U.s. Postal Service United States Government Accountability
Office,2017-09-13 U.S. Postal Service (USPS) delivery performance
standards and results, which are central to its mission of providing
universal postal service, have been a long-standing concern for
mailers and Congress. Standards are essential to set realistic
expectations for delivery performance and organize activities
accordingly. Timely and reliable reporting of results is essential for
management, over-sight, and accountability purposes. GAO was
asked to assess (1) USPS's delivery performance standards for
timely mail delivery, (2) delivery performance information that
USPS collects and reports on timely mail delivery, and (3) progress
made to improve delivery performance information.

Envisioning the National Health Care Quality Report Institute of
Medicine,Board on Health Care Services,Committee on the
National Quality Report on Health Care Delivery,2001-04-22 How
good is the quality of health care in the United States? Is quality
improving? Or is it suffering? While the average person on the
street can follow the state of the economy with economic

indicators, we do not have a tool that allows us to track trends in health care quality. Beginning in 2003, the Agency for Healthcare Research and Quality (AHRQ) will produce an annual report on the national trends in the quality of health care delivery in the United States. AHRQ commissioned the Institute of Medicine (IOM) to help develop a vision for this report that will allow national and state policy makers, providers, consumers, and the public at large to track trends in health care quality. Envisioning the National Health Care Quality Report offers a framework for health care quality, specific examples of the types of measures that should be included in the report, suggestions on the criteria for selecting measures, as well as advice on reaching the intended audiences. Its recommendations could help the national health care quality report to become a mainstay of our nation's effort to improve health care.

S. Government Accountability Office (,2013-06 The U.S. Government Accountability Office (GAO) is an independent agency that works for Congress. The GAO watches over Congress, and investigates how the federal government spends taxpayers dollars. The Comptroller General of the United States is the leader of the GAO, and is appointed to a 15-year term by the U.S. President. The GAO wants to support Congress, while at the same time doing right by the citizens of the United States. They audit, investigate, perform analyses, issue legal decisions and report anything that the government is doing. This is one of their reports.
