globalization, Two Buck Chuck, and the revenge of the terroirists will uncork a favorable future for wine in an engaging tour-de-force that will appeal to all lovers of wine, whether it be boxed, bagged, or bottled.

The Wines of Portugal MAYSON, Richard Mayson Louis Roederer International Wine Feature Writer of the Year, 2024-02-07 - Portugal is rich in native grape varieties, providing much scope for those interested in new wine-drinking experiences - Portugal is a popular holiday destination and this book is the ideal guide for wine tourists - Author is an expert on Portuguese wines and the regional chair for Port and Madeira at the Decanter World Wine Awards - A prolific writer and the author of five books on wine, Richard Mayson is also one of three series editors for The Classic Wine Library Richard Mayson has had a fifty-year relationship with Portugal. During those years Portugal has changed greatly, as have its wines. The cooperatives and wine merchants of the 1970s produced patriotically Portuguese blended wines with little sense of place. Dão, Bairrada and Vinho Verde all

existed as demarcated regions but were not fulfilling their potential. Alentejo was unrecognized as a region and unfortified Douro wines were merely a curiosity. The last half century has seen a proliferation of new regions and smaller wine producers growing grapes and making wine expressive of Portugal's many recognized terroirs. The Wines of Portugal begins by detailing the history of Portuguese wine, noting particularly how the long-standing relationship with Britain was instrumental in creating a market for wine. The grapes, including the country's many indigenous varieties, are analyzed in terms of their performance in Portugal's various terroirs. Mayson then goes on to present the regions in four broad categories: wines from the Atlantic littoral, mountain wines, plains wines of the south and the island wines of Madeira and the Azores. A chapter on rosé wine examines how brands such as Mateus kick-started the post-war wine industry, while another explores sparkling wine, for which most DOCs include a provision and which has experienced a recent revival in interest. The producer profiles feature Portugal's leading growers, from the historically important to drivers of change and interesting newcomers. This thorough study from an acknowledged expert in Portuguese wine is an essential addition to any wine-enthusiast's library.

Madeira: the Islands and Their Wines MAYSON, Richard Mayson Louis Roederer International Wine Feature Writer of the Yea, 2024-02-06 - Author is one of the world's foremost authorities on Madeira wine - The first edition of this book (2015) was shortlisted

for an André Simon Award - More than 400 Madeiras tasted, some dating back to the eighteenth century Madeira is unique among wines. While heat and air cause most wines to deteriorate, they are instrumental in the ageing of Madeira, producing distinctive and enthralling wines. Decades (in some cases over a century) of ageing result in a wine that is virtually indestructible and which remains stable for many months, even years, once opened - a great advantage with an expensive old wine. More than thirty years ago Richard Mayson was seduced by the romance of tasting history through these wines. Since then he has accumulated a wealth of knowledge, enabling him to write a truly authoritative book on the modern world of Madeira wine. Historical sources are also invaluable when discussing wines being released today, since many were actually created in a bygone era. Madeira begins by looking at the history of the islands and their wines and examining the geographical and climatic influences. The chapters covering the vineyards and winemaking techniques have been updated for this edition as knowledge of this enigmatic wine continues to be revealed. To the profiles of the producers, with notes on their typical wines, Mayson is pleased to add a new shipping firm, founded in 2012. A chapter on the shippers provides background information and tasting notes on more than 400 wines, many re-tasted since the first edition. Mayson then provides an insightful chapter unraveling the language of tasting Madeira and explaining how to buy, keep and serve the wine, and concludes with a guide to visiting the islands. The book is completed with detailed appendices. This thoroughly updated text makes essential reading for Madeira aficionados and will inspire newcomers to sample the delights of these singular wines.

Around the World in Eighty Wines Mike Veseth, 2017-11-01 Inspired by Jules Verne's classic adventure tale, celebrated editor-in-chief of The Wine Economist Mike Veseth takes his readers Around the World in Eighty Wines. The journey starts in London, Phileas Fogg's home base, and follows Fogg's itinerary to France and Italy before veering off in search of compelling wine stories in Syria, Georgia, and Lebanon. Every glass of wine tells a story, and so each of the eighty wines must tell an important tale. We head back across Northern Africa to Algeria, once the world's leading wine exporter, before hopping across the sea to Spain and Portugal. We follow Portuguese trade routes to Madeira and then South Africa with a short detour to taste Kenya's most famous Pinot Noir. Kenya? Pinot Noir? Really! The route loops around, visiting Bali, Thailand, and India before heading north to China to visit Shangri-La. Shangri-La? Does that even exist? It does, and there is wine there. Then it is off to Australia, with a detour in Tasmania, which is so cool that it is hot. The stars of the Southern Cross (and the title of a familiar song) guide us to New Zealand, Chile, and Argentina. We ride a wine train in California and rendezvous with Planet Riesling in Seattle before getting into fast cars for a race across North America, collecting more wine as we go. Pause for lunch in Virginia to honor Thomas Jefferson, then it's time to jet back to London to tally our wines and see what we have learned. Why these particular places? What are the eighty wines and what do they reveal? And what is the surprise plot twist that guarantees a happy ending for every wine lover? Come with us on a journey of discovery that will inspire, inform, and entertain anyone who loves travel, adventure, or wine.
