*A Year with Swollen Appendices* Brian Eno,2020-11-17 The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition.'One of the seminal books about music . . . an invaluable insight into the mind and working practices of one of the industry's undeniable geniuses.'GUARDIANAt the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world.This beautiful 25th-anniversary hardcover edition has been redesigned in the same size as the diary that eventually became this book. It features two ribbons, pink paper delineating the appendices (matching the original edition) and a two-tone paper-over-board cover, which pays homage to the original design.An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

*Ekphrasis* Murray Krieger,2019-12-01 Originally published in 1992. What, in apparently pictorial poetry, do words represent? Conversely, how can words in a poem be picturable? Murray Krieger develops a systematic theoretical statement out of answers to such questions. Ekphrasis is his account of the continuing debates over meaning in language from Plato to the present. Krieger sees the modernist position as the logical outcome of these debates but argues that more recent theories radically question the political and aesthetic assumptions of the modernists and the two-thousand-year tradition they claim to culminate. Krieger focuses on ekphrasis—the literary representation of visual art, real or imaginary—a form at least as old as its most famous example, the shield of Achilles verbally invented in the Iliad. He argues that the ekphrastic principle has remained enduringly problematic in that it reflects the resistant paradoxes of representation in words. As he examines the conflict between the spatial and temporal, between vision-centered and word-centered metaphors, Krieger reveals how literary theory has been shaped by the attempts and the deceptive failures of language to do the job of the natural sign.

**Painting With Light** John Alton,2013-02-05 A wonderful introduction to the workings of the Hollywood system. We learn in rich and yet accessible detail about special effects, technical wizardry and gadgetry, lighting, make-up, the breakdown of crews, and filming strategies. The book is legendary and its reprint is a major event for film study.—Dana Polan, Tisch School of the Arts, New York University

**The Original Copy** Roxana Marcoci,Geoffrey Batchen,Tobia Bezzola,2010 Published in conjunction with the exhibition The original copy: photography of sculpture, 1839 to today, at the Museum of Modern Art, New York (August 1-November 1, 2010)--T.p. verso.

*Conservation of the Last Judgment Mosaic, St. Vitus Cathedral, Prague* Francesca Piqué,Dusan Stulik,2004 Illustrated in color throughout, this handsome volume presents selected papers from an international symposium held in June 2001 marking the completion of a ten-year project to conserve the Last Judgment mosaic, at St. Vitus Cathedral in Prague. The project was a partnership between the Office of the President of the Czech Republic, the Prague Castle Administration, and the Getty Conservation Institute. The goal of the symposium was to present the methodology, research, and results of the project, which involved conserving one of the finest examples of monumental medieval mosaic art in Europe. The volume's essays are divided into three parts, which cover the historical and art-historical context, conservation planning and methodology, and project implementation and maintenance. Topics addressed include the history, iconography, and visual documentation of the mosaic; the development and application of surface cleaning and protective coating techniques for the mosaic's glass tesserae; and post-treatment monitoring and maintenance.

Graphic Design Theory Helen Armstrong,2012-08-10 Graphic Design Theory is organized in three sections: Creating the Field traces the evolution of graphic design over the course of the early 1900s, including influential avant-garde ideas of futurism, constructivism, and the Bauhaus; Building on Success covers the mid- to late twentieth century and considers the International Style, modernism, and postmodernism; and Mapping the Future opens at the end of the last century and includes current discussions on legibility, social responsibility, and new media. Striking color images illustrate each of the movements discussed and demonstrate the ongoing relationship between theory and practice. A brief commentary prefaces each text, providing a cultural and historical framework through which the work can be evaluated. Authors include such influential designers as Herbert Bayer, L'szlo Moholy-Nagy, Karl Gerstner, Katherine McCoy, Michael Rock, Lev Manovich, Ellen Lupton, and Lorraine Wild. Additional features include a timeline, glossary, and bibliography for further reading. A must-have survey for graduate and undergraduate courses in design history, theory, and contemporary issues, *Graphic Design Theory* invites designers and interested readers of all levels to plunge into the world of design discourse.

Brushed in Light Abé Markus Nornes,2021-02-22 Drawing on a millennia of calligraphy theory and history, *Brushed in Light* examines how the brushed word appears in films and in film cultures of Korea, Japan, Taiwan, Hong Kong, and PRC cinemas. This includes silent era intertitles, subtitles, title frames, letters, graffiti, end titles, and props. Markus Nornes also looks at the role of calligraphy in film culture at large, from gifts to correspondence to advertising. The book begins with a historical dimension, tracking how calligraphy is initially used in early cinema and how it is continually rearticulated by transforming conventions and the integration of new technologies. These chapters ask how calligraphy creates new meaning in cinema and demonstrate how calligraphy, cinematography, and acting work together in a single film. The last part of the book moves to other regions of theory. Nornes explores the cinematization of the handwritten word and explores how calligraphers understand their own work.

My Omaha Obsession Miss Cassette,2020-11 *My Omaha Obsession* takes the reader on an idiosyncratic tour through some of Omaha's neighborhoods, buildings, architecture, and people, celebrating the city's unusual history. Rather than covering the city's best-known sites, Miss Cassette is irresistibly drawn to strange little buildings and glorious large homes that don't exist anymore as well as to stories of Harkert's Holsum Hamburgers and the Twenties Club. Piecing together the records of buildings and homes and everything interesting that came after, Miss Cassette shares her observations of the property and its significance to Omaha. She scrutinizes land deeds, insurance maps, tax records, and old newspaper articles to uncover a property's singular story. Through conversations with fellow detectives and history enthusiasts, she guides readers along her path of hunches, personal interests, mishaps, and more. As a longtime resident of Omaha, Miss Cassette is informed by memories of her youth combined with an enduring curiosity about the city's offbeat relics and remains. Part memoir and part research guide with a healthy dose of colorful wandering, *My Omaha Obsession* celebrates the historic built environment and searches for the people who shaped early Omaha.

*In Defiance of Painting* Christine Poggi,1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

*Digital Cities* Toru Ishida,Katherine Isbister,2003-06-26 On the way towards the Information Society, global networks such as the Internet, together with mobile computing, have made wide-area computing over virtual communities a reality. Digital city projects, with the goal of building platforms to support community networking, are going on worldwide. This is the first book devoted to digital cities. It is based on an international symposium held in Kyoto, Japan, in September 1999. The 34 revised full papers presented were carefully selected for inclusion in the book; they reflect the state of the art in this exciting new field of interdisciplinary research and development. The book is divided into parts on design and analysis, digital city experiments,

community network experiments, applications, visualization technologies, mobile technologies, and social interaction and communityware.

**Visiting with the Ancestors** Laura Peers,Alison K. Brown,2016-09-29 In 2010, five magnificent Blackfoot shirts, now owned by the University of Oxford’s Pitt Rivers Museum, were brought to Alberta to be exhibited at the Glenbow Museum, in Calgary, and the Galt Museum, in Lethbridge. The shirts had not returned to Blackfoot territory since 1841, when officers of the Hudson’s Bay Company acquired them. The shirts were later transported to England, where they had remained ever since. Exhibiting the shirts at the museums was, however, only one part of the project undertaken by Laura Peers and Alison Brown. Prior to the installation of the exhibits, groups of Blackfoot people—hundreds altogether—participated in special “handling sessions,” in which they were able to touch the shirts and examine them up close. The shirts, some painted with mineral pigments and adorned with porcupine quillwork, others decorated with locks of human and horse hair, took the breath away of those who saw, smelled, and touched them. Long-dormant memories were awakened, and many of the participants described a powerful sense of connection and familiarity with the shirts, which still house the spirit of the ancestors who wore them. In the pages of this beautifully illustrated volume is the story of an effort to build a bridge between museums and source communities, in hopes of establishing stronger, more sustaining relationships between the two and spurring change in prevailing museum policies. Negotiating the tension between a museum’s institutional protocol and Blackfoot cultural protocol was challenging, but the experience described both by the authors and by Blackfoot contributors to the volume was transformative. Museums seek to preserve objects for posterity. This volume demonstrates that the emotional and spiritual power of objects does not vanish with the death of those who created them. For Blackfoot people today, these shirts are a living presence, one that evokes a sense of continuity and inspires pride in Blackfoot cultural heritage.

**Marine Advisors with the Vietnamese Marine Corps** Charles D. Melson,Wanda J. Renfrow,2009 NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT-- OVERSTOCK SALE -- Significantly reduced list price The period after World War II saw a number of associated Marine Corps formed in the republics of China, Korea, Vietnam, the Philippines, Indonesia, and Thailand. They had been founded, with the help of foreign military aid, to fight the various conflicts to contain communist expansion in the region. Also present at various times were other Marines from the Netherlands, France, and Great Britain. The beginnings of the Cold War witnessed this proliferation of amphibious forces in Asia, in part because of the reputation the U.S. Marines had earned in the cross Pacific drive against Japan and in other postwar confrontations. This publication is about one of these, the Vietnamese Marine Corps or Thuy Quan Luc Chien (TQLC). This occasional paper provides documents on the topics of the Vietnamese Marines and the U.S. Marine Advisory Unit from this period. Marine Corps History Division Occasional Paper. **Script Effects as the Hidden Drive of the Mind, Cognition, and Culture** Hye K. Pae,2020-10-14 This open access volume reveals the hidden power of the script we read in and how it shapes and drives our minds, ways of thinking, and cultures. Expanding on the Linguistic Relativity Hypothesis (i.e., the idea that language affects the way we think), this volume proposes the “Script Relativity Hypothesis” (i.e., the idea that the script in which we read affects the way we think) by offering a unique perspective on the effect of script (alphabets, morphosyllabaries, or multi-scripts) on our attention, perception, and problem-solving. Once we become literate, fundamental changes occur in our brain circuitry to accommodate the new demand for resources. The powerful effects of literacy have been demonstrated by research on literate versus illiterate individuals, as well as cross-scriptal transfer, indicating that literate brain networks function differently, depending on the script being read. This book identifies the locus of differences between the Chinese, Japanese, and Koreans, and between the East and the West, as the neural underpinnings of literacy. To support the “Script Relativity Hypothesis”, it reviews a vast corpus of empirical studies, including anthropological accounts of human civilization, social psychology, cognitive psychology, neuropsychology, applied linguistics, second language studies, and cross-cultural communication. It also discusses the impact of reading from screens in the digital age, as well as the impact of bi-script or multi-script use, which is a growing trend around the globe. As a result, our minds, ways of thinking, and cultures are now growing closer together, not farther apart.

*The Literariness of Media Art* Claudia Benthien,Jordis Lau,Maraïke M. Marxsen,2018-09-14 The beginning of the 20th century saw literary scholars from Russia positing a new definition for the nature of literature. Within the framework of Russian Formalism, the term 'literariness' was coined. The driving force behind this theoretical inquiry was the desire to identify literature--and art in general--as a way of revitalizing human perception, which had been numbed by the automatization of everyday life. The transformative power of 'literariness' is made manifest in many media artworks by renowned artists such as Chantal Akerman, Mona Hatoum, Gary Hill, Jenny Holzer, William Kentridge, Nalini Malani, Bruce Nauman, Martha Rosler, and Lawrence Weiner. The authors use literariness as a tool to analyze the aesthetics of spoken or written language within experimental film, video performance, moving image installations, and other media-based art forms. This volume uses as its foundation the Russian Formalist school of literary theory, with the goal of extending these theories to include contemporary concepts in film and media studies, such as Neoformalism, intermediality, remediation, and postdrama.
