Colors and Blood Robert E. Bonner,2018-06-05 As rancorous debates over Confederate symbols continue, Robert Bonner explores how the rebel flag gained its enormous power to inspire and repel. In the process, he shows how the Confederacy sustained itself for as long as it did by cultivating the allegiances of countless ordinary citizens. Bonner also comments more broadly on flag passions--those intense emotional reactions to waving pieces of cloth that inflame patriots to kill and die. Colors and Blood depicts a pervasive flag culture that set the emotional tone of the Civil War in the Union as well as the Confederacy. Northerners and southerners alike devoted incredible energy to flags, but the Confederate project was unique in creating a set of national symbols from scratch. In describing the activities of white southerners who designed, sewed, celebrated, sang about, and bled for their new country's most visible symbols, the book charts the emergence of Confederate nationalism. Theatrical flag performances that cast secession in a melodramatic mode both amplified and contained patriotic emotions, contributing to a flag-centered popular patriotism that motivated true believers to defy and sacrifice. This wartime flag culture nourished Confederate nationalism for four years, but flags' martial associations ultimately eclipsed their expression of political independence. After 1865, conquered banners evoked valor and heroism while obscuring the ideology of a slaveholders' rebellion, and white southerners recast the totems of Confederate nationalism as relics of the Lost Cause. At the heart of this story is the tremendous capacity of bloodshed to infuse symbols with emotional power. Confederate flag culture, black southerners' charged relationship to the Stars and Stripes, contemporary efforts to banish the Southern Cross, and arguments over burning the Star Spangled Banner have this in common: all demonstrate Americans' passionate relationship with symbols that have been imaginatively soaked in blood.

The Growth Leader Scott K. Edinger,2023-10-24 WALL STREET JOURNAL BESTSELLER USA TODAY BESTSELLER Growth is a leadership issue, not a sales issue. However you define business growth--total revenue, net income, margin expansion, number of products and services, or customer loyalty--sustained and strategic growth requires an organization to do more than sell by simply communicating the value of its products or services. It must create value in the way it sells by delivering a compelling experience that adds value beyond the product itself. As a leader, it's your job to build and guide that experience. The Growth Leader reveals how top executives create profitable growth through the intersection of strategy, leadership, and sales. With a clear strategy, inspiring leadership, and aligned sales, powerful leaders understand that true competitive advantage doesn't come from innovation alone but belongs to companies that use their sales organization to add and create value. In this leadership guide, you'll learn how to ensure growth strategy is aligned at every level of the company, from boardroom initiatives to daily customer interaction. Best-selling leadership author and business growth consultant Scott K. Edinger helps CEOs and leaders intentionally and strategically engage with the customer experience to differentiate, innovate, cultivate loyalty, and grow. With this growth strategy mindset, your teams will know what they're supposed to be doing, have the skills to accomplish their work at a high level, and be properly supported by systems, process, and environment. But they can only do all this if you lead them. Are you ready to be a Growth Leader?

Women and Patriotism in Jim Crow America Francesca Morgan,2006-05-18 After the Civil War, many Americans did not identify strongly with the concept of a united nation. Francesca Morgan finds the first stirrings of a sense of national patriotism--of these United States--in the work of black and white clubwomen in the late nineteenth and early twentieth centuries. Morgan demonstrates that hundreds of thousands of women in groups such as the Woman's Relief Corps, the National Association of Colored Women, the Universal Negro Improvement Association, the United Daughters of the Confederacy, and the Daughters of the American Revolution sought to produce patriotism on a massive scale in the absence of any national emergency. They created holidays like Confederate Memorial Day, placed American flags in classrooms, funded monuments and historic markers, and preserved old buildings and battlegrounds. Morgan argues that while clubwomen asserted women's importance in cultivating national identity and participating in public life, white groups and black groups did not have the same nation in mind and circumscribed their efforts within the racial boundaries of their time. Presenting a truly national history of these generally understudied groups, Morgan proves that before the government began to show signs of leadership in patriotic projects in the 1930s, women's organizations were the first articulators of American nationalism.
