How to Hunt Deer Like a Pro John Phillips, 2017-10-11 How do you know if the land you hunt has a trophy deer on it? Wildlife manager Bob Zaiglin, of Uvalde, Texas and Jim Crumley, the father of modern-day hunting camouflage, tell you how to find out. GPS can make finding and taking that trophy buck easier. This hunting guide will teach you how to hunt big bucks where no one else can find them, how to call deer, and how to become versatile as a deer hunter, so that if one deer tactic doesn't work, another one will. Dr. Keith Causey, retired professor of Wildlife Science at Auburn University, says, Deer of both sexes and all ages leave a wide variety and a large amount of information for other deer in their geological locations at scrapes. Although most people believe that dominant bucks in an area utilize these signposting regions, other deer use these signposts too for information. In the chapter, How to find Bucks at Scrape, Causey describes the best way to hunt a scrape. Brad Harrison of Neosho, Missouri, is a nationally-known videographer, professional deer hunter and master at calling deer. Another master is Will Primos of Primos Game Calls. These two experts will tell the best deer calls and when to use them in this book. One question that's mystified deer hunters for many years, is how to know when bucks move. And for over 20 years, Bo Pitman, lodge manager of White Oak Plantation, has been studying deer movement patterns. He explains what types of conditions are best for predicting deer movement. How do you hunt deer in the snow? Norm LeBrun, of Quebec, Canada, a guide at Anticosti Island, hunts deer in the snow almost all year long and provides timely insights on how and where to take big bucks under these conditions. Eddie Salter lives in Alabama and Mark Drury in Missouri, and these two master deer hunters give you hunting tips for when the weather is hot and for hunting in swamps. Dr. Robert Sheppard tells you about some tricks that bucks play on whitetail deer hunters. There are also two chapters on how to hunt bucks at the end of deer season and a chapter on how to train bucks to come to you, so you don't have to go find them. For 50 years, I've been studying and hunting with some of the best whitetail hunters from around the country and in Canada, and this book is the combined knowledge of these time-tested, deer-hunting professionals. If you want to learn how to be a hunter, you need to have this book.

The Old Pro Turkey Hunter Gene Nunnery, 2018-10-15 During his life, Gene Nunnery was recognized as a master turkey hunter and an artisan who crafted unique, almost irresistible turkey calls. In *The Old Pro Turkey Hunter*, the vaunted sportsman shares over fifty years of personal experience in Mississippi and surrounding states, along with the decades-old wisdom of the huntsmen who taught him. Throughout the book, his stories make clear that turkey hunting is more than just killing the bird—it is about matching wits with a wild and savvy adversary. As Nunnery explains, To me that's what it's all about: finding a wise old gobbler who will test your skill as a turkey hunter. Through his stories, Nunnery reveals that the true reward for successful turkey hunting lies in winning the contest, not necessarily exterminating the foe. Real sportsmen know that every now and then the turkey should and will elude the hunter. As Nunnery looks back on his extensive career, he analyzes vast differences in practice, old and new. The shift, he decides, came during his last twenty years on the hunt, and that difference has only increased in the decades since this book was originally published. Michael O. Giles, Bass Pro staff team member, master turkey hunter, and award-winning outdoors writer and author of *Passion of the Wild*, writes a new foreword that brings the practice of turkey hunting into the present day. Filled with a tested mixture of common sense and specific examples of how master turkey hunters honor their harvest and heritage, *The Old Pro Turkey Hunter* is the perfect companion for the novice or the adept.

Therefore, they can be tricked on any of these levels. The main objective of any form of calling is to manipulate a deer to approach within comfortable shooting distance.
