Game of My Life Denver Broncos Jim Saccomano, 2016-08-16 How do you measure the soul of a city? In Denver, for the better part of five decades it's been by the Broncos. From an ugly and inauspicious beginning to the first nationally televised Monday-night game in 1973, through postseason games that included back-to-back World Championships and five other Super Bowl appearances, the Broncos have provided the Mile-High City's primary identity on a national level. The nation's first truly regional sports franchise, the Broncos were the first major league team to call Denver home, beginning play as a charter member of the American Football League, with its first season in 1960. In this newly revised edition of *Game of My Life Denver Broncos*, fans past and present will relive the greatest moments of Mile-High football through the eyes of the players themselves. Floyd Little shares the pride and joy of scoring a touchdown in his last game as a Bronco and John Elway describes the glory of leading the Broncos to their first Super Bowl victory in 1998. From those infamous striped socks to back-to-back Super Bowl Championships, *Game of My Life Denver Broncos* has it all—a must-have for any Broncos fan. Together, they tell the story from their unique perspectives, beginning with Landow's spring email to safety Brian Dawkins suggesting they work together to build a championship team while nobody was watching. From the early workouts where the team looked disorganized, to the media circus surrounding Tim Tebow, this story tells how Landow brought a disparate group of players together to form the 2011 Denver Broncos—the team everyone had written off from the start—that went on to win the AFC West. Also included are photos and training tips for minimizing injury and motivational strategies that can be applied to any sport.

Since then, the Denver Broncos have become one of the NFL's most consistent and successful franchises, with just six losing seasons in the last thirty-seven years. Mason mines the team's rich history for stories that are revealing, moving, and often hilarious. Examples from the first ten years are "the worst uniforms ever," the arrival of Lou Saban and Floyd Little, and the story of "Marlin the Magician." The 70s brought John Ralston, the 3-4 Orange Crush defense, the Miracle of '77, and wild man Lyle Alzado. John Elway took the Broncos through the 80s and 90s, "The Drive," five Super Bowls, two championships, and "the greatest walk off ever." Fans are treated to the "ups, downs, and frowns" of Jay Cutler, the second coming of Peyton Manning, two more Super Bowls, one more championship, and the dominance of Von Miller. "Mile High Football" is alive and well in Denver, but it wasn't always that way. In this newly revised edition of Tales from the Denver Broncos Sideline, Andrew Mason gives readers the stories of the low points that tested Broncos fans' allegiance, the incredible highs that followed, and everything in between.

Building Mobile Experiences Frank Bentley,Edward Barrett,2012-09-14 Methods for new mobile experiences, from concept creation to prototyping to commercialization. The mobile device is changing the ways we interact with each other and with the world. The mobile experience is distinct from the desktop or laptop experience; mobile apps require a significantly different design philosophy as well as design methods that reflect the unique experience of computing in the world. This book presents an approach to designing mobile media that takes advantage of the Internet-connected, context-aware, and media-sharing capabilities of mobile devices. It introduces tools that can be used at every stage of building a mobile application, from concept creation to commercialization, as well as real-world examples from industry and academia. The methods outlined apply user-centered design processes to mobile devices in a way that makes these methods relevant to the mobile experience—which involves the use of systems in the complex spatial and social world rather than at a desk. The book shows how each project begins with generative research into the practices and desires of a diverse set of potential users, which grounds research and design in the real world. It then describes methods for rapid prototyping, usability evaluation, field testing, and scaling up solutions in order to bring a product to market. Building Mobile Experiences grew out of an MIT course in communicating with mobile technology; it is appropriate for classroom use and as a reference for mobile app designers.

No Plan B Mark Kiszla,2014-09-09 Peyton Manning is America's quarterback. And America loves a great comeback story. Less than two years after Manning was fired from the Indianapolis Colts, he led the Denver Broncos to the Super Bowl and won pro football's Most Valuable Player award for the fifth time. Manning did it against all odds, in a manner inspirational to any football fan—or anybody who has ever lost a job and been forced to start over. This second edition of No Plan B follows Manning's remarkable season with the Broncos on a wild ride to the championship game. Through it all, from the suspension of a star teammate to the heart ailment of his head coach, Manning carried the Broncos to 15 victories and, even in an agonizing defeat at the Super Bowl, reminded us why he is one of America's most beloved role models. Retire? No way. At age 38, Manning's lone goal is: Win it all.
