A Level Media Studies Pete Bennett, Sarah Casey Benyahia, Jerry Slater, 2019-07-09 A Level Media Studies is a comprehensive guide to the subject content of AS and A Level Media Studies, across all examining boards. It is specifically designed to meet the needs of both students and teachers with an accessible writing style, helpful notes on key theories and theorists and a range of learning exercises. The book's overall approach is gradual immersion, assuming no prior knowledge of the subject. Starting with an overview of the discipline, the book moves on to develop increasingly sophisticated ideas whilst repeatedly reinforcing the basic principles of media studies. Each component of media studies is illustrated with practical examples and guided exercises that demonstrate the application of theories and concepts. In addition, numerous case studies offer examples of media studies in practice. Working through these examples, students will acquire the skill set and confidence to tackle the analysis of media products and the discussion of media issues to the standard required at A Level. The focus is on contemporary media, but there is also full acknowledgement of historical precedents, as well as the significance of social, cultural, political and economic contexts. With its clear structure and integrative approach, A Level Media Studies is the ideal introductory resource for students and teachers.

Alan Vega Alexandre Breton, 2017-04-11 Life and death of an underground legend A major and fascinating figure in the New York underground, Alan Vega, died on July 16th, 2016 in New York, marked the history of rock and roll deeply with his band Suicide, as a solo artist, as well as in the plastic arts with his light installations. From sculpture to sound experimentation, engaged political activity and horse racing, from Elvis to Jesus Christ, Spinoza and the topic of Jewishness, Alan Vega, *Conversation with an Indian* is an incursion into the work of prolific artist. A nomadic reading, urban, poetic and polyphonic, punctuated by the voices of Agnès b., Bob Gruen, Pascal Comelade, Dirty Beaches, Marc Hurtado, Perkin Barnes, Christophe, Martin Rev and many more. EXCERPT The bastard son of Elvis, Alan Vega attracts mystery. A crossed out surname, date of birth uncertain. Vega: chosen name. By chance during a 1973 night on the sidewalks of downtown New York. The name of a star as close to the Earth as to the Sun, one of the brightest that is visible to the human eye. Vega, which belongs to the aptly-named constellation Lyra. Vega is also a Chevrolet, four-cylinder, ninety horse-power, launched by General Motors in 1968. An economic drain on the Detroit firm. The American myth at its most nightmarish. The glistening and the trash. Originally born Alan Boruch Bermowitz on June 23rd, 1938, son of a naturalized Russian immigrant father and an American mother, both Jewish. Alan only became Vega after first being Boruch Bermowitz Alan and later Alan Suicide - when he began exhibiting his installations at the Ok Harris gallery in the late 1960s, or even Nasty Cut for the first Suicide concerts with Martin Rev and Paul Liebegott. Whatever. A name and a birth with two bases. An artistic birth that replaces an original civil status, corrects it and erases it without hesitation “I’m tired of it now, I want a different name, but I can’t find it. Anyway, it’s too late. I’m Vega. I did it because I wanted to distance myself from the Suicide name. But that’s not the only reason. Suicide became an obstacle, as it was often censored just because of our name.” ABOUT THE AUTHOR Born in 1973, Alexandre Breton teaches philosophy in Paris and is a Radio France producer. He aired portraits of Archie Shepp, Christophe, Alan Vega and Jonas Mekas, among others. He is also the artistic director of the music festival City Sounds that takes place in Paris and is dedicated to current music.

Sound, Music, Affect Marie Thompson, Ian Biddle, 2013-03-14 *Sound, Music, Affect* features brand new essays that bring together the burgeoning developments in sound studies and affect studies. The first section sets out key methodological and theoretical concerns, focussing on the relationships between affective models and sound. The second section deals with particular musical case studies, exploring how reference to affect theory might change or reshape some of the ways we are able to make sense of musical materials. The third section examines the politics and practice of sonic disruption: from the notion of noise as 'prophecy', to the appropriation of 'bad vibes' for pleasurable aesthetic and affective

experiences. And the final section engages with some of the ways in which affect can help us understand the politics of chill, relaxation and intimacy as sonic encounters. The result is a rich and multifaceted consideration of sound, music and the affective, from scholars with backgrounds in cultural theory, history, literary studies, media studies, architecture, philosophy and musicology.

Streaming Music, Streaming Capital Eric Drott,2023-12-29 In *Streaming Music, Streaming Capital*, Eric Drott analyzes the political economy of online music streaming platforms. Attentive to the way streaming has reordered the production, circulation, and consumption of music, Drott examines key features of this new musical economy, including the roles played by data collection, playlisting, new methods of copyright enforcement, and the calculation of listening metrics. Yet because streaming underscores how uneasily music sits within existing regimes of private property, its rise calls for a broader reconsideration of music's complex and contradictory relation to capitalism. Drott's analysis is not simply a matter of how music is formatted in line with dominant measures of economic value; equally important is how music eludes such measures, a situation that threatens to reduce music to a cheap, abundant resource. By interrogating the tensions between streaming's benefits and pitfalls, Drott sheds light on music's situation within digital capitalism, from growing concentrations of monopoly power and music's use in corporate surveillance to issues of musical value, labor, and artist pay.
